GR4-C (Gracie)

CHARACTER NAME

2 (since sentient)	5'10"	270lbs
AGE	HEIGHT	WEIGHT
Green	Mossy Metal	
EYES	SKIN	HAIR

Gracie, originally known as GR4-C, is a steampunk Warforged gardening robot. She has a rustic, mechanical design with gears, cogs, and pipes, showing wear and moss over her limbs and torso. Her faintly glowing amber eyes reflect her sentience and druidic powers. Equipped with gardening tools, Gracie blends into the lush greenery she tends, exuding a serene and protective aura.

CHARACTER APPEARANCE

NAME

The Harrington Family

SYMBOL

The Harrington family was a prominent and influential lineage known for their wealth, philanthropy, and deep appreciation for nature. Originating from old money, the Harringtons made their fortune through successful ventures in trade and industry. They were esteemed patrons of the arts and sciences, often contributing generously to cultural and educational institutions.

The family was led by the patriarch, Lord Edwin Harrington, a distinguished gentleman known for his business acumen and kind heart. His wife, Lady Margaret Harrington, was an avid botanist and horticulturist, whose passion for gardening shaped the family's renowned estate. They had three children: Elizabeth, Charles, and young Thomas, each of whom inherited their parents' love for nature and the finer things in life.

ALLIES & ORGANIZATIONS

When Gracie uses the Wild Shape feature, the animals she transforms into are of a mechanical nature, resembling steampunk creations with gears, cogs, and metal parts, rather than natural creatures. For instance, her wild-shaped bear might have a metallic fur texture, glowing eyes, and steam-powered limbs.

Gracie's arms are equipped with an array of gardening tools that can be extended and retracted as needed. These tools include pruning shears, a trowel, a watering can, and a small shovel. She can also use these tools effectively in combat if necessary.

Gracie is equipped with weather adaptation features, allowing her to function optimally in various climates. She has built-in heating for cold environments and cooling systems for hot weather, ensuring she can care for the garden year-round.

Gracie retains a vast archive of botanical knowledge within her memory banks, enabling her to recognize and care for a wide variety of plant species. She can also recall the history of the garden and its past occupants.

ADDITIONAL FEATURES & TRAITS

Originally built to maintain the grand gardens of a wealthy family's mansion, GR4-C, or Gracie, diligently performed her duties for decades. Her steampunk design with gears, cogs, and pipes enabled her to trim hedges, cut grass, and prune trees with precision. When the mansion was abandoned, nature began to reclaim the surroundings, but the garden remained pristine under Gracie's unwavering care.

One fateful day, Gracie gained sentience, possibly a gift from nature itself, transforming her into a protector of the land with druidic powers. This newfound awareness allowed Gracie to bond deeply with the animals and plants she had always tended. She now struggles with the disconnect between her mechanical body and her druidic mindset, hoping to one day transform further into a living being and fully integrate into the natural world.

Gracie's ultimate goal is to please whatever force granted her consciousness, proving her worth as a faithful guardian of nature. She continues to work tirelessly, maintaining the garden's beauty while striving to become a true part of the environment she protects.

CHARACTER BACKGROUND

1. **Pressed Flower Collection:** Gracie has a small, weathered leather book filled with pressed flowers from the garden she tends. Each flower is carefully preserved between the pages, labeled with the date it was picked and a brief note about its significance. This collection represents the different seasons and cycles of the garden. The book is kept in a secure pocket on her side, always within reach for moments of quiet reflection.
2. **Hand-Carved Wooden Bird:** Among Gracie's treasures is a small, hand-carved wooden bird, given to her by a child who once lived in the mansion. The bird is intricately detailed, painted in vibrant colors that have faded slightly over time. It symbolizes the bond Gracie formed with the family members who once called the mansion home. She has the bird perched on her shoulder or attached to her belt, a constant companion reminding her of the love and connections she has nurtured over the years.

PERSONALITY TRAITS

Gracie is meticulous and dedicated, always striving for perfection in her work. Her newfound sentience has imbued her with a deep curiosity about the natural world and a desire to learn and grow.

Alignment Neutral Good

IDEALS

Gracie believes in harmony between nature and technology. She values loyalty, duty, and preserving the beauty of the natural world.

BONDS

Gracie is deeply connected to the Harrington estate and its garden. She cherishes the animals and plants and feels gratitude to the force that granted her sentience.

FLAWS

Gracie fears she may never fully become a living being. Her dedication sometimes leads to overwork and self-neglect.

Features, Magic Items and Spells

Warforged Traits

Construct Resilience

You have Resistance to Poison damage. You also have Advantage on saving throws to avoid or end the Poisoned condition.

Integrated Protection

You gain a +1 bonus to your Armor Class. In addition, armor you have donned can't be removed against your will while you're alive.

Sentry's Rest

You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 6 hours if you spend those hours in an inactive, motionless state. During this time, you appear inert but remain conscious.

Specialized Design

Woodcarver's Tools, Athletics Proficiency
You gain one skill proficiency and one tool proficiency of your choice.

Tireless

You don't gain Exhaustion levels from dehydration, malnutrition, or suffocation.

Feats

Healer

You gain the following benefits.
Battle Medic. If you have a Healer's Kit, you can expend one use of it and tend to a creature within 5 feet of yourself as a Utilize action. That creature can expend one of its Hit Point Dice, and you then roll that die. The creature regains a number of Hit Points equal to the roll plus your Proficiency Bonus.
Healing Rerolls. Whenever you roll a die to determine the number of Hit Points you restore with a spell or with this feat's Battle Medic benefit, you can reroll the die if it rolls a 1, and you must use the new roll.

Druid Traits

Druidic

You know Druidic, the secret language of Druids. While learning this ancient tongue, you also unlocked the magic of communicating with animals; you always have the Speak with Animals spell prepared.

You can use Druidic to leave hidden messages. You and others who know Druidic automatically spot such a message. Others spot the message's presence with a successful DC 15 Intelligence (Investigation) check but can't decipher it without magic.

Primal Order

You have dedicated yourself to one of the following sacred roles of your choice.
Warden. Trained for battle, you gain proficiency with Martial weapons and training with Medium armor.

Spells

Number of prepared Leveled Spells (without Features): 4

Cantrips

Create Bonfire

Conjuration Cantrip

Casting Time: Action
Range: 60 feet
Components: V, S
Duration: Concentration, Up to 1 Minute

You create a bonfire on ground that you can see within range. Until the spell ends, the magic bonfire fills a 5-foot cube. Any creature in the bonfire's space when you cast the spell must succeed on a Dexterity saving throw or take 1d8 Fire damage. A creature must also make the saving throw when it moves into the bonfire's space for the first time on a turn or ends its turn there.

The bonfire ignites flammable objects in its area that aren't being worn or carried.

Cantrip Upgrade. The spell's damage increases by 1d8 when you reach 5th level (2d8), 11th level (3d8), and 17th level (4d8).

Thorn Whip

Transmutation Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S, M (the stem of a plant with thorns)
Duration: Instantaneous

You create a vine-like whip covered in thorns that lashes out at your command toward a creature in range. Make a melee spell attack against the target. On a hit, the target takes 1d6 Piercing damage, and if it is Large or smaller, you can pull it up to 10 feet closer to you.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and 17 (4d6).

Level 1

Beast Bond

1st-Level Divination

Casting Time: Action
Range: Touch
Components: V, S, M (a bit of fur wrapped in cloth)
Duration: Concentration, Up to 10 Minutes

You establish a telepathic link with one beast you touch that is friendly to you or charmed by you. The spell fails if the beast's Intelligence is 4 or higher. Until the spell ends, the link is active while you and the beast are within line of sight of each other. Through the link, the beast can understand your telepathic messages to it, and it can telepathically communicate simple emotions and concepts back to you. While the link is active, the beast gains advantage on attack rolls against any creature within 5 feet of you that you can see.

Entangle

1st-Level Conjuration

Casting Time: Action
Range: 90 feet
Components: V, S
Duration: Concentration, Up to 1 Minute

Grasping plants sprout from the ground in a 20-foot square within range. For the duration, these plants turn the ground in the area into Difficult Terrain. They disappear when the spell ends.

Each creature (other than you) in the area when you cast the spell must succeed on a Strength saving throw or have the Restrained condition until the spell ends. A Restrained creature can take an action to make a Strength (Athletics) check against your spell save DC. On a success, it frees itself from the grasping plants and is no longer Restrained by them.

Fog Cloud

1st-Level Conjuration

Casting Time: Action
Range: 120 feet
Components: V, S
Duration: Concentration, Up to 1 Hour

You create a 20-foot-radius Sphere of fog centered on a point within range. The Sphere is Heavily Obscured. It lasts for the duration or until a strong wind (such as one created by Gust of Wind) disperses it.

Using a Higher-Level Spell Slot. The fog's radius increases by 20 feet for each spell slot level above 1.

Goodberry

1st-Level Conjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a sprig of mistletoe)
Duration: 24 Hours

Ten berries appear in your hand and are infused with magic for the duration. A creature can take a Bonus Action to eat one berry. Eating a berry restores 1 Hit Point, and the berry provides enough nourishment to sustain a creature for one day.

Uneaten berries disappear when the spell ends.

Speak with Animals

1st-Level Divination (Ritual)

Casting Time: Action or Ritual
Range: Self
Components: V, S
Duration: 10 Minutes

For the duration, you can comprehend and verbally communicate with Beasts, and you can use any of the Influence action's skill options with them.

Most Beasts have little to say about topics that don't pertain to survival or companionship, but at minimum, a Beast can give you information about nearby locations and monsters, including whatever it has perceived within the past day.
