Laucian's silver-green eyes glisten like his bow. He has short, brown hair. He has long, pointed ears that prick up when Laucian is on the hunt or guard.

CHARACTER APPEARANCE

The clan of "New Forestia" was once a very flourishing and wealthy tribe. Although, the main population of the tribe lived very reclusive trade with surrounding tribes prospered and the yield of hunts was a very popular commodity in the nearby villages and cities.
On a faithful day, nearly 200 years ago the tribe and the whole forest of "Eastern Wallaby Grove" were burned down by the Dragon "Braga, the Red". Laucian Ilphelkiir, a son of the noblemen of the clan was the only survivor and tries to find allies and friends of "New Forestia" to spread the knowledge of what happened and that the history of this once prospering tribe is never forgotten.

NAME

New Forestia (Elf Tribe)

SYMBOL

ALLIES & ORGANIZATIONS

Laucian's years spent as a ranger have honed his archery skills to exceptional levels. He is known for his precise and accurate shots, often hitting targets with remarkable speed and efficiency.
Laucian possesses a natural affinity for tracking and hunting. His keen senses and deep knowledge of the wilderness allow him to follow trails, identify animal tracks, and navigate through various terrains with ease.
Having grown up in the forest, Laucian has developed a profound connection with nature. He can communicate with animals, discern signs of upcoming weather changes, and identify useful plants and herbs for survival.
Despite the tragedy he experienced, Laucian's spirit remains unbroken. He possesses great resilience and determination, always striving to protect what remains of the natural world and seeking justice for his fallen tribe.
The destruction caused by Braga, the Red, has instilled a burning hatred for dragons within Laucian. He is driven by a relentless desire for vengeance and is determined to protect others from similar devastation.

ADDITIONAL FEATURES & TRAITS

Laucian was born an elf of the wood - a very reclusive race that dwells in the forests of "Eastern Wallaby Grove". His parents were aristocrats of the tribe whereas his grandfather was the main hunter of the community. Because of his grandfather's teachings, Laucian quickly became an expert marksman with the bow and also in laying traps for wild animals. As Laucian was very capable at a young age he was very respected since he provided the clan with venison and other sorts of foods that were gathered during the seasonal hunt.
The most striking event was when Laucian was just 40 years old. On that particular day, the city of "New Forestia" was attacked by a huge dragon that burned down everything that stood in its way. Laucian was the only survivor on that faithful day and he became obsessed with the search for that dragon. Also, he became afraid of the nature of fire as he observed the obstruction it was capable of.

CHARACTER BACKGROUND

1. **Cloak of the Forest Guardian:** A finely woven cloak made from enchanted moss and leaves. When worn, it grants Laucian the ability to blend seamlessly with his surroundings, rendering him nearly invisible in natural environments.
2. **Memory Stones:** A collection of small, smooth stones that Laucian carries with him. Each stone is engraved with the name of a fallen member of his tribe, serving as a memorial to the lost souls and a way for Laucian to honor their memory.
3. **Coin and Talisman:** A small pouch with a single silver piece with the old stamping of "New Forestia" and a talisman with the symbol of the tribe. The emblem of "New Forestia" features a beautifully detailed image of a majestic tree, reminiscent of Yggdrasil. The tribe believed the great tree represented unity and protection. It serves as a symbol of honor and heritage for Laucian, a constant reminder of his connection to his lost tribe and the enduring spirit of New Forestia.

Features, Magic Items and Spells

Elf Traits

Darkvision

You have Darkvision with a range of 60 feet.

Elven Lineage (Wood Elf)

You are part of a lineage that grants you supernatural abilities. Choose a lineage from the Elven Lineages table. You gain the level 1 benefit of that lineage.

When you reach character levels 3 and 5, you learn a higher-level spell, as shown on the table. You always have that spell prepared. You can cast it once without a spell slot, and you regain the ability to cast it in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have of the appropriate level.

Intelligence, Wisdom, or Charisma is your spellcasting ability for the spells you cast with this trait (choose the ability when you select the lineage).

Elven Lineages

Lineage	Level 1	Level 3	Level 5
Drow	The range of your Darkvision increases to 120 feet. You also know the Dancing Lights cantrip.	Faerie Fire	Darkness
High Elf	You know the Prestidigitation cantrip. Whenever you finish a Long Rest, you can replace that cantrip with a different cantrip from the Wizard spell list.	Detect Magic	Misty Step
Wood Elf	Your Speed increases to 35 feet. You also know the Druidcraft cantrip.	Longstrider	Pass without Trace

Fey Ancestry

You have Advantage on saving throws you make to avoid or end the Charmed condition.

Keen Senses

Perception Proficiency
You have proficiency in the Insight, Perception, or Survival skill.

Trance

You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 4 hours if you spend those hours in a trancelike meditation, during which you retain consciousness.

Feats

Archery (Fighting Style)

You gain a +2 bonus to attack rolls you make with Ranged weapons.

Sharpshooter

You have mastered ranged weapons and can make shots that others find impossible. You gain the following benefits:

- Attacking at long range doesn't impose Disadvantage on your ranged weapon attack rolls.
- Your ranged weapon attacks ignore Half Cover and Three-Quarters Cover.
- Before you make an attack with a ranged weapon that you are proficient with, you can choose to take a -5 penalty to the attack roll. If the attack hits, you add +10 to the attack's damage.

Ranger Traits

Favored Enemy

5 Uses
You always have the Hunter's Mark spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

The number of times you can cast the spell without a spell slot increases when you reach certain Ranger levels, as shown in the Favored Enemy column of the Ranger Features table.

Weapon Master

Longbow, Shortsword
Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Longswords.

Slow (Longbow)

If you hit a creature with this weapon and deal damage to it, you can reduce its Speed by 10 feet until the start of your next turn. If the creature is hit more than once by weapons that have this property, the Speed reduction doesn't exceed 10 feet.

Vex (Shortsword)

If you hit a creature with this weapon and deal damage to the creature, you have Advantage on your next attack roll against that creature before the end of your next turn.

Deft Explorer

Perception Expertise, Sylvan, Primordial
Thanks to your travels, you gain the following benefits.
Expertise. Choose one of your skill proficiencies with which you lack Expertise. You gain Expertise in that skill.
Languages. You know two languages of your choice from the language tables in chapter 2.

Fighting Style

Archery
You gain a Fighting Style feat of your choice. Instead of choosing one of those feats, you can choose the option below.
Druidic Warrior. You learn two Druid cantrips of your choice. Guidance and Starry Wisp are recommended. The chosen cantrips count as Ranger spells for you, and Wisdom is your spellcasting ability for them. Whenever you gain a Ranger level, you can replace one of these cantrips with another Druid cantrip.

Hunter's Prey

You gain one of the following feature options of your choice. Whenever you finish a Short or Long Rest, you can replace the chosen option with the other one.
Colossus Slayer. Your tenacity can wear down even the most resilient foes. When you hit a creature with a weapon, the weapon deals an extra 1d8 damage to the target if it's missing any of its Hit Points. You can deal this extra damage only once per turn.
Horde Breaker. Once on each of your turns when you make an attack with a weapon, you can make another attack with the same weapon against a different creature that is within 5 feet of the original target, that is within the weapon's range, and that you haven't attacked this turn.

Extra Attack

You can attack twice instead of once whenever you take the Attack action on your turn.

Roving

Your Speed increases by 10 feet while you aren't wearing Heavy armor. You also have a Climb Speed and a Swim Speed equal to your Speed.

Defensive Tactics

You gain one of the following feature options of your choice. Whenever you finish a Short or Long Rest, you can replace the chosen option with the other one.
Escape the Horde. Opportunity Attacks have Disadvantage against you.
Multiattack Defense. When a creature hits you with an attack roll, that creature has Disadvantage on all other attack rolls against you this turn.

Expertise

Nature, Survival Expertise
Choose two of your skill proficiencies with which you lack Expertise. You gain Expertise in those skills.

Tireless

Primal forces now help fuel you on your journeys, granting you the following benefits.
Temporary Hit Points. As a Magic action, you can give yourself a number of Temporary Hit Points equal to 1d8 plus your Wisdom modifier (minimum of 1). You can use this action a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.
Decrease Exhaustion. Whenever you finish a Short Rest, your Exhaustion level, if any, decreases by 1.

Superior Hunter's Prey

Once per turn when you deal damage to a creature marked by your Hunter's Mark, you can also deal that spell's extra damage to a different creature that you can see within 30 feet of the first creature.

Relentless Hunter

Taking damage can't break your Concentration on Hunter's Mark.

Nature's Veil

3 Uses
You invoke spirits of nature to magically hide yourself. As a Bonus Action, you can give

yourself the Invisible condition until the end of your next turn.

You can use this feature a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

Level 1

Ensnaring Strike

1st-Level Conjuration

Casting Time: Bonus Action, which you take immediately after hitting a creature with a weapon
Range: Self
Components: V
Duration: Concentration, up to 1 Minute

As you hit the target, grasping vines appear on it, and it makes a Strength saving throw. A Large or larger creature has Advantage on this save. On a failed save, the target has the Restrained condition until the spell ends. On a successful save, the vines shrivel away, and the spell ends.

While Restrained, the target takes 1d6 Piercing damage at the start of each of its turns. The target or a creature within reach of it can take an action to make a Strength (Athletics) check against your spell save DC. On a success, the spell ends.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 1.

Hail of Thorns

1st-Level Conjuration

Casting Time: Bonus Action, which you take immediately after hitting a creature with a Ranged weapon
Range: Self
Components: V
Duration: Instantaneous

As you hit the creature, this spell creates a rain of thorns that sprouts from your Ranged weapon or ammunition. The target of the attack and each creature within 5 feet of it make a Dexterity saving throw, taking 1d10 Piercing damage on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 1d10 for each spell slot level above 1.

Hunter's Mark

1st-Level Divination

Casting Time: Bonus Action
Range: 90 Feet
Components: V

have Advantage on any Wisdom (Perception or Survival) check you make to find it.

If the target drops to 0 Hit Points before this spell ends, you can take a Bonus Action to move the mark to a new creature you can see within range.

Using a Higher-Level Spell Slot. Your Concentration can last longer with a spell slot of level 3-4 (up to 8 hours) or 5+ (up to 24 hours).

Longstrider

1st-Level Transmutation

Casting Time: Action
Range: Touch

Zephyr Strike

1st-Level Transmutation

Casting Time: Bonus Action
Range: Self
Components: V
Duration: Concentration, up to 1 Minute

You move like the wind. Until the spell ends, your movement doesn't provoke opportunity attacks.

Once before the spell ends, you can give yourself advantage on one weapon attack roll on your turn. That attack deals an extra 1d8 force damage on a hit. Whether you hit or miss, your walking speed increases by 30 feet until the end of that turn.

Level 2

Cordon of Arrows

1st-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (four or more arrows or bolts)
Duration: 8 Hours

You touch up to four nonmagical Arrows or Bolts and plant them in the ground in your space. Until the spell ends, the ammunition can't be physically uprooted, and whenever a creature other than you enters a space within 30 feet of the ammunition for the first time on a turn or ends its turn there, one piece of ammunition flies up to strike it. The creature must succeed on a Dexterity saving throw or take 2d4 Piercing damage. The piece of ammunition is then destroyed. The spell ends when none of the ammunition remains planted in the ground.

When you cast this spell, you can designate any creatures you choose, and the spell ignores them.

Using a Higher-Level Spell Slot. The amount of ammunition that can be affected increases by two for each spell slot level above 2.

Find Traps

1st-Level Divination

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

You sense any trap within range that is within line of sight. A trap, for the purpose of this spell, includes any object or mechanism that was created to cause damage or other danger. Thus, the spell would sense the Alarm or Glyph of Warding spell or a mechanical pit trap, but it wouldn't reveal a natural weakness in the floor, an unstable ceiling, or a hidden sinkhole.

This spell reveals that a trap is present but not its location. You do learn the general nature of the danger posed by a trap you sense.

Range: 150 Feet
Components: V, S, M (seven thorns)
Duration: Concentration, up to 10 Minutes

The ground in a 20-foot-radius Sphere centered on a point within range sprouts hard spikes and thorns. The area becomes Difficult Terrain for the duration. When a creature moves into or within the area, it takes 2d4 Piercing damage for every 5 feet it travels.

The transformation of the ground is camouflaged to look natural. Any creature that can't see the area when the spell is cast must take a Search action and succeed on a Wisdom (Perception or Survival) check against your spell save DC to recognize the terrain as hazardous before entering it.

Level 3

Conjure Barrage

1st-Level Conjuration

Casting Time: Action
Range: Self
Components: V, S, M (a Melee or Ranged weapon worth at least 1 CP)
Duration: Instantaneous

You brandish the weapon used to cast the spell and conjure similar spectral weapons (or ammunition appropriate to the weapon) that launch forward and then disappear. Each creature of your choice that you can see in a 60-foot Cone makes a Dexterity saving throw, taking 5d8 Force damage on a failed save or half as much damage on a successful one.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 3.

Lightning Arrow

1st-Level Transmutation

Casting Time: Bonus Action, which you take immediately after hitting or missing a target with a ranged attack using a weapon
Range: Self
Components: V, S

As your attack hits or misses the target, the weapon or ammunition you're using transforms into a lightning bolt. Instead of taking any damage or other effects from the attack, the target takes 4d8 Lightning damage on a hit or half as much damage on a miss. Each creature within 10 feet of the target then makes a Dexterity saving throw, taking 2d8 Lightning damage on a failed save or half as much damage on a successful one.

The weapon or ammunition then returns to its normal form.

Using a Higher-Level Spell Slot. The damage for both effects of the spell increases by 1d8 for each spell slot level above 3.

Oathbow

very rare (requires attunement)

When you nock an arrow on this bow, it whispers in Elvish, "Swift defeat to my Enemies." When you use this weapon to make a Ranged Attack, you can, as a Command phrase, say, "Swift death to you who have wronged me." The target of your Attack becomes your Sworn Enemy until it dies or until dawn seven days later. You can have only one such Sworn Enemy at a time. When your Sworn Enemy dies, you can choose a new one after the next dawn.

When you make a Ranged Attack roll with this weapon against your Sworn Enemy, you have advantage on the roll. In addition, your target gains no benefit from cover, other than total cover, and you suffer no disadvantage due to Long Range. If the Attack hits, your Sworn Enemy takes an extra 3d6 piercing damage.

While your Sworn Enemy lives, you have disadvantage on Attack rolls with all other Weapons.

Bracers of Trickshot

rare (requires attunement)

The shortest compartment can hold up to sixty arrows, bolts, or similar objects. The midsize compartment holds up to eighteen javelins or similar objects. The longest compartment holds up to six long objects, such as bows, quarterstaffs, or spears.

Quiver of the Storm's Fury

wondrous item, very rare

This quiver is made from the hide of a storm giant's favorite hunting beast and is adorned with lightning motifs. When the ranger draws an arrow from the quiver, it becomes charged with electrical energy, granting a +2 bonus to attack and damage rolls. Additionally, once per short or long rest, the ranger can choose to imbue an arrow with the power of a storm, causing it to create a 20-foot radius sphere of lightning and thunder when it hits a target. Creatures within the sphere must make a DC 17 Dexterity saving throw taking 6d6 lightning damage and 6d6 thunder damage on a failed save, or half as much on a successful one.

Arrow-Types

Arrow of Slaying (Dragon)

An arrow of slaying is a Magic Weapon meant to slay a particular kind of creature. Some are more focused than others; for example, there are both Arrows of Dragon slaying and Arrows of blue Dragon slaying. If a creature belonging to the type, race, or group associated with an arrow of slaying takes damage from the arrow, the creature must make a DC 17 Constitution saving throw, taking an extra 6d10 piercing damage on a failed save, or half as much extra damage on a successful one.

Boomerang Arrow

On a miss the Boomerang Arrow returns to the owner's hand.

Drow Arrow

When indoors or during the night the use of this arrow gives a +1 modifier to hit and damage dice.

Fire Arrow

This arrow can be lit before using it either by spending an action from a Tinderbox, or spending a free action from an open flame, such as a torch, a bonfire, or a burning tree. When lit, this arrow sets alight any highly flammable materials on impact, and does the normal attack damage from the base weapon plus an extra 1d4 fire damage to the target. It will continue to do 1 fire damage until an action or bonus action is spent to remove it. One of the disadvantages of using the fire arrows is that you lose any advantage when attempting a surprise attacks with it due to its clear visibility.

Ice Arrow

This magic arrow has a jagged arrowhead formed with a semitransparent pale blue material, reminiscent of ice. Once this arrow is drawn, you can use your bonus action to focus on the arrow, causing it to glow with icy evocation magic. If you make a ranged weapon attack with this glowing arrow before the start of your next turn, the attack deals magical cold damage instead of its normal damage type. If the hit target is a creature, it must succeed on a DC 13 Constitution saving throw or be frozen solid, effectively petrified, until the end of its next turn. If the target has resistance or immunity to cold damage, it automatically succeeds on this saving throw. If the target takes any fire damage while petrified in this manner, the conditions ends.

You can expend 1 magic point when you use the bonus action to cause the attack deal an extra 1d6 cold damage. If you have the Spellcasting feature when you do this, the DC becomes equal to your spell save DC if it would otherwise be lower.
