CHARACTER APPEARANCE

The Wildheart Guardians is an esteemed organization dedicated to preserving the delicate balance between civilization and the natural world. Comprised of skilled individuals from diverse backgrounds, the Guardians strive to protect and advocate for the welfare of the wilderness and its inhabitants.

The Wildheart Guardians

SYMBOL

ALLIES & ORGANIZATIONS

Thrumble possesses a wealth of knowledge about his tribe's traditions, rituals, and legends. This knowledge includes expertise in survival skills, foraging, tracking, and understanding the natural world. His tribal upbringing grants them insight and wisdom that others may lack.

Thrumble's lack of exposure to the complexities of modern society can lead him to be brutally honest and straightforward in his interactions. He may unintentionally speak his mind or ask blunt questions, often without understanding the potential social implications. His naivety and genuine nature can be endearing and refreshing, providing a refreshing perspective in a world filled with pretense.

Thrumble bears tribal markings on his body, representing significant milestones or achievements in his tribe. These markings may take the form of intricate tattoos, scarification, or decorative paint. Each mark tells a story, and Thrumble carries his tribe's history and culture with pride.

ADDITIONAL FEATURES & TRAITS

Thrumble Fistbasher hails from a remote and isolated primitive tribe nestled deep within the untamed wilderness. Born into a world untouched by modern civilization, Thrumble grew up surrounded by the raw beauty and harsh realities of the natural world. From a young age, they displayed an insatiable curiosity and a unique perspective, asking questions that no one else thought to ponder.

One fateful day, an unexpected event disrupted their tranquil existence. A group of explorers stumbled upon the tribe's hidden enclave, bringing with them the wonders and complexities of the outside world. Intrigued and filled with a sense of adventure, Thrumble volunteered to venture beyond the tribe's boundaries to explore this newfound realm.

With each interaction and experience, Thrumble's understanding of the world expanded. They embraced their role as a bridge between the primitive ways of their tribe and the complexities of modern society. Along the way, they joined a group of like-minded adventurers, sharing their unique insights.

CHARACTER BACKGROUND

1. **Shimmering Quartz Crystal:** A crystal that Thrumble discovered in a hidden cave. When exposed to sunlight, it refracts the light into a mesmerizing display of colorful patterns. This crystal possesses natural healing properties, allowing Thrumble to channel its energy.
2. **Enchanted Feather:** A pristine white feather gifted to Thrumble by an ancient and wise owl. This feather grants the ability to cast Feather Fall once per day, allowing Thrumble and their allies to gracefully descend from great heights without harm.
3. **Tribal Totem Carving:** A meticulously carved wooden totem that represents Thrumble's tribe and their connection to nature. The totem is adorned with feathers, shells, and symbols of the elements. This totem serves as a symbol of Thrumble's heritage and can be used in rituals or as a focus for his spiritual abilities.

Features, Magic Items and Spells

Halfling Traits

Brave

You have Advantage on saving throws you make to avoid or end the Frightened condition.

Halfling Nimbleness

You can move through the space of any creature that is a size larger than you, but you can't stop in the same space.

Luck

When you roll a 1 on the d20 of a D20 Test, you can reroll the die, and you must use the new roll.

Naturally Stealthy

You can take the Hide action even when you are obscured only by a creature that is at least one size larger than you.

Feats

Tension Sense

You are attuned to the sounds of the creatures in the natural environment around you. You can tell when there is danger, or something unnatural going on, because you can sense the tension in the environment around you.

- Tension sense does not work in a city, castle, town, dungeon, or open ocean (but it does work in a village or isolated tower).

Barbarian Traits

Rage

3 Uses, Rage Damage: +2

You can imbue yourself with a primal power called Rage, a force that grants you extraordinary might and resilience. You can enter it as a Bonus Action if you aren't wearing Heavy armor.

You can enter your Rage the number of times shown for your Barbarian level in the Rages column of the Barbarian Features table. You regain one expended use when you finish a Short Rest, and you regain all expended uses when you finish a Long Rest.

While active, your Rage follows the rules below.

Damage Resistance. You have Resistance to Bludgeoning, Piercing, and Slashing damage.

Rage Damage. When you make an attack using Strength - with either a weapon or an Unarmed Strikeand deal damage to the target, you gain a bonus to the damage that increases as you gain levels as a Barbarian, as shown in the Rage Damage column of the Barbarian Features table.

Strength Advantage. You have Advantage on Strength checks and Strength saving throws.

No Concentration or Spells. You can't maintain Concentration, and you can't cast spells.

Duration. The Rage lasts until the end of your next turn, and it ends early if you don Heavy armor or have the Incapacitated condition. If your Rage is still active on your next turn, you can extend the Rage for another round by doing one of the following:

- Make an attack roll against an enemy.
- Force an enemy to make a saving throw.
- Take a Bonus Action to extend your Rage.

Each time the Rage is extended, it lasts until the end of your next turn. You can maintain a Rage for up to 10 minutes.

Unarmored Defense

While you aren't wearing any armor, your base Armor Class equals 10 plus your Dexterity and Constitution modifiers. You can use a Shield and still gain this benefit.

Weapon Mastery

Greataxe, Spear

Your training with weapons allows you to use the mastery properties of two kinds of Simple or Martial Melee weapons of your choice, such as Greataxes and Handaxes. Whenever you finish a Long Rest, you can practice weapon drills and change one of those weapon choices.

When you reach certain Barbarian levels, you gain the ability to use the mastery properties of more kinds of weapons, as shown in the Weapon Mastery column of the Barbarian Features table.

Cleave (Greataxe)

If you hit a creature with a melee attack roll using this weapon, you can make a melee attack roll with the weapon against a second creature within 5 feet of the first that is also within your reach. On a hit, the second creature takes the weapon's damage, but don't add your ability modifier to that damage unless that modifier is negative. You can make this extra attack only once per turn.

Sap (Atlatl, Spear)

If you hit a creature with this weapon, that creature has Disadvantage on its next attack roll before the start of your next turn.

Danger Sense

You gain an uncanny sense of when things aren't as they should be, giving you an edge when you dodge perils. You have Advantage on Dexterity saving throws unless you have the Incapacitated condition.

Reckless Attack

You can throw aside all concern for defense to attack with increased ferocity. When you make your first attack roll on your turn, you can decide to attack recklessly. Doing so gives you Advantage on attack rolls using Strength until the start of your next turn, but attack rolls against you have Advantage during that time.

Path of the Totem Warrior

The Path of the Totem Warrior is a spiritual journey, as the barbarian accepts a spirit animal as guide, protector, and inspiration. In battle, your totem spirit fills you with supernatural might, adding magical fuel to your barbarian rage.

Most barbarian tribes consider a totem animal to be kin to a particular clan. In such cases, it is unusual for an individual to have more than one totem animal spirit, though exceptions exist.

Spirit Seeker

Yours is a path that seeks attunement with the natural world, giving you a kinship with beasts. At 3rd level when you adopt this path, you gain the ability to cast the Beast Sense and Speak with Animals spells, but only as rituals.

Totem Spirit

Chosen Totem Spirit: Bear

At 3rd level, when you adopt this path, you choose a totem spirit and gain its feature. You must make or acquire a physical totem object an amulet or similar adornment that incorporates fur or feathers, claws, teeth, or bones of the totem animal. At your option, you also gain minor physical attributes that are reminiscent of your totem spirit. For example, if you have a bear totem spirit, you might be unusually hairy and thick-skinned, or if your totem is the eagle, your eyes turn bright yellow.

Your totem animal might be an animal related to those listed here but more appropriate to your homeland. For example, you could choose a hawk or vulture in place of an eagle.

Bear. While raging, you have resistance to all damage except psychic damage. The spirit of the bear makes you tough enough to stand up to any punishment.

Primal Knowledge

Perception Proficiency

You gain proficiency in another skill of your choice from the skill list available to Barbarians at level 1.

In addition, while your Rage is active, you can channel primal power when you attempt certain tasks; whenever you make an ability check using one of the following skills, you can make it as a Strength check even if it normally uses a different ability: Acrobatics, Intimidation, Perception, Stealth, or Survival. When you use this ability, your Strength represents primal power coursing through you, honing your agility, bearing, and senses.

Spells

The barbarian can only cast spells as rituals. The ritual version of a spell takes 10 minutes longer to cast than normal. It also doesn't expend a spell slot, which means the ritual version of a spell can't be cast at a higher level.

Speak with Animals

1st-Level Divination (Ritual)

Casting Time: Action
Range: Self
Components: V, S
Duration: 10 Minutes

You gain the ability to comprehend and verbally communicate with beasts for the duration. The knowledge and awareness of many beasts is limited by their intelligence, but at minimum, beasts can give you information about nearby locations and monsters, including whatever they can perceive or have perceived within the past day. You might be able to persuade a beast to perform a small favor for you, at the DM's discretion.

Beast Sense

2nd-Level Divination (Ritual)

Casting Time: Action
Range: Touch
Components: S
Duration: Concentration, up to 1 Hour

You touch a willing beast. For the duration of the spell, you can use your action to see through the beast's eyes and hear what it hears, and continue to do so until you use your action to return to your normal senses. While perceiving through the beast's senses, you gain the benefits of any special senses possessed by that creature, though you are blinded and deafened to your own surroundings.

Miscellaneous

Atlatl (Ranged, Exotic)

The atlatl is a tool that uses leverage to achieve greater velocity in projectile-throwing. It may consist of a shaft with a cup or a spur at the end that supports and propels the butt of the ammunition. It is held in one hand, gripped near the end farthest from the cup. The projectile is thrown by the action of the upper arm and wrist. The throwing arm together with the atlatl acts as a lever.

The atlatl will use either darts, javelins, or spears as ammunition. The atlatl will be designed to work with only one of these, and cannot be used with the other types of ammunition.

The effect of using an atlatl is that the short range is tripled, the long range is doubled, and damage is increased. Also, different to other ranged weapon, the user will use the Strength modifier for to-hit rolls and damage rolls.
