SPECOP PENGUIN TRAITS

ARCTIC NATIVE

You have resistance to cold damage. You are immune to the effects of both cold weather and Extreme Cold as described in the Dungeon Master's Guide (page 110). Furthermore, you do not treat shallow water, snow, or ice as difficult terrain.

CREATURE OF THE SEA

You can breathe air and water, and you have resistance to cold damage. Aquatic animals have an extraordinary affinity with your people. You can communicate simple ideas to any Beast that has a swimming speed. It can understand your words, though you have no special ability to understand it in return.

PENGUIN NIMBLENESS

You can move through the space of any creature that is of a size larger than yours. Your base walking speed is 20 feet but you can use your bonus action to "belly slide"; increasing your walking speed by 20 feet. While "belly sliding" you cannot use the Attack Action and also cannot cast spells or use objects. As an action you can stop belly sliding and stand up. You also have a swim speed of 50 feet.

PENGUIN STRIKE

If you have advantage on the attack roll and you are hidden from the target, you can make an unarmed strike stunning the target until the end of its next turn. The target must make a Constitution saving throw against your attack roll DC (the DC can be set at 10 + your Strength or Dexterity modifier, depending on your character build) or is stunned for 1 additional round. If the target's hit points are equal to or lower than half of their maximum hit points and they fail the save, they are knocked unconscious for 1 minute or until they take damage. You can use this attack equal to half your player level rounded down per long rest.

ELEMENTAL ADEPT

Fire, Thunder

Spells you cast ignore resistance to damage of the chosen type. In addition, when you roll damage for a spell you cast that deals damage of that type, you can treat any 1 on a damage die as a 2.

ARTIFICER TRAITS

Masters of invention, artificers use ingenuity and magic to unlock extraordinary capabilities in objects. They see magic as a complex system waiting to be decoded and then harnessed in their spells and inventions. You can find everything you need to play one of these inventors in the next few sections.

Artificers use a variety of tools to channel their arcane power. To cast a spell, an artificer might use alchemist's supplies to create a potent elixir, calligrapher's supplies to inscribe a sigil of power, or tinker's tools to craft a temporary charm. The magic of artificers is tied to their tools and their talents, and few other characters can produce the right tool for a job as well as an artificer.

MAGICAL TINKERING

At 1st level, you've learned how to invest a spark of magic into mundane objects. To use this ability, you must have thieves' tools or artisan's tools in hand. You then touch a Tiny nonmagical object as an action and give it one of the following magical properties of your choice:

- The object sheds bright light in a 5-foot radius and dim light for an additional 5 feet.
- Whenever tapped by a creature, the object emits a recorded message that can be heard up to 10 feet away. You utter the message when you bestow this property on the object, and the recording can be no more than 6 seconds long.
- The object continuously emits your choice of an odor or a nonverbal sound (wind, waves, chirping, or the like). The chosen phenomenon is perceivable up to 10 feet away.
- A static visual effect appears on one of the object's surfaces. This effect can be a picture, up to 25 words of text, lines and shapes, or a mixture of these elements, as you like.

The chosen property lasts indefinitely. As an action, you can touch the object and end the property early.

You can bestow magic on multiple objects, touching one object each time you use this feature, though a single object can only bear one property at a time. The maximum number of objects you can affect with this feature at one time is equal to your Intelligence modifier (minimum of one object). If you try to exceed your maximum, the oldest property immediately ends, and then the new property applies.

(Usages: 4)

INFUSE ITEM

6 Known

3 Infused Items at a time

At 2nd level, you've gained the ability to imbue

mundane items with certain magical infusions, turning those objects into magic items.

Whenever you gain a level in this class, you can replace one of the artificer infusions you learned with a new one.

INFUSING AN ITEM

Whenever you finish a long rest, you can touch a nonmagical object and imbue it with one of your artificer infusions, turning it into a magic item. An infusion works on only certain kinds of objects, as specified in the infusion's description. If the item requires attunement, you can attune yourself to it the instant you infuse the item. If you decide to attune to the item later, you must do so using the normal process for attunement (see the attunement rules in the Dungeon Master's Guide).

Your infusion remains in an item indefinitely, but when you die, the infusion vanishes after a number of days equal to your Intelligence modifier (minimum of 1 day). The infusion also vanishes if you replace your knowledge of the infusion.

You can infuse more than one nonmagical object at the end of a long rest; the maximum number of objects appears in the Infused Items column of the Artificer table. You must touch each of the objects, and each of your infusions can be in only one object at a time. Moreover, no object can bear more than one of your infusions at a time. If you try to exceed your maximum number of infusions, the oldest infusion ends, and then the new infusion applies.

If an infusion ends on an item that contains other things, like a bag of holding, its contents harmlessly appear in and around its space.

KNOWN INFUSIONS

Enhanced Arcane Focus.

Item: A rod, staff or wand (requires attunement)

While holding this item, a creature gains +1 bonus to spell attack rolls. In addition, the creature ignores half cover when making a spell attack.

The bonus increases to +2 when you reach 10th level in this class.

Homunculus Servant.

Item: A gem or crystal worth at least 100 gp

You learn intricate methods for magically creating a special homunculus that serves you. The item you infuse serves as the creature's heart, around which the creature's body instantly forms.

You determine the homunculus's appearance. Some artificers prefer mechanical-looking birds, whereas some like winged vials or miniature, animate cauldrons.

The homunculus is friendly to you and your companions, and it obeys your commands. See this creature's game statistics in the Homunculus Servant stat block, which uses your proficiency bonus (PB) in several places.

In combat, the homunculus shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it

takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the homunculus can take any action of its choice, not just Dodge.

The homunculus regains 2d6 hit points if the mending spell is cast on it. If you or the homunculus dies, it vanishes, leaving its heart in its space.

Evasion. If the homunculus is subjected to an effect that allows it to make a Dexterity saving throw to take only half damage, it instead takes no damage if it succeeds on the saving throw, and only half damage if it fails. It can't use this trait if it's incapacitated.

ACTIONS

Force Strike. Ranged Weapon Attack: +7 to hit, range 30 ft., one target you can see. Hit: 2 (1d4) + PB force damage.

REACTIONS

Channel Magic. The homunculus delivers a spell you cast that has a range of touch. The homunculus must be within 120 feet of you.

Resistant Armor.

Prerequisite: 6th-level artificer

Item: A suit of armor (requires attunement)

While wearing this armor, a creature has resistance to one of the following damage types, which you choose when you infuse the item: acid, cold, fire, force, lightning, necrotic, poison, psychic, radiant, or thunder.

Replicate Magic Item (3).

Using this infusion, you replicate a particular magic item. You can learn this infusion multiple times; each time you do so, choose a magic item that you can make with it, picking from the Replicable Items tables. A table's title tells you the level you must be in the class to choose an item from the table. Alternatively, you can choose the magic item from among the common magic items in the game, not including potions or scrolls.

In the tables, an item's entry tells you whether the item requires attunement. See the item's description in the Dungeon Master's Guide for more information about it, including the type of object required for its making.

Chosen Magic Items:

- Smoke Grenade
- Bag of Holding
- Cloak of Elvenkind

Kowalski's Flaws: The newly recreated magical items have a 25 percent chance to explode within the next hour but also have a 5 percent chance to gain a beneficial attribute. The explosion range is 20 feet and all creatures within range must make a DC 15 Dexterity Saving Throw or take 7 (2d6) force damage. The beneficial attributes are at the DM's discretion.

Smoke Grenade. As an action, a character can throw a grenade at a point up to 60 feet away. With a grenade launcher, the character can propel the grenade up to 120 feet away.

At the end of the turn after a smoke grenade lands, it emits a cloud of smoke that creates a heavily obscured area in a 20-foot radius. A moderate wind (at least 10 miles per hour) disperses the smoke in 4 rounds; a strong wind (20 or more miles per hour) disperses it in 1 round.

Bag of Holding. This bag has an interior space considerably larger than its outside dimensions, roughly 2 feet in diameter at the mouth and 4 feet deep. The bag can hold up to 500 pounds, not exceeding a volume of 64 cubic feet. The bag weighs 15 pounds, regardless of its contents. Retrieving an item from the bag requires an action.

If the bag is overloaded, pierced, or torn, it ruptures and is destroyed, and its contents are scattered in the Astral Plane. If the bag is turned inside out, its contents spill forth, unharmed, but the bag must be put right before it can be used again. Breathing creatures inside the bag can survive up to a number of minutes equal to 10 divided by the number of creatures (minimum 1 minute), after which time they begin to suffocate.

Placing a bag of holding inside an extradimensional space created by a Heward's Handy Haversack, Portable Hole, or similar item instantly destroys both items and opens a gate to the Astral Plane. The gate originates where the one item was placed inside the other. Any creature within 10 feet of the gate is sucked through it to a random location on the Astral Plane. The gate then closes. The gate is one-way only and can't be reopened.

Cloak of Elvenkind. While you wear this cloak with its hood up, Wisdom (Perception) checks made to see you have disadvantage, and you have advantage on Dexterity (Stealth) checks made to hide, as the cloak's color shifts to camouflage you. Pulling the hood up or down requires an action.

ARTILLERIST

An Artillerist specializes in using magic to hurl energy, projectiles, and explosions on a battlefield. This destructive power is valued by armies in the wars on many different worlds. And when war passes, some members of this specialization seek to build a more peaceful world by using their powers to fight the resurgence of strife. The world-hopping gnome artificer Vi has been especially vocal about making things right: "It's about time we fixed things instead of blowing them all to hell."

ARTILLERIST SPELLS

Starting at 3rd level, you always have certain spells prepared after you reach particular levels in this class, as shown in the Artillerist Spells table. These spells count as artificer spells for you, but they don't count against the number of artificer spells you prepare.

Artillerist Spells

Artificer Level	Spells
• 3rd	Shield, Thunderwave
• 5th	Scorching Ray, Shatter
9th	Fireball, Wind Wall
13th	Ice Storm, Wall of Fire
17th	Cone of Cold, Wall of Force

EDLRITCH CANNON

Also at 3rd level, you've learned how to create a magical cannon. Using woodcarver's tools or smith's tools, you can take an action to magically create a Small or Tiny eldrritch cannon in an unoccupied space on a horizontal surface within 5 feet of you. A Small eldrritch cannon occupies its space, and a Tiny one can be held in one hand. Once you create a cannon, you can't do so again until you finish a long rest or until you expend a spell slot to create one. You can have only one cannon at a time and can't create one while your cannon is present.

The cannon is a magical object. Regardless of size, the cannon has an AC of 18 and a number of hit points equal to five times your artificer level. It is immune to poison damage and psychic damage. If it is forced to make an ability check or a saving throw, treat all its ability scores as 10 (+0). If the mending spell is cast on it, it regains 2d6 hit points. It disappears if it is reduced to 0 hit points or after 1 hour. You can dismiss it early as an action.

When you create the cannon, you determine its appearance and whether it has legs. You also decide which type it is, choosing from the options on the Eldritch Cannons table. On each of your turns, you can take a bonus action to cause the cannon to activate if you are within 60 feet of it. As part of the same bonus action, you can direct the cannon to walk or climb up to 15 feet to an unoccupied space, provided it has legs.

Eldritch Cannon

Cannon	Activation
Flamethrower	The cannon exhales fire in an adjacent 15-foot cone that you designate. Each creature in that area must make a Dexterity saving throw against your spell save DC, taking 2d8 fire damage on a failed save or half as much damage on a successful one. The fire ignites any flammable objects in the area that aren't being worn or carried.
Force Ballista	Make a ranged spell attack, originating from the cannon, at one creature or object within 120 feet of it. On a hit, the target takes 2d8 force damage, and if the target is a creature, it is pushed up to 5 feet away from the cannon.
Protector	The cannon emits a burst of positive energy that grants itself and each creature of your choice within 10 feet of it a number of temporary hit points equal to 1d8 + your Intelligence modifier (minimum of +1).

ARCANE FIREARM

At 5th level, you know how to turn a wand, staff, or rod into an arcane firearm, a conduit for your destructive spells. When you finish a long rest, you can use woodcarver's tools to carve special sigils into a wand, staff, or rod and thereby turn it into your arcane firearm. The sigils disappear from the object if you later carve them on a different item. The sigils otherwise last indefinitely.

You can use your arcane firearm as a spellcasting focus for your artificer spells. When you cast an artificer spell through the firearm, roll a d8, and you gain a bonus to one of the spell's damage rolls equal to the number rolled.

THE RIGHT TOOL FOR THE JOB

At 3rd level, you've learned how to produce exactly the tool you need: with thieves' tools or artisan's tools in hand, you can magically create one set of artisan's tools in an unoccupied space within 5 feet of you. This creation requires 1 hour of uninterrupted work, which can coincide with a short or long rest. Though the product of magic, the tools are nonmagical, and they vanish when you use this feature again.

TOOL EXPERTISE

At 6th level, your proficiency bonus is now doubled for any ability check you make that uses your proficiency with a tool.

FLASH OF GENIUS

At 7th level, you've gained the ability to come up with solutions under pressure. When you or another creature you can see within 30 feet of you makes an ability check

or a saving throw, you can use your reaction to add your Intelligence modifier to the roll.

You can use this feature a number of times equal to your Intelligence modifier (minimum of once). You regain all expended uses when you finish a long rest.

(Usages: 4)

SPELLS

CANTRIPS

FIRE BOLT

Evocation cantrip

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Instantaneous

You hurl a mote of fire at a creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 fire damage. A flammable object hit by this spell ignites if it isn't being worn or carried.

At Higher Levels. This spell's damage increases by 1d10 when you reach 5th level (2d10), 11th level (3d10), and 17th level (4d10).

MENDING

Transmutation cantrip

Casting Time: 1 Minute

Range: Touch

Components: V, S, M (two lodestones)

Duration: Instantaneous

This spell repairs a single break or tear in an object you touch, such as a broken chain link, two halves of a broken key, a torn cloak, or a leaking wineskin. As long as the break or tear is no larger than 1 foot in any dimension, you mend it, leaving no trace of the former damage.

This spell can physically repair a magic item or construct, but the spell can't restore magic to such an object.

Kowalski's Flaw: There is a 10 percent chance that the mended object explodes within the next hour after the spell was cast. Each creature within 15 feet must make a DC 15 Dexterity Saving Throw or take 7 (2d6) force damage.

LEVEL 1

SHIELD

1st-Level Abjuration

Casting Time: 1 Reaction, which you take when you are hit by an attack or targeted by the magic missile spell

Range: Self

Components: V, S

Duration: 1 Round

An invisible barrier of magical force appears and protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from magic missile.

THUNDERWAVE

1st-Level Evocation

Casting Time: 1 Action

Range: Self (15-foot cube)

Components: V, S

Duration: Instantaneous

A wave of thunderous force sweeps out from you. Each creature in a 15-foot cube originating from you must make a Constitution saving throw. On a failed save, a creature takes 2d8 thunder damage and is pushed 10 feet away from you. On a successful save, the creature takes half as much damage and isn't pushed.

In addition, unsecured objects that are completely within the area of effect are automatically pushed 10 feet away from you by the spell's effect, and the spell emits a thunderous boom audible out to 300 feet.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d8 for each slot level above 1st.

DETECT MAGIC

1st-Level Divination (Ritual)

Casting Time: 1 Action

Range: Self

Components: V, S

Duration: Concentration, up to 10 Minutes

For the duration, you sense the presence of magic within 30 feet of you. If you sense magic in this way, you can use your action to see a faint aura around any visible creature or object in the area that bears magic, and you learn its school of magic, if any.

The spell can penetrate most barriers, but is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

EXPEDITIOUS RETREAT

1st-Level Transmutation

Casting Time: 1 Bonus Action

Range: Self

Components: V, S

Duration: Concentration, up to 10 Minutes

This spell allows you to move at an incredible pace. When you cast this spell, and then as a bonus action on each of your turns until the spell ends, you can take the Dash action.

IDENTIFY

1st-Level Divination (Ritual)

Casting Time: 1 Minute

Range: Touch

Components: V, S, M (a pearl worth at least 100 gp and an owl feather)

Duration: Instantaneous

You choose one object that you must touch throughout the casting of the spell. If it is a magic item or some other magic-imbued object, you learn its properties and how to use them, whether it requires attunement to use, and how many charges it has, if any. You learn whether any spells are affecting the item and what they are. If the item was created by a spell, you learn which spell created it.

If you instead touch a creature throughout the casting, you learn what spells, if any, are currently affecting it.

LEVEL 2

SCORCHING RAY

2nd-Level Evocation

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Instantaneous

You create three rays of fire and hurl them at targets within range. You can hurl them at one target or several. Make a ranged spell attack for each ray. On a hit, the target takes 2d6 fire damage.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you create one additional ray for each slot level above 2nd.

SHATTER

2nd-Level Evocation

Casting Time: 1 Action

Range: 60 feet

Components: V, S, M (a chip of mica)

Duration: Instantaneous

A sudden loud ringing noise, painfully intense, erupts from a point of your choice within range. Each creature in a 10-foot-radius sphere centered on that point must make a Constitution saving throw. A creature takes 3d8 thunder damage on a failed save, or half as much damage on a successful one. A creature made of inorganic material such as stone, crystal, or metal has disadvantage on this saving throw.

A nonmagical object that isn't being worn or carried also takes the damage if it's in the spell's area.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d8 for each slot level above 2nd.

CONTINUAL FLAME

2nd-Level Evocation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (ruby dust worth 50 gp, which the spell consumes)

Duration: Until dispelled

A flame, equivalent in brightness to a torch, springs forth from an object that you touch. The effect looks like a regular flame, but it creates no heat and doesn't use oxygen. A continual flame can be covered or hidden but not smothered or quenched.

DARKVISION

2nd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (either a pinch of dried carrot or an agate)

Duration: 8 hours

You touch a willing creature to grant it the ability to see in the dark. For the duration, that creature has darkvision out to a range of 60 feet.

PYROTECHNICS

2nd-Level Transmutation

Casting Time: 60 feet

Range: Target

Components: V, S

Duration: Instantaneous

Choose an area of flame that you can see and that can fit within a 5-foot cube within range. You can extinguish the fire in that area, and you create either fireworks or smoke.

Fireworks. The target explodes with a dazzling display of colors. Each creature within 10 feet of the target must succeed on a Constitution saving throw or become blinded until the end of your next turn.

Smoke. Thick black smoke spreads out from the target in a 20-foot radius, moving around corners. The area of the smoke is heavily obscured. The smoke persists for 1 minute or until a strong wind disperses it.

FEATURES, MAGIC ITEMS AND SPELLS

SPECOP PENGUIN TRAITS

ARCTIC NATIVE

You have resistance to cold damage. You are immune to the effects of both cold weather and Extreme Cold as described in the Dungeon Master's Guide (page 110). Furthermore, you do not treat shallow water, snow, or ice as difficult terrain.

CREATURE OF THE SEA

You can breathe air and water, and you have resistance to cold damage. Aquatic animals have an extraordinary affinity with your people. You can communicate simple ideas to any Beast that has a swimming speed. It can understand your words, though you have no special ability to understand it in return.

PENGUIN NIMBLENESS

You can move through the space of any creature that is of a size larger than yours. Your base walking speed is 20 feet but you can use your bonus action to "belly slide"; increasing your walking speed by 20 feet. While "belly sliding" you cannot use the Attack Action and also cannot cast spells or use objects. As an action you can stop belly sliding and stand up. You also have a swim speed of 50 feet.

PENGUIN STRIKE

If you have advantage on the attack roll and you are hidden from the target, you can make an unarmed strike stunning the target until the end of its next turn. The target must make a Constitution saving throw against your attack roll DC (the DC can be set at 10 + your Strength or Dexterity modifier, depending on your character build) or is stunned for 1 additional round. If the target's hit points are equal to or lower than half of their maximum hit points and they fail the save, they are knocked unconscious for 1 minute or until they take damage. You can use this attack equal to half your player level rounded down per long rest.

COURTIER

In your earlier days, you were a personage of some significance in a noble court or a bureaucratic organization. You might or might not come from an upper-class family; your talents, rather than the circumstances of your birth, could have secured you this position.

You might have been one of the many functionaries, attendants, and other hangers-on in the Court of Silverymoon, or perhaps you traveled in Waterdeep's

baroque and sometimes cutthroat conglomeration of guilds, nobles, adventurers, and secret societies. You might have been one of the behind-the-scenes law-keepers or functionaries in Baldur's Gate or Neverwinter, or you might have grown up in and around the castle of Daggerford.

Even if you are no longer a full-fledged member of the group that gave you your start in life, your relationships with your former fellows can be an advantage for you and your adventuring comrades. You might undertake missions with your new companions that further the interest of the organization that gave you your start in life. In any event, the abilities that you honed while serving as a courtier will stand you in good stead as an adventurer.

COURT FUNCTIONARY

Your knowledge of how bureaucracies function lets you gain access to the records and inner workings of any noble court or government you encounter. You know who the movers and shakers are, whom to go to for the favors you seek, and what the current intrigues of interest in the group are.

CROSSBOW EXPERT

Thanks to extensive practice with the crossbow, you gain the following benefits:

- You ignore the loading quality of crossbows with which you are proficient.
- Being within 5 feet of a hostile creature doesn't impose disadvantage on your ranged attack rolls.
- When you use the Attack action and attack with a one handed weapon, you can use a bonus action to attack with a hand crossbow you are holding.

SPELL SNIPER

You have learned techniques to enhance your attacks with certain kinds of spells, gaining the following benefits:

- When you cast a spell that requires you to make an attack roll, the spell's range is doubled.
- Your ranged spell attacks ignore half cover and three-quarters cover.
- You learn one cantrip that requires an attack roll. Choose the cantrip from the bard, cleric, druid, sorcerer, warlock, or wizard spell list. Your spellcasting ability for this cantrip depends on the spell list you chose from: Charisma for bard, sorcerer, and warlock; Wisdom for cleric or druid; or Intelligence for wizard.

WARLOCK TRAITS

OTHERWORDLY PATRON (THE HEXBLADE)

EXPANDED SPELL LIST

The Hexblade lets you choose from an expanded list of spells when you learn a warlock spell. The following spells are added to the warlock spell list for you.

Law Domain Spells

Spell Level	Spells
1st	Shield, Wrathful Smite
2nd	Blur, Branding Smite
3rd	Blink, Elemental Weapon
4th	Phantasmal Killer, Staggering Smite
5th	Banishing Smite, Cone of Cold

HEXBLADE'S CURSE

Starting at 1st level, you gain the ability to place a baleful curse on someone. As a bonus action, choose one creature you can see within 30 feet of you. The target is cursed for 1 minute. The curse ends early if the target dies, you die, or you are incapacitated. Until the curse ends, you gain the following benefits:

- You gain a bonus to damage rolls against the cursed target. The bonus equals your proficiency bonus.
- Any attack roll you make against the cursed target is a critical hit on a roll of 19 or 20 on the d20.
- If the cursed target dies, you regain hit points equal to your warlock level + your Charisma modifier (minimum of 1 hit point).

You can't use this feature again until you finish a short or long rest.

HEX WARRIOR

At 1st level, you acquire the training necessary to effectively arm yourself for battle. You gain proficiency with medium armor, shields, and martial weapons.

The influence of your patron also allows you to mystically channel your will through a particular weapon. Whenever you finish a long rest, you can touch one weapon that you are proficient with and that lacks the two-handed property. When you attack with that weapon, you can use your Charisma modifier, instead of Strength or Dexterity, for the attack and damage rolls. This benefit lasts until you finish a long rest. If you later gain the Pact of the Blade feature, this benefit extends to every pact weapon you conjure with that feature, no matter the weapon's type.

ACCURSED SPECTER

Starting at 6th level, you can curse the soul of a person you slay, temporarily binding it in your service. When you slay a humanoid, you can cause its spirit to rise from its corpse as a specter. When the specter appears, it gains temporary hit points equal to half your warlock level. Roll initiative for the specter, which has its own

turns. It obeys your verbal commands, and it gains a special bonus to its attack rolls equal to your Charisma modifier (minimum of +0).

The specter remains in your service until the end of your next long rest, at which point it vanishes to the afterlife.

Once you bind a specter with this feature, you can't use the feature again until you finish a long rest.

ELDRITCH INVOCATIONS

In your study of occult lore, you have unearthed Eldritch Invocations, fragments of forbidden knowledge that imbue you with an abiding magical ability.

At 2nd level, you gain two eldritch invocations of your choice. When you gain certain warlock levels, you gain additional invocations of your choice, as shown in the Invocations Known column of the Warlock table. A level prerequisite refers to your level in this class.

Additionally, when you gain a level in this class, you can choose one of the invocations you know and replace it with another invocation that you could learn at that level.

KNOWN INVOCATIONS

Agonizing Blast.

When you cast eldritch blast, add your Charisma modifier to the damage it deals on a hit.

Eldritch Mind.

You have advantage on Constitution saving throws that you make to maintain your concentration on a spell.

Ghostly Gaze.

As an action, you gain the ability to see through solid objects to a range of 30 feet. Within that range, you have darkvision if you don't already have it. This special sight lasts for 1 minute or until your concentration ends (as if you were concentrating on a spell). During that time, you perceive objects as ghostly, transparent images.

Once you use this invocation, you can't use it again until you finish a short or long rest.

Investment of the Chain Master.

When you cast find familiar, you infuse the summoned familiar with a measure of your eldritch power, granting the creature the following benefits:

- The familiar gains either a flying speed or a swimming speed (your choice) of 40 feet.
- As a bonus action, you can command the familiar to take the Attack action.
- The familiar's weapon attacks are considered magical for the purpose of overcoming immunity and resistance to nonmagical attacks.
- If the familiar forces a creature to make a saving throw, it uses your spell save DC.
- When the familiar takes damage, you can use your reaction to grant it resistance against that damage.

PACT BOON (PACT OF THE CHAIN)

- You learn the *find familiar* spell and can cast it as a ritual. The spell doesn't count against your number of spells known.
- When you cast the spell, you can choose one of the normal forms for your familiar or one of the following special forms: imp, pseudodragon, quasit, or sprite.
- Additionally, when you take the Attack action, you can forgo one of your own attacks to allow your familiar to make one attack with its reaction.

SPELLS CANTRIPS

ELDRITCH BLAST

Evocation cantrip

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Instantaneous

A beam of crackling energy streaks toward a creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 force damage.

At Higher Levels. The spell creates more than one beam when you reach higher levels: two beams at 5th level, three beams at 11th level, and four beams at 17th level. You can direct the beams at the same target or at different ones. Make a separate attack roll for each beam.

MAGE HAND

Conjuration cantrip

Casting Time: 1 Action

Range: 30 feet

Components: V, S

Duration: 1 Minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration or until you dismiss it as an action. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

You can use your action to control the hand. You can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial. You can move the hand up to 30 feet each time you use it.

The hand can't attack, activate magical items, or carry more than 10 pounds.

MIND SLIVER

Enchantment cantrip

Casting Time: 1 Action

Range: 60 feet

Components: V

Duration: 1 Round

You drive a disorienting spike of psychic energy into the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

At Higher Levels. This spell's damage increases by 1d6 when you reach certain levels: 5th level (2d6), 11th level (3d6), and 17th level (4d6).

PRESTIDIGATION

Transmutation cantrip

Casting Time: 1 Action

Range: 10 feet

Components: V, S

Duration: Up to 1 hour

This spell is a minor magical trick that novice spellcasters use for practice. You create one of the following magical effects within range:

- You create an instantaneous, harmless sensory effect, such as a shower of sparks, a puff of wind, faint musical notes, or an odd odor.
- You instantaneously light or snuff out a candle, a torch, or a small campfire.
- You instantaneously clean or soil an object no larger than 1 cubic foot.
- You chill, warm, or flavor up to 1 cubic foot of nonliving material for 1 hour.
- You make a color, a small mark, or a symbol appear on an object or a surface for 1 hour.
- You create a nonmagical trinket or an illusory image that can fit in your hand and that lasts until the end of your next turn.

If you cast this spell multiple times, you can have up to three of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

LEVEL 1

ARMOR OF AGATHY

1st-Level Abjuration

Casting Time: 1 Action

Range: Self

Components: V, S, M (a cup of water)

Duration: 1 hour

A protective magical force surrounds you, manifesting as a spectral frost that covers you and your gear. You gain 5 temporary hit points for the duration. If a creature hits you with a melee attack while you have these hit points, the creature takes 5 cold damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, both the temporary hit points and the cold damage increase by 5 for each slot.

HEX

1st-Level Enchantment

Casting Time: 1 Bonus Action

Range: 90 feet

Components: V, S, M (the petrified eye of a newt)
Duration: Concentration, up to 1 hour

You place a curse on a creature that you can see within range. Until the spell ends, you deal an extra 1d6 necrotic damage to the target whenever you hit it with an attack. Also, choose one ability when you cast the spell. The target has disadvantage on ability checks made with the chosen ability.

If the target drops to 0 hit points before this spell ends, you can use a bonus action on a subsequent turn of yours to curse a new creature.

A Remove Curse cast on the target ends this spell early.

At Higher Levels. When you cast this spell using a spell slot of 3rd or 4th level, you can maintain your concentration on the spell for up to 8 hours. When you use a spell slot of 5th level or higher, you can maintain your concentration on the spell for up to 24 hours.

LEVEL 2

INVISIBILITY

2nd-Level Illusion

Casting Time: 1 Action

Range: Touch

Components: V, S, M (an eyelash encased in gum arabic)

Duration: Concentration, up to 1 hour

A creature you touch becomes invisible until the spell ends. Anything the target is wearing or carrying is invisible as long as it is on the target's person. The spell ends for a target that attacks or casts a spell.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional creature for each slot level above 2nd.

LEVEL 3

COUNTERSPELL

3rd-Level Abjuration

Casting Time: 1 Reaction, which you take when you see a creature within 60 feet of you casting a spell

Range: 60 feet

Components: S

Duration: Instantaneous

You attempt to interrupt a creature in the process of casting a spell. If the creature is casting a spell of 3rd level or lower, its spell fails and has no effect. If it is casting a spell of 4th level or higher, make an ability check using your spellcasting ability. The DC equals 10 + the spell's level. On a success, the creature's spell fails and has no effect.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, the interrupted spell has no effect if its level is less than or equal to the level of the spell slot you used.

DISPEL MAGIC

3rd-Level Abjuration

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Instantaneous

Choose any creature, object, or magical effect within range. Any spell of 3rd level or lower on the target ends. For each spell of 4th level or higher on the target, make an ability check using your spellcasting ability. The DC equals 10 + the spell's level. On a successful check, the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, you automatically end the effects of a spell on the target if the spell's level is equal to or less than the level of the spell slot you used.

FLY

3rd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (a wing feather from any bird)

Duration: Concentration, up to 10 minutes

You touch a willing creature. The target gains a flying speed of 60 feet for the duration. When the spell ends, the target falls if it is still aloft, unless it can stop the fall.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, you can target one additional creature for each slot level above 3rd.

LEVEL 4

SHADOW OF MOIL

4th-Level Necromancy

Casting Time: 1 Action

Range: Self

Components: V, S, M (an undead eyeball encased in a gem worth at least 150gp)

Duration: Concentration, up to 1 minute

Flame-like shadows wreath your body until the spell ends, causing you to become heavily obscured to others. The shadows turn dim light within 10 feet of you into darkness, and bright light in the same area to dim light.

Until the spell ends, you have resistance to radiant damage. In addition, whenever a creature within 10 feet of you hits you with an attack, the shadows lash out at that creature, dealing it 2d8 necrotic damage.

SICKENING RADIANCE

4th-Level Evocation

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Concentration, up to 10 minutes

Dim, greenish light spreads within a 30-foot-radius sphere centered on a point you choose within range. The light spreads around corners, and it lasts until the spell ends.

When a creature moves into the spell's area for the first time on a turn or starts its turn there, that creature must succeed on a Constitution saving throw or take 4d10 radiant damage, and it suffers one level of exhaustion and emits a dim, greenish light in a 5-foot radius. This light makes it impossible for the creature to benefit from being invisible. The light and any levels of exhaustion caused by this spell go away when the spell ends.

FEATURES & TRAITS

FEATURES, MAGIC ITEMS AND SPELLS

SPECOP PENGUIN TRAITS

ARCTIC NATIVE

You have resistance to cold damage. You are immune to the effects of both cold weather and Extreme Cold as described in the Dungeon Master's Guide (page 110). Furthermore, you do not treat shallow water, snow, or ice as difficult terrain.

CREATURE OF THE SEA

You can breathe air and water, and you have resistance to cold damage. Aquatic animals have an extraordinary affinity with your people. You can communicate simple ideas to any Beast that has a swimming speed. It can understand your words, though you have no special ability to understand it in return.

PENGUIN NIMBLENESS

You can move through the space of any creature that is of a size larger than yours. Your base walking speed is 20 feet but you can use your bonus action to "belly slide"; increasing your walking speed by 20 feet. While "belly sliding" you cannot use the Attack Action and also cannot cast spells or use objects. As an action you can stop belly sliding and stand up. You also have a swim speed of 50 feet.

PENGUIN STRIKE

If you have advantage on the attack roll and you are hidden from the target, you can make an unarmed strike stunning the target until the end of its next turn. The target must make a Constitution saving throw against your attack roll DC (the DC can be set at 10 + your Strength or Dexterity modifier, depending on your character build) or is stunned for 1 additional round. If the target's hit points are equal to or lower than half of their maximum hit points and they fail the save, they are knocked unconscious for 1 minute or until they take damage. You can use this attack equal to half your player level rounded down per long rest.

PRIMITIVE TRIBE

You come from a primitive tribe that has had no interaction with 'modern' civilization. Nearly everything is new to you. Things that everyone else takes for granted are fascinating to you at least at first. You ask dumb questions though sometimes these questions are actually very smart because you ask about things that no one else questions. You generally do things the wrong way (for example putting on armor) until someone shows you how to do them. However you are

also attuned to things of nature that other people don't notice.

TENSION SENSE

You are attuned to the sounds of the creatures in the natural environment around you. You can tell when there is danger, or something unnatural going on, because you can sense the tension in the environment around you.

- Tension sense does not work in a city, castle, town, dungeon, or open ocean (but it does work in a village or isolated tower).

GREAT WEAPON MASTER

You've learned to put the weight of a weapon to your advantage, letting its momentum empower your strikes. You gain the following benefits:

- On your turn, when you score a critical hit with a melee weapon or reduce a creature to 0 hit points with one, you can make one melee weapon attack as a bonus action.
- Before you make a melee attack with a heavy weapon that you are proficient with, you can choose to take a -5 penalty to the attack roll. If the attack hits, you add +10 to the attack's damage.

BARBARIAN TRAITS

RAGE

In battle, you fight with primal ferocity. On your turn, you can enter a rage as a bonus action.

While raging, you gain the following benefits if you aren't wearing heavy armor:

- You have advantage on Strength checks and Strength saving throws.
- When you make a melee weapon attack using Strength, you gain a bonus to the damage roll that increases as you gain levels as a barbarian, as shown in the Rage Damage column of the Barbarian table.
- You have resistance to bludgeoning, piercing, and slashing damage.

If you are able to cast spells, you can't cast them or concentrate on them while raging.

Your rage lasts for 1 minute. It ends early if you are knocked unconscious or if your turn ends and you haven't attacked a hostile creature since your last turn or taken damage since then. You can also end your rage on your turn as a bonus action.

Once you have raged the number of times shown for your barbarian level in the Rages column of the Barbarian table, you must finish a long rest before you can rage again.

UNARMORED DEFENSE

While you are not wearing any armor, your armor class equals $10 + \text{your Dexterity modifier} + \text{your Constitution modifier}$. You can use a shield and still gain this benefit.

RECKLESS ATTACK

Starting at 2nd level, you can throw aside all concern for defense to attack with fierce desperation. When you make your first attack on your turn, you can decide to attack recklessly. Doing so gives you advantage on melee weapon attack rolls using Strength during this turn, but attack rolls against you have advantage until your next turn.

DANGER SENSE

At 2nd level, you gain an uncanny sense of when things nearby aren't as they should be, giving you an edge when you dodge away from danger. You have advantage on Dexterity saving throws against effects that you can see, such as traps and spells. To gain this benefit, you can't be blinded, deafened, or incapacitated.

PRIMAL PATH (WILD MAGIC)

Many places in the multiverse abound with beauty, intense emotion, and rampant magic; the Feywild, the Upper Planes, and other realms of supernatural power radiate with such forces and can profoundly influence people. As folk of deep feeling, barbarians are especially susceptible to these wild influences, with some barbarians being transformed by the magic. These magic-suffused barbarians walk the Path of Wild Magic. Elf, tiefling, aasimar, and genasi barbarians often seek this path, eager to manifest the otherworldly magic of their ancestors.

MAGIC AWARENESS

When you choose this path at 3rd level, as an action, you can open your awareness to the presence of concentrated magic. Until the end of your next turn, you know the location of any spell or magic item within 60 feet of you that isn't behind total cover. When you sense a spell, you learn which school of magic it belongs to.

You can use this feature a number of times equal to your proficiency bonus, and you regain all expended uses when you finish a long rest.

WILD SURGE

Also at 3rd level, the magical energy roiling inside you sometimes erupts from you. When you enter your rage, roll on the Wild Magic table to determine the magical effect produced.

If the effect requires a saving throw, the DC equals $8 + \text{your proficiency bonus} + \text{your Constitution modifier}$.

Wild Magic

d8 Effect

- 1 each creature of your choice that you can see within 30 feet of you must succeed on a Constitution saving throw or take 1d12 necrotic damage. You also gain temporary hit points equal to 1d12 plus your barbarian level.
- 2 You teleport up to 30 feet to an unoccupied space you can see. Until your rage ends, you can use this effect again on each of your turns as a bonus action.
- 3 An intangible spirit, which looks like a flumph or a pixie (your choice), appears within 5 feet of one creature of your choice that you can see within 30 feet of you. At the end of the current turn, the spirit explodes, and each creature within 5 feet of it must succeed on a Dexterity saving throw or take 1d6 force damage. Until your rage ends, you can use this effect again, summoning another spirit, on each of your turns as a bonus action.
- 4 Magic infuses one weapon of your choice that you are holding. Until your rage ends, the weapon's damage type changes to force, and it gains the light and thrown properties, with a normal range of 20 feet and a long range of 60 feet. If the weapon leaves your hand, the weapon reappears in your hand at the end of the current turn.
- 5 Whenever a creature hits you with an attack roll before your rage ends, that creature takes 1d6 force damage, as magic lashes out in retribution.
- 6 Until your rage ends, you are surrounded by multicolored, protective lights; you gain a +1 bonus to AC, and while within 10 feet of you, your allies gain the same bonus.
- 7 Flowers and vines temporarily grow around you; until your rage ends, the ground within 15 feet of you is difficult terrain for your enemies.
- 8 A bolt of light shoots from your chest. Another creature of your choice that you can see within 30 feet of you must succeed on a Constitution saving throw or take 1d6 radiant damage and be blinded until the start of your next turn. Until your rage ends, you can use this effect again on each of your turns as a bonus action.

BOLSTERING MAGIC

Beginning at 6th level, you can harness your wild magic to bolster yourself or a companion. As an action, you can touch one creature (which can be yourself) and confer one of the following benefits of your choice to that creature:

- For 10 minutes, the creature can roll a d3 whenever making an attack roll or an ability check and add the number rolled to the d20 roll.
- Roll a d3. The creature regains one expended spell slot, the level of which equals the number rolled or lower (the creature's choice). Once a creature receives this benefit, that creature can't receive it again until after a long rest.

You can take this action a number of times equal to your proficiency bonus, and you regain all expended uses when you finish a long rest.

EXTRA ATTACK

Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

FAST MOVEMENT

Starting at 5th level, your speed increases by 10 feet while you aren't wearing heavy armor.

FERAL INSTINCT

By 7th level, your instincts are so honed that you have advantage on initiative rolls.

Additionally, if you are surprised at the beginning of combat and aren't incapacitated, you can act normally on your first turn, but only if you enter your rage before doing anything else on that turn.

If you have advantage on the attack roll and you are hidden from the target, you can make an unarmed strike stunning the target until the end of its next turn. The target must make a Constitution saving throw against your attack roll DC (the DC can be set at 10 + your Strength or Dexterity modifier, depending on your character build) or is stunned for 1 additional round. If the target's hit points are equal to or lower than half of their maximum hit points and they fail the save, they are knocked unconscious for 1 minute or until they take damage. You can use this attack equal to half your player level rounded down per long rest.

SOLDIER

War has been your life for as long as you care to remember. You trained as a youth, studied the use of weapons and armor, learned basic survival techniques, including how to stay alive on the battlefield. You might have been part of a standing national army or a mercenary company, or perhaps a member of a local militia who rose to prominence during a recent war.

When you choose this background, work with your DM to determine which military organization you were a part

of, how far through its ranks you progressed, and what kind of experiences you had during your military career. Was it a standing army, a town guard, or a village militia? Or it might have been a noble's or merchant's private army, or a mercenary company.

MILITARY RANK

Officer

You have a military rank from your career as a soldier. Soldiers loyal to your former military organization still recognize your authority and influence, and they defer to you if they are of a lower rank. You can invoke your rank to exert influence over other soldiers and requisition simple equipment or horses for temporary use. You can also usually gain access to friendly military encampments and fortresses where your rank is recognized.

FIGHTING INITIATE

Your martial training has helped you develop a particular style of fighting. As a result, you learn one Fighting Style option of your choice from the fighter class. If you already have a style, the one you choose must be different.

Whenever you reach a level that grants the Ability Score Improvement feature, you can replace this feat's fighting style with another one from the fighter class that you don't have.

FIGHTER TRAITS

FIGHTING STYLE

You adopt a particular style of fighting as your specialty. Choose one of the following options. You can't take a Fighting Style option more than once, even if you later get to choose again.

BLIND FIGHTING

You have blindsight with a range of 10 feet. Within that range, you can effectively see anything that isn't behind total cover, even if you're blinded or in darkness. Moreover, you can see an invisible creature within that range, unless the creature successfully hides from you.

DUELING

When you are wielding a melee weapon in one hand and no other weapons, you gain a +2 bonus to damage rolls with that weapon.

SECOND WIND

You have a limited well of stamina that you can draw on to protect yourself from harm. On your turn, you can use a bonus action to regain hit points equal to $1d10 + \text{your fighter level}$.

Once you use this feature, you must finish a short or long rest before you can use it again.

ACTION SURGE

Starting at 2nd level, you can push yourself beyond your normal limits for a moment. On your turn, you can take one additional action.

Once you use this feature, you must finish a short or long rest before you can use it again. Starting at 17th level, you can use it twice before a rest, but only once on the same turn.

MARTIAL ARCHETYPE (BATTLE MASTER)

When you choose this archetype at 3rd level, you learn maneuvers that are fueled by special dice called superiority dice.

Maneuvers. You learn three maneuvers of your choice. Many maneuvers enhance an attack in some way. You can use only one maneuver per attack. You learn two additional maneuvers of your choice at 7th, 10th, and 15th level. Each time you learn new maneuvers, you can also replace one maneuver you know with a different one.

Superiority Dice (5 d8). You have four superiority dice, which are d8s. A superiority die is expended when you use it. You regain all of your expended superiority dice when you finish a short or long rest. You gain another superiority die at 7th level and one more at 15th level.

Saving Throws. Some of your maneuvers require your target to make a saving throw to resist the maneuver's effects. The saving throw DC is calculated as follows:

Maneuver Save DC = 14

STUDENT OF WAR

At 3rd level, you gain proficiency with one type of artisan's tools of your choice.

KNOW YOUR ENEMY

Starting at 7th level, if you spend at least 1 minute observing or interacting with another creature outside combat, you can learn certain information about its capabilities compared to your own. The DM tells you if the creature is your equal, superior, or inferior in regard to two of the following characteristics of your choice:

- Strength Score
- Dexterity Score
- Constitution Score
- Armor Class
- Current Hit Points
- Total Class Levels, if any
- Fighter Class Levels, if any

KNOWN MANEUVERS

Ambush. When you make a Dexterity (Stealth) check or an initiative roll, you can expend one superiority die and add the die to the roll, provided you aren't incapacitated.

Menacing Attack. When you hit a creature with a weapon attack, you can expend one superiority die to attempt to frighten the target. You add the superiority die to the attack's damage roll, and the target must make a Wisdom

saving throw. On a failed save, it is frightened of you until the end of your next turn.

Precision Attack. When you make a weapon attack roll against a creature, you can expend one superiority die to add it to the roll. You can use this maneuver before or after making the attack roll, but before any effects of the attack are applied.

Riposte. When a creature misses you with a melee attack, you can use your reaction and expend one superiority die to make a melee weapon attack against the creature. If you hit, you add the superiority die to the attack's damage roll.

Trip Attack. When you hit a creature with a weapon attack, you can expend one superiority die to attempt to knock the target down. You add the superiority die to the attack's damage roll, and if the target is Large or smaller, it must make a Strength saving throw. On a failed save, you knock the target prone.

EXTRA ATTACK

Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

The number of attacks increases to three when you reach 11th level in this class and to four when you reach 20th level in this class.

FEATURES, MAGIC ITEMS AND SPELLS

LEMUR OF MADAGASCAR TRAITS LIKE TO MOVE IT!

You gain proficiency in the Performance and Acrobatics skills. If you already have proficiency in those skills or gain these proficiency, you will gain expertise in those skills instead. You also gain advantage for Performance Skill rolls if performing in a group of size 3 or larger.

STEALTH SENSE

When well-rested, you are able to sense that someone or something is in stealth but you are unable to pinpoint its' location if you are within 50 feet of it.

ARBOREAL MOVEMENT

You have a climbing speed of 35 feet and roll with advantage on climbing/jumping tasks.

ENTERTAINER

Dancer

You thrive in front of an audience. You know how to entrance them, entertain them, and even inspire them. Your poetics can stir the hearts of those who hear you, awakening grief or joy, laughter or anger. Your music raises their spirits or captures their sorrow. Your dance steps captivate, your humor cuts to the quick. Whatever techniques you use, your art is your life.

BY POPULAR DEMAND

You can always find a place to perform, usually in an inn or tavern but possibly with a circus, at a theater, or even in a noble's court. At such a place, you receive free lodging and food of a modest or comfortable standard (depending on the quality of the establishment), as long as you perform each night. In addition, your performance makes you something of a local figure. When strangers recognize you in a town where you have performed, they typically take a liking to you.

CROSSBOW EXPERT

Thanks to extensive practice with the crossbow, you gain the following benefits:

- You ignore the loading quality of crossbows with which you are proficient.
- Being within 5 feet of a hostile creature doesn't impose disadvantage on your ranged attack rolls.
- When you use the Attack action and attack with a one handed weapon, you can use a bonus action to attack with a hand crossbow you are holding.

SHARPSHOOTER

You have mastered ranged weapons and can make shots that others find impossible. You gain the following benefits:

- Attacking at long range doesn't impose disadvantage on your ranged weapon attack rolls.
- Your ranged weapon attacks ignore half and three-quarters cover.
- Before you make an attack with a ranged weapon that you are proficient with, you can choose to take a -5 penalty to the attack roll. If that attack hits, you add +10 to the attack's damage.

RANGER TRAITS

FAVORED ENEMY

(Plants, Monstrosities)

Beginning at 1st level, you have significant experience studying, tracking, hunting, and even talking to a certain type of enemy.

Choose a type of favored enemy: aberrations, beasts, celestials, constructs, dragons, elementals, fey, fiends, giants, monstrosities, oozes, plants, or undead. Alternatively, you can select two races of humanoid (such as gnolls and orcs) as favored enemies.

You have advantage on Wisdom (Survival) checks to track your favored enemies, as well as on Intelligence checks to recall information about them.

When you gain this feature, you also learn one language of your choice that is spoken by your favored enemies, if they speak one at all.

You choose one additional favored enemy, as well as an associated language, at 6th and 14th level. As you gain levels, your choices should reflect the types of monsters you have encountered on your adventures.

NATURAL EXPLORER

(Forest, Grassland)

Also at 1st level, you are particularly familiar with one type of natural environment and are adept at traveling and surviving in such regions. Choose one type of favored terrain: arctic, coast, desert, forest, grassland, mountain, swamp, or the Underdark. When you make an Intelligence or Wisdom check related to your favored terrain, your proficiency bonus is doubled if you are using a skill that you're proficient in.

While traveling for an hour or more in your favored terrain, you gain the following benefits:

- Difficult terrain doesn't slow your group's travel.
- Your group can't become lost except by magical means.
- Even when you are engaged in another activity while traveling (such as foraging, navigating, or tracking), you remain alert to danger.

- If you are traveling alone, you can move stealthily at a normal pace.
- When you forage, you find twice as much food as you normally would.
- While tracking other creatures, you also learn their exact number, their sizes, and how long ago they passed through the area.

You choose additional favored terrain types at 6th and 10th level.

FIGHTING STYLE

At 2nd level, you adopt a particular style of fighting as your specialty. Choose one of the following options. You can't take a Fighting Style option more than once, even if you later get to choose again.

ARCHERY

You gain a +2 bonus to attack rolls you make with ranged weapons.

BEAST MASTER

The Beast Master archetype embodies a friendship between the civilized races and the beasts of the world. United in focus, beast and ranger work as one to fight the monstrous foes that threaten civilization and the wilderness alike. Emulating the Beast Master archetype means committing yourself to this ideal, working in partnership with an animal as its companion and friend.

PRIMAL COMPANION

You magically summon a primal beast, which draws strength from your bond with nature. The beast is friendly to you and your companions and obeys your commands. Choose its stat block—Beast of the Land, Beast of the Sea, or Beast of the Sky—which uses your proficiency bonus (PB) in several places. You also determine the kind of animal the beast is, choosing a kind appropriate for the stat block. Whatever kind you choose, the beast bears primal markings, indicating its mystical origin.

In combat, the beast acts during your turn. It can move and use its reaction on its own, but the only action it takes is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. You can also sacrifice one of your attacks when you take the Attack action to command the beast to take the Attack action. If you are incapacitated, the beast can take any action of its choice, not just Dodge.

If the beast has died within the last hour, you can use your action to touch it and expend a spell slot of 1st level or higher. The beast returns to life after 1 minute with all its hit points restored. When you finish a long rest, you can summon a different primal beast. The new beast appears in an unoccupied space within 5 feet of you, and you choose its stat block and appearance. If you already have a beast from this feature, it vanishes when the new beast appears. The beast also vanishes if you die.

REACTIONS

Flash Grapple. If another creature provokes an opportunity attack of Mort, he can instead try to Grapple that creature and has advantage on the attack throw. Mort can not use this reaction if he already grapples another creature.

EXCEPTIONAL TRAINING

Beginning at 7th level, on any of your turns when your beast companion doesn't attack, you can use a bonus action to command the beast to take the Dash, Disengage, or Help action on its turn. In addition, the beast's attacks now count as magical for the purpose of overcoming resistance and immunity to nonmagical attacks and damage.

PRIMAL AWARENESS

This 3rd-level feature replaces the Primeval Awareness feature. You gain no benefit from the replaced feature and don't qualify for anything in the game that requires it.

You can focus your awareness through the interconnections of nature: you learn additional spells when you reach certain levels in this class if you don't already know them, as shown in the Primal Awareness Spells table. These spells don't count against the number of ranger spells you know.

Primal Awareness Spells

Ranger Level	Spells
3rd	Speak with Animals
5th	Beast Sense
9th	Speak with Plants
13th	Locate Creature
17th	Commune with Nature

You can cast each of these spells once without expending a spell slot. Once you cast a spell in this way, you can't do so again until you finish a long rest.

EXTRA ATTACK

Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

SPELLS

LEVEL 1

SPEAK WITH ANIMALS

1st-Level Divination (Ritual)

Casting Time: 1 Action

Range: Self

Components: V, S

Duration: 10 Minutes

You gain the ability to comprehend and verbally communicate with beasts for the duration. The knowledge and awareness of many beasts is limited by their intelligence, but at minimum, beasts can give you information about nearby locations and monsters, including whatever they can perceive or have perceived within the past day. You might be able to persuade a beast to perform a small favor for you, at the DM's discretion.

ABSORB ELEMENTS

1st-Level Abjuration

Casting Time: 1 Reaction, which you take when you take acid, cold, fire, lightning, or thunder damage

Range: Self

Components: S

Duration: 1 Round

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

ENTANGLE

1st-Level Conjuration

Casting Time: 1 Action

Range: 90 feet

Components: V, S

Duration: Concentration, up to 1 Minute

Grasping weeds and vines sprout from the ground in a 20-foot square starting from a point within range. For the duration, these plants turn the ground in the area into difficult terrain.

A creature in the area when you cast the spell must succeed on a Strength saving throw or be restrained by the entangling plants until the spell ends. A creature restrained by the plants can use its action to make a Strength check against your spell save DC. On a success, it frees itself.

When the spell ends, the conjured plants wilt away.

HUNTER'S MARK

1st-Level Divination

Casting Time: 1 Bonus Action

Range: 90 feet

Components: V

Duration: Concentration, up to 1 Hour

You choose a creature you can see within range and mystically mark it as your quarry. Until the spell ends, you deal an extra 1d6 damage to the target whenever you hit it with a weapon attack, and you have advantage on

any Wisdom (Perception) or Wisdom (Survival) check you make to find it.

If the target drops to 0 hit points before this spell ends, you can use a bonus action on a subsequent turn of yours to mark a new creature.

At Higher Levels. When you cast this spell using a spell slot of 3rd or 4th level, you can maintain your concentration on the spell for up to 8 hours. When you use a spell slot of 5th level or higher, you can maintain your concentration on the spell for up to 24 hours.

LEVEL 2

BEAST SENSE

2nd-Level Divination (Ritual)

Casting Time: 1 Action

Range: Touch

Components: S

Duration: Concentration, up to 1 Hour

You touch a willing beast. For the duration of the spell, you can use your action to see through the beast's eyes and hear what it hears, and continue to do so until you use your action to return to your normal senses.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you create one additional ray for each slot level above 2nd.

PASS WITHOUT TRACE

2nd-Level Abjuration

Casting Time: 1 Action

Range: Self

Components: V, S, M (ashes from a burned leaf of mistletoe and a sprig of spruce)

Duration: Concentration, up to 1 Hour

A veil of shadows and silence radiates from you, masking you and your companions from detection. For the duration, each creature you choose within 30 feet of you (including you) has a +10 bonus to Dexterity (Stealth) checks and can't be tracked except by magical means. A creature that receives this bonus leaves behind no tracks or other traces of its passage.

SPIKE GROWTH

2nd-Level Transmutation

Casting Time: 1 Action

Range: 150 feet

Components: V, S, M (seven sharp thorns or seven small twigs, each sharpened to a point)

Duration: Concentration, up to 10 Minutes

The ground in a 20-foot radius centered on a point within range twists and sprouts hard spikes and thorns. The area becomes difficult terrain for the duration. When a creature moves into or within the area, it takes 2d4 piercing damage for every 5 feet it travels.

The transformation of the ground is camouflaged to look natural. Any creature that can't see the area at the time the spell is cast must make a Wisdom (Perception)

check against your spell save DC to recognize the terrain as hazardous before entering it.

FEATURES, MAGIC ITEMS AND SPELLS

LEMUR OF MADAGASCAR TRAITS LIKE TO MOVE IT!

You gain proficiency in the Performance and Acrobatics skills. If you already have proficiency in those skills or gain these proficiency, you will gain expertise in those skills instead. You also gain advantage for Performance Skill rolls if performing in a group of size 3 or larger.

STEALTH SENSE

When well-rested, you are able to sense that someone or something is in stealth but you are unable to pinpoint its' location if you are within 50 feet of it.

ARBOREAL MOVEMENT

You have a climbing speed of 35 feet and roll with advantage on climbing/jumping tasks.

METAMAGIC ADEPT

You've learned how to exert your will on your spells to alter how they function:

- You learn two Metamagic options of your choice from the sorcerer class. You can use only one Metamagic option on a spell when you cast it, unless the option says otherwise. Whenever you reach a level that grants the Ability Score Improvement feature, you can replace one of these Metamagic options with another one from the sorcerer class.
- You gain 2 sorcery points to spend on Metamagic (these points are added to any sorcery points you have from another source but can be used only on Metamagic). You regain all spent sorcery points when you finish a long rest.

QUICKENED SPELL

When you cast a spell that has a casting time of 1 action, you can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

SUBTLE SPELL

When you cast a spell, you can spend 1 sorcery point to cast it without any somatic or verbal components.

DRUID TRAITS

Whether calling on the elemental forces of nature or emulating the creatures of the animal world, druids are an embodiment of nature's resilience, cunning, and fury. They claim no mastery over nature, but see themselves as extensions of nature's indomitable will.

WILD SHAPE

Starting at 2nd level, you can use your action to magically assume the shape of a beast that you have seen before. You can use this feature twice. You regain expended uses when you finish a short or long rest.

Your druid level determines the beasts you can transform into, as shown in the Beast Shapes table. At 2nd level, for example, you can transform into any beast that has a challenge rating of 1/4 or lower that doesn't have a flying or swimming speed.

Beast Shapes

Level	Max. CR	Limitations	Example
2nd	1/4	No flying or swimming speed	Wolf
4th	1/2	No flying speed	Crocodile
8th	1		Giant Eagle

You can stay in a beast shape for a number of hours equal to half your druid level (rounded down). You then revert to your normal form unless you expend another use of this feature. You can revert to your normal form earlier by using a bonus action on your turn. You automatically revert if you fall unconscious, drop to 0 hit points, or die.

While you are transformed, the following rules apply:

- Your game statistics are replaced by the statistics of the beast, but you retain your alignment, personality, and Intelligence, Wisdom, and Charisma scores. You also retain all of your skill and saving throw proficiencies, in addition to gaining those of the creature. If the creature has the same proficiency as you and the bonus in its stat block is higher than yours, use the creature's bonus instead of yours. If the creature has any legendary or lair actions, you can't use them.
- When you transform, you assume the beast's hit points and Hit Dice. When you revert to your normal form, you return to the number of hit points you had before you transformed. However, if you revert as a result of dropping to 0 hit points, any excess damage carries over to your normal form. For example, if you take 10 damage in animal form and have only 1 hit point left, you revert and take 9 damage. As long as the excess damage doesn't reduce your normal form to 0 hit points, you aren't knocked unconscious.
- You can't cast spells, and your ability to speak or take any action that requires hands is limited to the capabilities of your beast form. Transforming doesn't break your concentration on a spell you've already cast, however, or prevent you from taking actions that are part of a spell, such as *Call Lightning*, that you've already cast.
- You retain the benefit of any features from your class, race, or other source and can use them if the new form is physically capable of doing so. However, you

can't use any of your special senses, such as darkvision, unless your new form also has that sense.

- You choose whether your equipment falls to the ground in your space, merges into your new form, or is worn by it. Worn equipment functions as normal, but the DM decides whether it is practical for the new form to wear a piece of equipment, based on the creature's shape and size. Your equipment doesn't change size or shape to match the new form, and any equipment that the new form can't wear must either fall to the ground or merge with it. Equipment that merges with the form has no effect until you leave the form.

DRUID CIRCLE

At 2nd level, you choose to identify with a circle of druids. Your choice grants you features at 2nd level and again at 6th, 10th, and 14th level.

DRUID OF SPORES

Druids of the Circle of Spores find beauty in decay. They see within mold and other fungi the ability to transform lifeless material into abundant, albeit somewhat strange, life. These druids believe that life and death are parts of a grand cycle, with one leading to the other and then back again. Death isn't the end of life, but instead a change of state that sees life shift into a new form.

Druids of this circle have a complex relationship with the undead. They see nothing inherently wrong with undeath, which they consider to be a companion to life and death. But these druids believe that the natural cycle is healthiest when each segment of it is vibrant and changing. Undead that seek to replace all life with undeath, or that try to avoid passing to a final rest, violate the cycle and must be thwarted.

CIRCLE SPELLS

Your symbiotic link to fungi and your ability to tap into the cycle of life and death grants you access to certain spells. At 2nd level, you learn the *Chill Touch* cantrip.

At 3rd, 5th, 7th, and 9th level you gain access to the spells listed for that level in the Circle of Spores Spells table. Once you gain access to one of these spells, you always have it prepared, and it doesn't count against the number of spells you can prepare each day. If you gain access to a spell that doesn't appear on the druid spell list, the spell is nonetheless a druid spell for you.

Circle of Spores Spells

Druid Level	Circle Spells
2nd	Chill Touch
3rd	Blindness/Deafness, Gentle Repose
5th	Animate Dead, Gaseous Form
7th	Blight, Confusion
9th	Cloudkill, Contagion

HALO OF SPORES

Starting at 2nd level, you are surrounded by invisible, necrotic spores that are harmless until you unleash them on a creature nearby. When a creature you can see moves into a space within 10 feet of you or starts its turn there, you can use your reaction to deal $1d4$ necrotic damage to that creature unless it succeeds on a Constitution saving throw against your spell save DC. The necrotic damage increases to $1d6$ at 6th level, $1d8$ at 10th level, and $1d10$ at 14th level.

SYMBIOTIC ENTITY

Also at 2nd level, you gain the ability to channel magic into your spores. As an action, you can expend a use of your Wild Shape feature to awaken those spores, rather than transforming into a beast form, and you gain 4 temporary hit points for each level you have in this class. While this feature is active, you gain the following benefits:

- When you deal your Halo of Spores damage, roll the damage die a second time and add it to the total.
- Your melee weapon attacks deal an extra $1d6$ necrotic damage to any target they hit.

These benefits last for 10 minutes, until you lose all these temporary hit points or until you use your Wild Shape again.

FUNGAL INFESTATION

At 6th level, your spores gain the ability to infest a corpse and animate it. If a beast or a humanoid that is Small or Medium dies within 10 feet of you, you can use your reaction to animate it, causing it to stand up immediately with 1 hit point. The creature uses the Zombie stat block in the Monster Manual. It remains animate for 1 hour, after which time it collapses and dies.

In combat, the zombie's turn comes immediately after yours. It obeys your mental commands, and the only action it can take is the Attack action, making one melee attack.

You can use this feature a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses of it when you finish a long rest.

SPELLS

CANTRIP

CHILL TOUCH

Necromancy Cantrip

Casting Time: 1 Action

Range: 120 foot

Components: V, S

Duration: 1 Round

You create a ghostly, skeletal hand in the space of a creature within range. Make a ranged spell attack against the creature to assail it with the chill of the grave. On a hit, the target takes $1d8$ necrotic damage, and it can't regain hit points until the start of your next turn. Until

then, the hand clings to the target. If you hit an undead target, it also has disadvantage on attack rolls against you until the end of your next turn.

At Higher Levels. This spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

GUIDANCE

Divination Cantrip

Casting Time: 1 Action

Range: Touch

Components: V, S

Duration: Concentration, up to 1 Minute

You touch one willing creature. Once before the spell ends, the target can roll a d4 and add the number rolled to one ability check of its choice. It can roll the die before or after making the ability check. The spell then ends.

SHAPE WATER

Transmutation Cantrip

Casting Time: 1 Action

Range: 30 feet

Components: S

Duration: Instantaneous or 1 Hour

You choose an area of water that you can see within range and that fits within a 5-foot cube. You manipulate it in one of the following ways:

- You instantaneously move or otherwise change the flow of the water as you direct, up to 5 feet in any direction. This movement doesn't have enough force to cause damage.
- You cause the water to form into simple shapes and animate at your direction. This change lasts for 1 hour.
- You change the water's color or opacity. The water must be changed in the same way throughout. This change lasts for 1 hour.
- You freeze the water, provided that there are no creatures in it. The water unfreezes in 1 hour.

If you cast this spell multiple times, you can have no more than two of its non-instantaneous effects active at a time, and you can dismiss such an effect as an action.

THUNDERCLAP

Evocation Cantrip

Casting Time: 1 Action

Range: Self (5-foot Radius)

Components: S

Duration: Instantaneous

You create a burst of thunderous sound, which can be heard 100 feet away. Each creature other than you within 5 feet of you must make a Constitution saving throw. On a failed save, the creature takes 1d6 thunder damage.

At Higher Levels. The spell's damage increases by 1d6 when you reach 5th level (2d6), 11th level (3d6), and 17th level (4d6).

LEVEL 1

ABSORB ELEMENTS

1st-Level Abjuration

Casting Time: 1 Reaction, which you take when you take acid, cold, fire, lightning, or thunder damage

Range: Self

Components: S

Duration: 1 Round

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

DETECT MAGIC

1st-Level Divination (Ritual)

Casting Time: 1 Action

Range: Self

Components: V, S

Duration: Concentration, up to 10 Minutes

For the duration, you sense the presence of magic within 30 feet of you. If you sense magic in this way, you can use your action to see a faint aura around any visible creature or object in the area that bears magic, and you learn its school of magic, if any.

The spell can penetrate most barriers, but is blocked by 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt.

ENTANGLE

1st-Level Conjuration

Casting Time: 1 Action

Range: 90 feet

Components: V, S

Duration: Concentration, up to 1 Minute

Grasping weeds and vines sprout from the ground in a 20-foot square starting from a point within range. For the duration, these plants turn the ground in the area into difficult terrain.

A creature in the area when you cast the spell must succeed on a Strength saving throw or be restrained by the entangling plants until the spell ends. A creature restrained by the plants can use its action to make a Strength check against your spell save DC. On a success, it frees itself.

When the spell ends, the conjured plants wilt away.

FAIRIE FIRE

1st-Level Evocation

Casting Time: 1 Action

Range: 60 feet

Components: V

Duration: Concentration, up to 1 Minute

Each object in a 20-foot cube within range is outlined in blue, green, or violet light (your choice).

Any creature in the area when the spell is cast is also outlined in light if it fails a Dexterity saving throw. For the duration, objects and affected creatures shed dim light in a 10-foot radius.

Any attack roll against an affected creature or object has advantage if the attacker can see it, and the affected creature or object can't benefit from being invisible.

GOODBERRY

1st-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (a sprig of mistletoe)

Duration: Instantaneous

Up to ten berries appear in your hand and are infused with magic for the duration. A creature can use its action to eat one berry. Eating a berry restores 1 hit point, and the berry provides enough nourishment to sustain a creature for one day.

The berries lose their potency if they have not been consumed within 24 hours of the casting of this spell.

HEALING WORD

1st-Level Evocation

Casting Time: 1 Bonus Action

Range: 60 feet

Components: V

Duration: Instantaneous

A creature of your choice that you can see within range regains hit points equal to $1d4 +$ your spellcasting ability modifier. This spell has no effect on undead or constructs.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the healing increases by $1d4$ for each slot level above 1st.

LEVEL 2

BLINDNESS/DEAFNESS

2nd-Level Necromancy

Casting Time: 1 Action

Range: 30 feet

Components: V

Duration: 1 Minute

You can blind or deafen a foe. Choose one creature that you can see within range to make a Constitution saving throw. If it fails, the target is either blinded or deafened (your choice) for the duration. At the end of each of its turns, the target can make a Constitution saving throw. On a success, the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional creature for each slot level above 2nd.

GENTLE REPOSE

2nd-Level Necromancy (Ritual)

Casting Time: 1 Action

Range: Touch

Components: V, S, M (a pinch of salt and one copper piece placed on each of the corpse's eyes, which must remain there for the duration)

Duration: 10 Days

You touch a corpse or other remains. For the duration, the target is protected from decay and can't become undead.

The spell also effectively extends the time limit on raising the target from the dead, since days spent under the influence of this spell don't count against the time limit of spells such as *raise dead*.

AUGURY

2nd-Level Divination (Ritual)

Casting Time: 1 Minute

Range: Self

Components: V, S, M (specially marked sticks, bones, or similar tokens worth at least 25 gp)

Duration: Instantaneous

By casting gem-inlaid sticks, rolling dragon bones, laying out ornate cards, or employing some other divining tool, you receive an omen from an otherworldly entity about the results of a specific course of action that you plan to take within the next 30 minutes. The DM chooses from the following possible omens:

- Weal, for good results
- Woe, for bad results
- Weal and woe, for both good and bad results
- Nothing, for results that aren't especially good or bad

The spell doesn't take into account any possible circumstances that might change the outcome, such as the casting of additional spells or the loss or gain of a companion. If you cast the spell two or more times before completing your next long rest, there is a cumulative 25 percent chance for each casting after the first that you get a random reading. The DM makes this roll in secret.

CONTINUAL FLAME

2nd-Level Evocation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (ruby dust worth 50 gp, which the spell consumes)

Duration: Until dispelled

A flame, equivalent in brightness to a torch, springs forth from an object that you touch. The effect looks like a regular flame, but it creates no heat and doesn't use oxygen. A continual flame can be covered or hidden but not smothered or quenched.

DARKVISION

2nd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (either a pinch of dried carrot or an agate)

Duration: 8 Hours

You touch a willing creature to grant it the ability to see in the dark. For the duration, that creature has darkvision out to a range of 60 feet.

ENHANCE ABILITY

2nd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (fur or a feather from a beast)

Duration: Concentration, up to 1 Hour

You touch a creature and bestow upon it a magical enhancement. Choose one of the following effects; the target gains the effect until the spell ends.

- **Bear's Endurance.** The target has advantage on Constitution checks. It also gains 2d6 temporary hit points, which are lost when the spell ends.
- **Bull's Strength.** The target has advantage on Strength checks, and their carrying capacity doubles.
- **Cat's Grace.** The target has advantage on Dexterity checks. It also doesn't take damage from falling 20 feet or less if it isn't incapacitated.
- **Eagle's Splendor.** The target has advantage on Charisma checks.
- **Fox's Cunning.** The target has advantage on Intelligence checks.
- **Owl's Wisdom.** The target has advantage on Wisdom checks.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you can target one additional creature for each slot level above 2nd.

LESSER RESTORATION

2nd-Level Abjuration

Casting Time: 1 Action

Range: Touch

PASS WITHOUT TRACE

2nd-Level Abjuration

Casting Time: 1 Action

Range: Self

Components: V, S, M (ashes from a burned leaf of mistletoe and a sprig of spruce)

Duration: Concentration, up to 1 Hour

A veil of shadows and silence radiates from you, masking you and your companions from detection. For the duration, each creature you choose within 30 feet of you (including you) has a +10 bonus to Dexterity (Stealth) checks and can't be tracked except by magical means. A creature that receives this bonus leaves behind no tracks or other traces of its passage.

SPIKE GROWTH

2nd-Level Transmutation

Casting Time: 1 Action

Range: 150 feet

Components: V, S, M (seven sharp thorns or seven small twigs, each sharpened to a point)

Duration: Concentration, up to 10 Minutes

The ground in a 20-foot radius centered on a point within range twists and sprouts hard spikes and thorns. The area becomes difficult terrain for the duration. When a creature moves into or within the area, it takes 2d4 piercing damage for every 5 feet it travels.

The transformation of the ground is camouflaged to look natural. Any creature that can't see the area at the time the spell is cast must make a Wisdom (Perception) check against your spell save DC to recognize the terrain as hazardous before entering it.

SUMMON BEAST

2nd-Level Conjuration

Casting Time: 1 Action

Range: 90 feet

Components: V, S, M (a feather, tuft of fur, and fish tail inside a gilded acorn worth at least 200 gp)

Duration: Concentration, up to 1 Hour

You call forth a bestial spirit. It manifests in an unoccupied space that you can see within range. This corporeal form uses the Bestial Spirit stat block. When you cast the spell, choose an environment: Air, Land, or Water. The creature resembles an animal of your choice that is native to the chosen environment, which determines certain traits in its stat block. The creature disappears when it drops to 0 hit points or when the spell ends.

The creature is an ally to you and your companions. In combat, the creature shares your initiative count, but it takes its turn immediately after yours. It obeys your verbal commands (no action required by you). If you don't issue any, it takes the Dodge action and uses its move to avoid danger.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, use the higher level where the spell's level appears in the stat block.

Bestial Spirit

Small Beast

Armor Class 11 + the level of the spell (natural armor)

Hit Points 20 (Air only) or 30 (Land and Water only) + 5 for each spell level above 2nd

STR	DEX	CON	INT	WIS	CHA

Challenge 1 (200 XP)

Flyby (Air Only). The beast doesn't provoke opportunity attacks when it flies out of an enemy's reach.

Pack Tactics (Land and Water Only). The beast has advantage on an attack roll against a creature if at least one of the beast's allies is within 5 feet of the creature and the ally isn't incapacitated.

Water Breathing (Water Only). The beast can breathe only underwater.

ACTIONS

Multiattack. The beast makes a number of attacks equal to half this spell's level (rounded down).

Maul. Melee Weapon Attack: your spell attack modifier to hit, reach 5 ft., one target. Hit: 4 ($1d8$) + 4 + the spell's level piercing damage.

LEVEL 3

ANIMATE DEAD

3rd-Level Necromancy

Casting Time: 1 Minute

Range: 10 feet

Components: V, S, M (a drop of blood, a piece of flesh, and a pinch of bone dust)

Duration: Instantaneous

This spell creates an undead servant. Choose a pile of bones or a corpse of a Medium or Small humanoid within range. Your spell imbues the target with a foul mimicry of life, raising it as an undead creature. The target becomes a skeleton if you chose bones or a zombie if you chose a corpse (the DM has the creature's game statistics).

On each of your turns, you can use a bonus action to mentally command any creature you made with this spell if the creature is within 60 feet of you (if you control multiple creatures, you can command any or all of them at the same time, issuing the same command to each one). You decide what action the creature will take and where it will move during its next turn, or you can issue a general command, such as to guard a particular chamber or corridor. If you issue no commands, the creature only defends itself against hostile creatures. Once given an order, the creature continues to follow it until its task is complete.

The creature is under your control for 24 hours, after which it stops obeying any command you've given it. To maintain the control of the creature for another 24 hours, you must cast this spell on the creature again before

the current 24-hour period ends. This use of the spell reasserts your control over up to four creatures you have animated with this spell, rather than animating a new one.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, you animate or reassert control over two additional undead creatures for each slot level above 3rd. Each of the creatures must come from a different corpse or pile of bones.

GASEOUS FORM

3rd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (a bit of gauze and a wisp of smoke)

Duration: Concentration, up to 1 Hour

You transform a willing creature you touch, along with everything it's wearing and carrying, into a misty cloud for the duration. The spell ends if the creature drops to 0 hit points. An incorporeal creature isn't affected.

While in this form, the target's only method of movement is a flying speed of 10 feet. The target can enter and occupy the space of another creature. The target has resistance to nonmagical damage, and it has advantage on Strength, Dexterity, and Constitution saving throws. The target can pass through small holes, narrow openings, and even mere cracks, though it treats liquids as though they were solid surfaces. The target can't fall and remains hovering in the air even when stunned or otherwise incapacitated.

While in the form of a misty cloud, the target can't talk or manipulate objects, and any objects it was carrying or holding can't be dropped, used, or otherwise interacted with. The target can't attack or cast spells.

CONJURE ANIMALS

3rd-Level Conjuration

Casting Time: 1 Action

Range: 60 feet

Components: V, S

Duration: Concentration, up to 1 Hour

You summon fey spirits that take the form of beasts and appear in unoccupied spaces that you can see within range.

Choose one of the following options for what appears:

- One beast of challenge rating 2 or lower
- Two beasts of challenge rating 1 or lower
- Four beasts of challenge rating 1/2 or lower
- Eight beasts of challenge rating 1/4 or lower

Each beast is also considered fey, and it disappears when it drops to 0 hit points or when the spell ends.

The summoned creatures are friendly to you and your companions. Roll initiative for the summoned creatures as a group, which has its own turns. They obey any verbal commands that you issue to them (no action required by you). If you don't issue any commands to them, they

defend themselves from hostile creatures, but otherwise take no actions. The DM has the creatures' statistics.

At Higher Levels. When you cast this spell using certain higher-level spell slots, you choose one of the summoning options above, and more creatures appear: twice as many with a 5th-level slot, three times as many with a 7th-level slot, and four times as many with a 9th-level slot.

DISPEL MAGIC

3rd-Level Abjuration

Casting Time: 1 Action

Range: 120 feet

Components: V, S

Duration: Instantaneous

Choose any creature, object, or magical effect within range. Any spell of 3rd level or lower on the target ends. For each spell of 4th level or higher on the target, make an ability check using your spellcasting ability. The DC equals $10 + \text{the spell's level}$. On a successful check, the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 4th level or higher, you automatically end the effects of a spell on the target if the spell's level is equal to or less than the level of the spell slot you used.

ELEMENTAL WEAPON

3rd-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S

Duration: Concentration, up to 1 Hour

A nonmagical weapon you touch becomes a magic weapon. Choose one of the following damage types: acid, cold, fire, lightning, or thunder. For the duration, the weapon has a +1 bonus to attack rolls and deals an extra $1d4$ damage of the chosen type when it hits.

At Higher Levels. When you cast this spell using a spell slot of 5th or 6th level, the bonus to attack rolls increases to +2 and the extra damage increases to $2d4$. When you use a spell slot of 7th level or higher, the bonus increases to +3 and the extra damage increases to $3d4$.

REVIVIFY

3rd-Level Necromancy

Casting Time: 1 Action

Range: Touch

Components: V, S, M (diamonds worth 300 gp, which the spell consumes)

Duration: Instantaneous

You touch a creature that has died within the last minute. That creature returns to life with 1 hit point. This spell can't return to life a creature that has died of old age, nor can it restore any missing body parts.

LEVEL 4

BLIGHT

4th-Level Necromancy

Casting Time: 1 Action

Range: 30 feet

Components: V, S

Duration: Instantaneous

Necromantic energy washes over a creature of your choice that you can see within range, draining moisture and vitality from it. The target must make a Constitution saving throw. The target takes $8d8$ necrotic damage on a failed save, or half as much damage on a successful one. This spell has no effect on undead or constructs.

If you target a plant creature or a magical plant, it makes the saving throw with disadvantage, and the spell deals maximum damage to it. If you target a nonmagical plant that isn't a creature, such as a tree or shrub, it doesn't make a saving throw; it simply withers and dies.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, the damage increases by $1d8$ for each slot level above 4th.

CONFUSION

4th-Level Enchantment

Casting Time: 1 Action

Range: 90 feet

Components: V, S, M (three nut shells)

Duration: Concentration, up to 1 Minute

This spell assaults and twists creatures' minds, spawning delusions and provoking uncontrolled actions. Each creature in a 10-foot-radius sphere centered on a point you choose within range must succeed on a Wisdom saving throw when you cast this spell or be affected by it.

An affected target can't take reactions and must roll a d10 at the start of each of its turns to determine its behavior for that turn.

d10 Behavior

1	The creature uses all its movement to move in a random direction. To determine the direction, roll a d8 and assign a direction to each die face. The creature doesn't take an action this turn.
2-6	The creature doesn't move or take actions this turn.
7-8	The creature uses its action to make a melee attack against a randomly determined creature within its reach. If there is no creature within its reach, the creature does nothing this turn.
9-10	The creature can act and move normally.

At the end of its turns, an affected target can make a Wisdom saving throw. If it succeeds, this effect ends for that target.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, the radius of the sphere increases by 5 feet for each slot level above 4th.

DOMINATE BEAST

4th-Level Enchantment

Casting Time: 1 Action

Range: 60 feet

Components: V, S

Duration: Concentration, up to 1 Minute

You attempt to beguile a beast that you can see within range. It must succeed on a Wisdom saving throw or be charmed by you for the duration. If you or creatures that are friendly to you are fighting it, it has advantage on the saving throw.

While the beast is charmed, you have a telepathic link with it as long as the two of you are on the same plane of existence. You can use this telepathic link to issue commands to the creature while you are conscious (no action required), which it does its best to obey. You can specify a simple and general course of action, such as "Attack that creature," "Run over there," or "Fetch that object." If the creature completes the order and doesn't receive further direction from you, it defends and preserves itself to the best of its ability.

You can use your action to take total and precise control of the target. Until the end of your next turn, the creature takes only the actions you choose, and doesn't do anything that you don't allow it to do. During this time, you can also cause the creature to use a reaction, but this requires you to use your own reaction as well.

Each time the target takes damage, it makes a new Wisdom saving throw against the spell. If the saving throw succeeds, the spell ends.

At Higher Levels. When you cast this spell with a 5th-level spell slot, the duration is concentration, up to 10 minutes. When you use a 6th-level spell slot, the duration is concentration, up to 1 hour. When you use a spell slot of 7th level or higher, the duration is concentration, up to 8 hours.

FIRE SHIELD

4th-Level Evocation

Casting Time: 1 Action

Range: Self

Components: V, S, M (a bit of phosphorus or a firefly)

Duration: 10 Minutes

Thin and wispy flames wreath your body for the duration, shedding bright light in a 10-foot radius and dim light for an additional 10 feet. You can end the spell early by using an action to dismiss it.

The flames provide you with a warm shield or a chill shield, as you choose. The warm shield grants you resistance to cold damage, and the chill shield grants you resistance to fire damage.

In addition, whenever a creature within 5 feet of you hits you with a melee attack, the shield erupts with flame. The attacker takes 2d8 fire damage from a warm shield, or 2d8 cold damage from a cold shield.

GIANT INSECT

4th-Level Transmutation

Casting Time: 1 Action

Range: 30 feet

Components: V, S

Duration: Concentration, up to 10 Minutes

You transform up to ten centipedes, three spiders, five wasps, or one scorpion within range into giant versions of their natural forms for the duration. A centipede becomes a giant centipede, a spider becomes a giant spider, a wasp becomes a giant wasp, and a scorpion becomes a giant scorpion.

Each creature obeys your verbal commands, and in combat, they act on your turn each round. The DM has the statistics for these creatures and resolves their actions and movement.

A creature remains in its giant size for the duration, until it drops to 0 hit points, or until you use an action to dismiss the effect on it.

The DM might allow you to choose different targets. For example, if you transform a bee, its giant version might have the same statistics as a giant wasp.

POLYMORPH

4th-Level Transmutation

Casting Time: 1 Action

Range: 60 feet

Components: V, S, M (a caterpillar cocoon)

Duration: Concentration, up to 1 Hour

This spell transforms a creature that you can see within range into a new form. An unwilling creature must make a Wisdom saving throw to avoid the effect. A shapeshifter automatically succeeds on this saving throw.

The transformation lasts for the duration, or until the target drops to 0 hit points or dies. The new form can be any beast whose challenge rating is equal to or less than the target's (or the target's level, if it doesn't have a challenge rating). The target's game statistics, including mental ability scores, are replaced by the statistics of the chosen beast. It retains its alignment and personality.

The target assumes the hit points of its new form. When it reverts to its normal form, the creature returns to the number of hit points it had before it transformed. If it reverts as a result of dropping to 0 hit points, any excess damage carries over to its normal form. As long as the excess damage doesn't reduce the creature's normal form to 0 hit points, it isn't knocked unconscious.

The creature is limited in the actions it can perform by the nature of its new form, and it can't speak, cast spells, or take any other action that requires hands or speech.

The target's gear melds into the new form. The creature can't activate, use, wield, or otherwise benefit from any of its equipment. This spell can't affect a target that has 0 hit points.

STONE SHAPE

4th-Level Transmutation

Casting Time: 1 Action

Range: Touch

Components: V, S, M (soft clay, which must be worked into roughly the desired shape of the stone object)

Duration: Instantaneous

You touch a stone object of Medium size or smaller or a section of stone no more than 5 feet in any dimension and form it into any shape that suits your purpose. So, for example, you could shape a large rock into a weapon, idol, or coffer, or make a small passage through a wall, as long as the wall is less than 5 feet thick. You could also shape a stone door or its frame to seal the door shut. The object you create can have up to two hinges and a latch, but finer mechanical detail isn't possible.

WALL OF FIRE

4th-Level Evocation

Casting Time: 1 Action

Range: 120 feet

Components: V, S, M (a small piece of phosphorus)

Duration: Concentration, up to 1 Minute

You create a wall of fire on a solid surface within range. You can make the wall up to 60 feet long, 20 feet high, and 1 foot thick, or a ringed wall up to 20 feet in diameter, 20 feet high, and 1 foot thick. The wall is opaque and lasts for the duration.

When the wall appears, each creature within its area must make a Dexterity saving throw. On a failed save, a creature takes $5d8$ fire damage, or half as much damage on a successful save.

One side of the wall, selected by you when you cast this spell, deals $5d8$ fire damage to each creature that ends its turn within 10 feet of that side or inside the wall. A creature takes the same damage when it enters the wall for the first time on a turn or ends its turn there. The other side of the wall deals no damage.

At Higher Levels. When you cast this spell using a spell slot of 5th level or higher, the damage increases by $1d8$ for each slot level above 4th.
