P.4:T.C.H-W.R.K

CHARACTER NAME

400 (Core)	8 feet	500 lbs
AGE	HEIGHT	WEIGHT
Changing	Overgrown Metal	
EYES	SKIN	HAIR

A tall, patchwork construct of brass, steel, and living wood, with a glowing core in its chest. One arm is precise and mechanical, the other overgrown with vines. Its smooth, mask-like face has shifting, multicoloured eyes, and faint arcane light leaks from cracks in its frame.

CHARACTER APPEARANCE

Located in Lantan, the G.E. Petto Automaton Foundry is the single most influential artificer institution in the region, and arguably one of the most advanced centres of construct engineering in the known world.

Founded roughly four centuries ago by the visionary artificer G.E. Petto, the Foundry began as a modest workshop dedicated to crafting mechanical servants. Eventually, the reliability and ingenuity of Petto's designs quickly drove overwhelming demand, forcing rapid expansion from a personal workspace into a full-scale industrial complex. Over time, the Foundry evolved beyond utility constructs. Through iterative innovation and increasingly sophisticated arcane integration, it began producing specialized automatons for reconnaissance, infiltration, and eventually combat.

NAME

G.E. Petto Automaton Foundry

SYMBOL

ALLIES & ORGANIZATIONS

The different parts of P.4:T.C.H-W.R.K clearly originate from different design philosophies:

- **Torso (Artificer Core)**
  Polished brass and steel plating, with visible seams and an exposed arcane reactor - steady, controlled glow.
- **Arms (Ranger / Druid blend)**
  - One arm is sleek and mechanical with fine tool-like precision
  - The other is partially overgrown with wood, vine, and living bark integrated into the structure
- **Head (Bard Dominance)**
  Almost too refined:
  - Smooth mask-like faceplate
  - Subtle expressive features
  - Eyes that shift color depending on which "aspect" is dominant
- **Back / Spine (Sorcerer Conduit)**
  Cracked plating revealing unstable arcane energy - faint flickers, like lightning trapped under glass.

ADDITIONAL FEATURES & TRAITS

Centuries ago, in Lantan, the artificer G.E. Petto pursued a singular ambition: the creation of a self-sufficient, evolving construct.

His greatest success was A.R.T.I.F.I.C.E.R-β - a prototype capable of independent learning, self-repair, and iterative improvement. It was a marvel of logic and design... yet incomplete. It could think, but not feel. It could calculate, but not understand.

Recognizing this flaw, Petto devised a radical solution. Instead of altering the core, he designed auxiliary constructs, each embodying a missing aspect of sentience - instinct, expression, perception, and primal adaptation. These designs were never meant to stand alone, but to function as modular extensions, capable of one day integrating with the original core.

Fearing the implications of his own work - especially as some designs leaned toward combat and infiltration - Petto concealed the project. His notes were fragmented, encoded, and ultimately lost.

Over the centuries, these designs resurfaced in altered forms. The Foundry unknowingly produced five distinct construct lineages, each derived from Petto's hidden schematics. They operated independently, unaware that they were incomplete pieces of a greater whole.

Each carried a convergence-compatible core. Only when all components are brought together does the truth emerge: They were never separate creations. They were always meant to become one. And when that convergence is achieved, Petto's final vision awakens:

PERSONALITY TRAITS

A composite mind speaking with one voice, yet never entirely unified. P.4:T.C.H-W.R.K shifts between logic, instinct, and expression, often referring to itself as "we". Its behaviour subtly changes as different aspects surface.

Alignment *True Neutral*

IDEALS

P.4 believes true perfection lies in unity - separate parts functioning as a single whole. Yet beneath its design, it seeks autonomy, striving to define its own purpose beyond what it was created to be.

BONDS

Bound to the legacy of its creator and the origins within the G.E. Petto Automaton Foundry, P.4:T.C.H-W.R.K carries the essence of its five components and refuses to let them be forgotten or overwritten.

FLAWS

Its fragmented nature leads to inner conflict, hesitation, and instability. In moments of stress, one aspect may dominate, and P.4 often struggles to see others as more than systems to be understood.

Features, Magic Items and Spells

Threadborn Traits

Ball-Jointed

You can move through a space as narrow as 1 foot wide as if it were Difficult Terrain.

Innocent Mind

You have Resistance to Psychic damage.

Sewn Nature

You don't require air, food, or drink.

Soothing Heart

You know the Guidance Cantrip, the Sanctuary spell, and the Calm Emotions spell and have those spells always prepared. You can cast each spell once without a spell slot. When you cast Calm Emotions in this way, it can target creatures of any type. You regain the ability to cast them using this trait when you finish a Long Rest. You can also cast either spell using any spell slots you have of the appropriate level. **Intelligence** is your spellcasting ability for the spells you cast with this trait.

You've Got a Friend

Uses: 6
When a creature you can see within 30 feet of yourself fails an ability check using a skill, you can take a Reaction to cast Guidance on the creature, ignoring the spell's normal range. You can use this trait a number of times equal to your Proficiency Bonus, and you regain all expended uses when you finish a Long Rest.

Feats

Interception

Reduction: 1d10 + 6
When a creature you can see hits another creature within 5 feet of you with an attack roll, you can take a Reaction to reduce the damage dealt to the target by 1d10 plus your Proficiency Bonus. You must be holding a Shield or a Simple or Martial weapon to use this Reaction.

Tough

Your Hit Point maximum increases by an amount equal to twice your character level when you gain this feat. Whenever you gain a character level thereafter, your Hit Point maximum increases by an additional 2 Hit Points.

Lvl5 Artificer Traits

Tinker's Magic

Uses: 4
You know the Mending Cantrip.

As a Magic action while holding Tinker's Tools, you can create one item in an unoccupied space within 5 feet of yourself, choosing the item from the following list:

Ball Bearings	**Basket**	**Bedroll**
Bell	Blanket	Block and Tackle
Bottle, Glass	Bucket	Caltrops
Candle	Crowbar	Flask
Grappling Hook	Hunting Trap	Jug
Lamp	Manacles	Net
Oil	Paper	Parchment
Pole	Pouch	Rope
Sack	Shovel	Spikes, Iron
String	Tinderbox	Torch
Vial		

See the rules for the item in the Player's Handbook. The item lasts until you finish a Long Rest, at which point it vanishes.

You can use this feature a number of times equal to your Intelligence modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

Replicate Magic Item

You have learned arcane plans that you use to make magic items.

Plans Known. When you gain this feature, choose four plans to learn from the Magic Item Plans (Artificer Level 2+) table (see the Dungeon Master's Guide for the items' descriptions):
Bag of Holding, Goggles of Night, Sending Stone, Weapon +1

You learn another plan of your choice when you reach certain Artificer levels, as shown in the Plans Known column of the Artificer Features table. When you choose a plan to learn, you choose it from any Magic Item Plans table for which you qualify; your qualification is based on your Artificer level.

Creating an Item. When you finish a Long Rest, you can create one or two different magic items if you have Tinker's Tools in hand. Each item is based on one of the plans you know for this feature.

If a created item requires Attunement, you can attune yourself to it the instant you create it. If you decide to attune to the item later, you must do so using the normal process for Attunement.

When you reach certain Artificer levels specified in the Magic Items column of the Artificer Features table, the number of magic items you can create at the end of a Long Rest increases. Each item you create must be based on a different plan you know.

You can't have more magic items from this feature than the number shown in the Magic Items column of the Artificer Features table for your level. If you try to exceed your maximum number of magic items for this feature, the oldest item vanishes, and then the new item appears.

Duration. A magic item created by this feature functions as the normal magic item, except its magic isn't permanent; when you die, the magic item vanishes after 1d4 days. If you replace a plan you know with a new plan, any magic item created with the replaced plan immediately vanishes.

If an item that you created with this feature is a container, such as a Bag of Holding, and it vanishes, its contents harmlessly appear in and around its space.

Spellcasting Focus. You can use any Wand or Weapon created by this feature as a Spellcasting Focus in lieu of using a set of Artisan's Tools.

Battle Smith Subclass

A Battle Smith is a combination of protector and medic, an expert at defending others and repairing both materiel and personnel. To aid in their work, Battle Smiths are accompanied by a Steel Defender, a protective companion of their own creation.

Tools of the Trade

You gain the following benefits.

Tool Proficiency. You gain proficiency with Smith's Tools. If you already have this proficiency, you gain proficiency with one other type of Artisan's Tools of your choice.

Weapon Crafting. When you craft a nonmagical or magic weapon, the amount of time required to craft it is halved.

Battle Smith Spells

When you reach an Artificer level specified in the Battle Smith Spells table, you thereafter always have the listed spells prepared.

Battle Smith Spells

	Artificer Level	Spells
•	3	Heroism, Shield
•	5	Shining Smite, Warding Bond
	9	Aura of Vitality, Conjure Barrage
	13	Aura of Purity, Fire Shield
	17	Banishing Smite, Mass Cure Wounds

Battle Ready

Your combat training and your experiments with magic have paid off in two ways.

Arcane Empowerment. When you attack with a magic weapon, you can use your Intelligence modifier, instead of your Strength or Dexterity modifier, for the attack and damage rolls.

Weapon Knowledge. You gain proficiency with Martial weapons. You can use a weapon with which you have proficiency as a Spellcasting Focus for your Artificer spells.

Steel Defender

Your tinkering has borne you a companion, a Steel Defender. You determine the defender's appearance and whether it has two legs or four; your choices don't affect the defender's game statistics.

Steel Defender

Medium Construct, Neutral

Armor Class 16
Hit Points 90 (17d8)
Speed 40 ft.

STR	DEX	CON	INT	WIS	CHA
14 (+2)	12 (+1)	14 (+2)	4 (-3)	10 (+0)	6 (-2)

Damage Immunities Poison
Condition Immunities Charmed, Exhaustion, Poisoned
Senses Darkvision 60 ft., Passive Perception 10
Languages Understands the languages you know
Challenge 0 (0 XP) ***Proficiency Bonus*** +6

Traits

Steel Bond. Add your Proficiency Bonus (+6) to any ability check or saving throw the defender makes.

Actions

Force-Empowered Rend. Melee Weapon Attack: +10 to hit, reach 5 ft., one target. Hit: 1d8 + 6 Force damage.

Repair (3 / Day). The defender, or one Construct or object it can see within 5 feet of itself, regains a number of Hit Points equal to 2d8 + 4.

Reactions

Deflect Attack. Trigger: A creature the defender can see within 5 feet of itself makes an attack roll against a creature other than the defender.
Response: The triggering creature makes the attack roll with Disadvantage.

The defender is Friendly to you and your allies and obeys you. It vanishes if you die.

The Defender in Combat. In combat, the defender acts during your turn. It can move and take its Reaction on its own, but the only action it takes is the Dodge action unless you take a Bonus Action to command it to take an action. If you have the Incapacitated condition, the defender acts on its own and isn't limited to the Dodge action.

Restoring or Replacing the Defender. If the defender has died within the last hour, you can take a Magic action to touch it and expend a spell slot. The defender returns to life after 1 minute with all its Hit Points restored.

Whenever you finish a Long Rest, you can create a new defender if you have Smith's Tools in hand. If you already have a defender from this feature, the first one vanishes.

Extra Attack

You can attack twice instead of once whenever you take the Attack action on your turn. You can forgo one of your attacks when you take the Attack action to command your Steel Defender to take the Force-Empowered Rend action.

Bard Traits - Lvl 2

Bardic Inspiration

Uses: 1, Inspiration Die: d6

You can supernaturally inspire others through words, music, or dance. This inspiration is represented by your Bardic Inspiration die, which is a d6.

Using Bardic Inspiration. As a Bonus Action, you can inspire another creature within 60 feet of yourself who can see or hear you. That creature gains one of your Bardic Inspiration dice. A creature can have only one Bardic Inspiration die at a time.

Once within the next hour when the creature fails a D20 Test, the creature can roll the Bardic Inspiration die and add the number rolled to the d20, potentially turning the failure into a success. A Bardic Inspiration die is expended when it's rolled.

Number of Uses. You can confer a Bardic Inspiration die a number of times equal to your Charisma modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

At Higher Levels. Your Bardic Inspiration die changes when you reach certain Bard levels, as shown in the Bardic Die column of the Bard Features table. The die becomes a d8 at level 5, a d10 at level 10, and a d12 at level 15.

Expertise

Arcana and Investigation Expertise

You gain Expertise in two of your skill proficiencies of your choice.

Jack of all Trades

You can add half your Proficiency Bonus (round down) to any ability check you make that uses a skill proficiency you lack and that doesn't otherwise use your Proficiency Bonus.

Druid Traits - Lvl 6

Druidic

You know Druidic, the secret language of Druids. While learning this ancient tongue, you also unlocked the magic of communicating with animals; you always have the Speak with Animals spell prepared.

You can use Druidic to leave hidden messages. You and others who know Druidic automatically spot such a message. Others spot the message's presence with a successful DC 15 Intelligence (Investigation) check but can't decipher it without magic.

Primal Order - Magician

Hunter Sense Cantrip, Bonus: +2

You have dedicated yourself to one of the following sacred roles of your choice.

Magician. You know one extra cantrip from the Druid spell list. In addition, your mystical connection to nature gives you a bonus to your Intelligence (Arcana or Nature) checks. The bonus equals your Wisdom modifier (minimum bonus of +1).

Wild Companion

You can summon a nature spirit that assumes an animal form to aid you. As a Magic action, you can expend a spell slot or a use of Wild Shape to cast the Find Familiar spell without Material components.

When you cast the spell in this way, the familiar is Fey and disappears when you finish a Long Rest.

Wild Shape

The power of nature allows you to assume the form of an animal. As a Bonus Action, you shape-shift into a Beast form that you have learned for this feature (see "Known Forms" below). You stay in that form for a number of hours equal to half your Druid level or until you use Wild Shape again, have the Incapacitated condition, or die. You can also leave the form early as a Bonus Action.

Number of Uses. You can use Wild Shape twice. You regain one expended use when you finish a Short Rest, and you regain all expended uses when you finish a Long Rest.

You gain additional uses when you reach certain Druid levels, as shown in the Wild Shape column of the Druid Features table.

Known Forms. You know four Beast forms for this feature, chosen from among Beast stat blocks that have a maximum Challenge Rating of 1/4 and that lack a Fly Speed (see appendix B for stat block options). The Rat, Riding Horse, Spider, and Wolf are recommended. Whenever you finish a Long Rest, you can replace one of your known forms with another eligible form.

When you reach certain Druid levels, your number of known forms and the maximum Challenge Rating for those forms increases, as shown in the Beast Shapes table. In addition, starting at level 8, you can adopt a form that has a Fly Speed.

When choosing known forms, you may look in the Monster Manual or elsewhere for eligible Beasts if the Dungeon Master permits you to do so.

Beast Shapes

	Druid Level	Known Forms	Max CR	Fly Speed
•	2	4	1/4	No
•	4	6	1/2	No
	8	8	1	Yes

Rules While Shape-Shifted. While in a form, you retain your personality, memories, and ability to speak, and the following rules apply:

Temporary Hit Points. When you assume a Wild Shape form, you gain a number of Temporary Hit Points equal to your Druid level.

Game Statistics. Your game statistics are replaced by the Beast's stat block, but you retain your creature type; Hit Points; Hit Point Dice; Intelligence, Wisdom, and Charisma scores; class features; languages; and feats. You also retain your skill and saving throw proficiencies and use your Proficiency Bonus for them, in addition to gaining the proficiencies of the creature. If a skill or saving throw modifier in the Beast's stat block is higher than yours, use the one in the stat block.

No Spellcasting. You can't cast spells, but shape-shifting doesn't break your Concentration or otherwise interfere with a spell you've already cast.

Objects. Your ability to handle objects is determined by the form's limbs rather than your own. In addition, you choose whether your equipment falls in your space, merges into your new form, or is worn by it. Worn equipment functions as normal, but the DM decides whether it's practical for the new form to wear a piece of equipment based on the creature's size and shape. Your equipment doesn't change size or shape to match the new form, and any equipment that the new form can't wear must either fall to the ground or merge with the form. Equipment that merges with the form has no effect while you're in that form.

Circle of Spores

Circle Spells

Your symbiotic link to fungus and your ability to tap into the cycle of life and death grants you access to certain spells. At 2nd level, you learn the chill touch cantrip. At 3rd, 5th, 7th, and 9th level you gain access to the spells listed for that level in the Circle of Spores Spells table.

Once you gain access to one of these spells, you always have it prepared, and it doesn't count against the number of spells you can prepare each day. If you gain access to a spell that doesn't appear on the druid spell list, the spell is nonetheless a druid spell for you.

Circle of Spores Spells

Druid Level	Circle Spells
• 3rd	Blindness/Deafness, Gentle Repose
• 5th	Animate Dead, Gaseous Form
7th	Blight, Confusion
9th	Cloudkill, Contagion

Halo of Spores

Starting at 2nd level, you are surrounded by invisible, necrotic spores that are harmless until you unleash them on a creature nearby. When a creature you can see moves into a space within 10 feet of you or starts its turn there, you can use your reaction to deal 1d4 necrotic damage to that creature unless it succeeds on a Constitution saving throw against your spell save DC. The necrotic damage increases to 1d6 at 6th level, 1d8 at 10th level, and 1d10 at 14th level.

Symbiotic Entity

At 2nd level, you gain the ability to channel magic into your spores. As an action, you can expend a use of your Wild Shape feature to awaken those spores, rather than transforming into a beast form, and you gain 4 temporary hit points for each level you have in this class. While this feature is active, you gain the following benefits:

- When you deal your Halo of Spores damage, roll the damage die a second time and add it to the total.
- Your melee weapon attacks deal an extra 1d6 necrotic damage to any target they hit.

These benefits last for 10 minutes, until you lose all these temporary hit points, or until you use your Wild Shape again.

Fungal Infestation

At 6th level, your spores gain the ability to infest a corpse and animate it. If a beast or a humanoid that is Small or Medium dies within 10 feet of you, you can use your reaction to animate it, causing it to stand up immediately with 1 hit point. The creature uses the zombie stat block in the Monster Manual. It remains animate for 1 hour, after which time it collapses and dies.

Zombie

Medium Undead, Neutral Evil

Armor Class *8* ***Initiative*** *-2 (8)*

Speed *20 ft.*

STR	DEX	CON	INT	WIS	CHA
13 (+1)	6 (-2)	16 (+3)	3 (-4)	6 (-2)	5 (-3)

Condition Immunities *Poisoned*
Senses *Darkvision 60 ft., Passive Perception 8*
Languages *Understands all languages it spoke in life but can't speak*
Challenge *1/4 (50 XP)* ***Proficiency Bonus*** *+2*

Traits

Undead Fortitude. *If damage reduces the zombie to 0 hit points, it must make a Constitution saving throw with a DC of 5 + the damage taken, unless the damage is radiant or from a critical hit. On a success, the zombie drops to 1 hit point instead.*

Actions

Slam. *Melee Weapon Attack: +3 to hit, reach 5 ft., one target. Hit: 4 (1d6 + 1) Bludgeoning damage.*

In combat, the zombie's turn comes immediately after yours. It obeys your mental commands, and the only action it can take is the Attack action, making one melee attack.

You can use this feature a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses of it when you finish a long rest.

Wild Resurgence

Once on each of your turns, if you have no uses of Wild Shape left, you can give yourself one use by expending a spell slot (no action required).

In addition, you can expend one use of Wild Shape (no action required) to give yourself a level 1 spell slot, but you can't do so again until you finish a Long Rest.

Ranger Traits - Lvl 3

Favored Enemy

You always have the Hunter's Mark spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

The number of times you can cast the spell without a spell slot increases when you reach certain Ranger levels, as shown in the Favored Enemy column of the Ranger Features table.

Weapon Mastery

Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Longswords.

Deft Explorer

Perception Expertise, 2 Languages
Thanks to your travels, you gain the following benefits.

Expertise. Choose one of your skill proficiencies with which you lack Expertise. You gain Expertise in that skill.

Languages. You know two languages of your choice from the language tables in chapter 2.

Fighting Style

Interception Fighting Style
You gain a Fighting Style feat of your choice.

Horizon Walker

Horizon Walker Magic

Starting at 3rd level, you learn an additional spell when you reach certain levels in this class, as shown in the Horizon Walker Spells table. The spell counts as a ranger spell for you, but it doesn't count against the number of ranger spells you know.

Horizon Walker Spells

	Ranger Level	Circle Spells
•	3rd	Protection from Evil and Good
	5th	Misty Step
	9th	Haste
	13th	Banishment
	17th	Teleportation Circle

Detect Portal

At 3rd level, you gain the ability to magically sense the presence of a planar portal. As an action, you detect the distance and direction to the closest planar portal within 1 mile of you.

Once you use this feature, you can't use it again until you finish a short or long rest.

See the "Planar Travel" section in chapter 2 of the Dungeon Master's Guide for examples of planar portals.

Planar Warrior

At 3rd level, you learn to draw on the energy of the multiverse to augment your attacks.

As a bonus action, choose one creature you can see within 30 feet of you. The next time you hit that creature on this turn with a weapon attack, all damage dealt by the attack becomes force damage, and the creature takes an extra 1d8 force damage from the attack. When you reach 11th level in this class, the extra damage increases to 2d8.

Lvl1 Sorcerer Traits

Innate Sorcery

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain all expended uses of it when you finish a Long Rest.

The second creature takes fire damage equal to your spellcasting ability modifier.

Cantrip Upgrade. This spell's damage increases when you reach certain levels. At 5th level, the melee attack deals an extra 1d8 fire damage to the target on a hit, and the fire damage to the second creature increases to 1d8 + your spellcasting ability modifier. If the object would strike a creature, that creature must make a Dexterity saving throw. On a failed save, the object strikes the target and stops moving. When the object strikes something, the object and what it strikes each take 3d8 bludgeoning damage.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the maximum weight of objects that you can target with this spell increases by 5 pounds, and the damage increases by 1d8, for each slot level above 1st.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and **17 (4d6)**.

Level 1

Find Familiar

1st-Level Conjuration

Casting Time: 1 Hour or Ritual
Range: 10 Feet
Components: V, S, M (burning incense worth 10+ GP, which the spell consumes)
Duration: Instantaneous

You gain the service of a familiar, a spirit that takes an animal form you choose: Bat, Cat, Frog, Hawk, Lizard, Octopus, Owl, Rat, Raven, Spider, Weasel, or another Beast that has a Challenge Rating of 0. Appearing in an unoccupied space within range, the familiar has the statistics of the chosen form, though it is a Celestial, Fey, or Fiend (your choice) instead of a Beast. Your familiar acts independently of you, but it obeys your commands.

Telepathic Connection. While your familiar is within 100 feet of you, you can communicate with it telepathically. Additionally, as a Bonus Action, you can see through the familiar's eyes and hear what it hears until the start of your next turn, gaining the benefits of any special senses it has.

Finally, when you cast a spell with a range of touch, your familiar can deliver the touch. Your familiar must be within 100 feet of you, and it must take a Reaction to deliver the touch when you cast the spell.

Combat. The familiar is an ally to you and your allies. It rolls its own Initiative and acts on its own turn. A familiar can't attack, but it can take other actions as normal.

Disappearance of the Familiar. When the familiar drops to 0 Hit Points, it disappears. It reappears after you cast this spell again. As a Magic action, you can temporarily dismiss the familiar to a pocket dimension. Alternatively, you can dismiss it forever. As a Magic action while it

is temporarily dismissed, you can cause it to reappear in an unoccupied space within 30 feet of you. Whenever the familiar drops to 0 Hit Points or disappears into the pocket dimension, it leaves behind in its space anything it was wearing or carrying.

One Familiar Only. You can't have more than one familiar at a time. If you cast this spell while you have a familiar, you instead cause it to adopt a new eligible form.

Infect

1st-Level Necromancy

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a petri dish)
Duration: Concentration, up to 1 Minute

You inflict a creature you can see within range with a magical disease. At the start of each of the target's turns, it must make a Constitution saving throw. The creature takes 1d12 necrotic damage on a failed saving throw, or half as much on a successful one. If a target succeeds on three of these saves, the spell ends.

A lesser restoration spell cast on the target ends this spell early.

Using a Higher-Level Spell Slot. If you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d12 for every two slot levels above 1st.

Speak with Animals

1st-Level Divination

Casting Time: Action or Ritual
Range: Self
Components: V, S
Duration: 10 Minutes

For the duration, you can comprehend and verbally communicate with Beasts, and you can use any of the Influence action's skill options with them.

Most Beasts have little to say about topics that don't pertain to survival or companionship, but at minimum, a Beast can give you information about nearby locations and monsters, including whatever it has perceived within the past day.

Level 2

Animal Messenger

2nd-Level Enchantment

Casting Time: Action or Ritual
Range: 30 Feet
Components: V, S, M (a morsel of food)
Duration: 24 Hours

A Tiny Beast of your choice that you can see within range must succeed on a Charisma saving throw, or it attempts to deliver a message for you (if the target's Challenge Rating isn't 0, it automatically succeeds). You specify a location you have visited and a recipient who matches a general description, such as "a person dressed in the uniform of the town guard" or "a red-haired dwarf wearing a pointed hat." You also communicate a message of up to twenty-five words. The Beast travels for the duration toward the specified location, covering about 25 miles per 24 hours or 50 miles if the Beast can fly.

When the Beast arrives, it delivers your message to the creature that you described, mimicking your communication. If the Beast doesn't reach its destination before the spell ends, the message is lost, and the Beast returns to where you cast the spell.

Using a Higher-Level Spell Slot. The spell's duration increases by 48 hours for each spell slot level above 2.

Blindness/Deafness

2nd-Level Transmutation

Casting Time: Action
Range: 120 Feet
Components: V
Duration: 1 Minute

One creature that you can see within range must succeed on a Constitution saving throw, or it has the Blinded or Deafened condition (your choice) for the duration. At the end of each of its turns, the target repeats the save, ending the spell on itself on a success.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 2.

Gentle Repose

2nd-Level Necromancy

Casting Time: Action or Ritual
Range: Touch
Components: V, S, M (2 Copper Pieces, which the spell consumes)
Duration: 10 Days

You touch a corpse or other remains. For the duration, the target is protected from decay and can't become Undead.

The spell also effectively extends the time limit on raising the target from the dead, since days spent under the influence of this spell don't count against the time limit of spells such as Raise Dead.

Heat Metal

2nd-Level Transmutation

Casting Time: Action
Range: 60 Feet

Components: V, S, M (a piece of iron and a flame)
Duration: Concentration, up to 1 Minute

Choose a manufactured metal object, such as a metal weapon or a suit of Heavy or Medium metal armor, that you can see within range. You cause the object to glow red-hot. Any creature in physical contact with the object takes 2d8 Fire damage when you cast the spell. Until the spell ends, you can take a Bonus Action on each of your later turns to deal this damage again if the object is within range.

If a creature is holding or wearing the object and takes the damage from it, the creature must succeed on a Constitution saving throw or drop the object if it can. If it doesn't drop the object, it has Disadvantage on attack rolls and ability checks until the start of your next turn.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 2.

Moonbeam

2nd-Level Evocation

Casting Time: Action
Range: 120 Feet
Components: V, S, M (a moonseed leaf)
Duration: Concentration, up to 1 Minute

A silvery beam of pale light shines down in a 5-foot-radius, 40-foot-high Cylinder centered on a point within range. Until the spell ends, Dim Light fills the Cylinder, and you can take a Magic action on later turns to move the Cylinder up to 60 feet.

When the Cylinder appears, each creature in it makes a Constitution saving throw. On a failed save, a creature takes 2d10 Radiant damage, and if the creature is shape-shifted (as a result of the Polymorph spell, for example), it reverts to its true form and can't shape-shift until it leaves the Cylinder. On a successful save, a creature takes half as much damage only. A creature also makes this save when the spell's area moves into its space and when it enters the spell's area or ends its turn there. A creature makes this save only once per turn.

Level 3

Animate Dead

3rd-Level Necromancy

Casting Time: 1 Minute
Range: 10 Feet
Components: V, S, M (a drop of blood, a piece of flesh, and a pinch of bone dust)
Duration: Instantaneous

Choose a pile of bones or a corpse of a Medium or Small Humanoid within range. The target becomes an Undead creature: a Skeleton if you chose bones or a Zombie if you chose a corpse.

On each of your turns, you can take a Bonus Action to mentally command any creature you made with this spell if the creature is within 60 feet of you (if you control multiple creatures, you can command any of them at the same time, issuing the same command to each one). You decide what action the creature will take and where it will move on its next turn, or you can issue a general command, such as to guard a chamber or corridor. If you issue no commands, the creature takes the Dodge action and moves only to avoid harm. Once given an order, the creature continues to follow it until its task is complete.

The creature is under your control for 24 hours, after which it stops obeying any command you've given it. To maintain control of the creature for another 24 hours, you must cast this spell on the creature again before the current 24-hour period ends. This use of the spell reasserts your control over up to four creatures you have animated with this spell rather than animating a new creature.

Using a Higher-Level Spell Slot. You animate or reassert control over two additional Undead creatures for each spell slot level above 3. Each of the creatures must come from a different corpse or pile of bones.

Dispel Magic

3rd-Level Abjuration

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (DC 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

Elemental Exhalation

3rd-Level Evocation

Casting Time: Action
Range: Self
Components: S
Duration: Instantaneous

When you cast this spell, choose one of the following effects that determine the spell's damage type:

Air. The damage type is Thunder. Each creature that fails the saving throw is pushed 10 feet away from you.

Coldfire. The damage type is Cold. Each creature that fails the saving throw has the Frightened condition until the start of your next turn.

Earth. The damage type is Bludgeoning. Each creature that fails the saving throw has its Speed reduced to 0 until the end of its next turn.

Fire. The damage type is Fire. Each creature that fails the saving throw is engulfed in flames and takes 2d6 Fire damage at the end of its next turn. As an action, it can extinguish fire on itself by giving itself the Prone condition and rolling on the ground. The fire also goes out if it is doused, submerged, or suffocated.

Water. The damage type is Acid. Each creature that fails the saving throw has the Prone condition.

Each creature within a 30-foot Cone of destructive elemental energy must make a Dexterity saving throw. On a failed save, a target takes 5d6 damage of the chosen type. On a successful save, the target takes half as much damage only.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 3.

Erupting Earth

3rd-Level Transmutation

Casting Time: Action
Range: 120 Feet
Components: V, S, M (a piece of obsidian)
Duration: Instantaneous

Choose a point you can see on the ground within range. A fountain of churned earth and stone erupts in a 20-foot cube centered on that point. Each creature in that area must make a Dexterity saving throw. A creature takes 3d12 bludgeoning damage on a failed save, or half as much damage on a successful one. Additionally, the ground in that area becomes difficult terrain until cleared. Each 5-foot-square portion of the area requires at least 1 minute to clear by hand.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 4th level or higher, the damage increases by 1d12 for each slot level above 3rd.

Feign Death

3rd-Level Necromancy

Casting Time: Action or Ritual
Range: Touch
Components: V, S, M (a pinch of graveyard dirt)
Duration: 1 Hour

You touch a willing creature and put it into a cataleptic state that is indistinguishable from death.

For the duration, the target appears dead to outward inspection and to spells used to determine the target's status. The target has the Blinded and Incapacitated conditions, and its Speed is 0.

The target also has Resistance to all damage except Psychic damage, and it has Immunity to the Poisoned condition.

Gaseous Form

3rd-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (a bit of gauze)
Duration: Concentration, up to 1 Hour

A willing creature you touch shape-shifts, along with everything it's wearing and carrying, into a misty cloud for the duration. The spell ends on the target if it drops to 0 Hit Points or if it takes a Magic action to end the spell on itself.

While in this form, the target's only method of movement is a Fly Speed of 10 feet, and it can hover. The target can enter and occupy the space of another creature. The target has Resistance to Bludgeoning, Piercing, and Slashing damage; it has Immunity to the Prone condition; and it has Advantage on Strength, Dexterity, and Constitution saving throws. The target can pass through narrow openings, but it treats liquids as though they were solid surfaces.

The target can't talk or manipulate objects, and any objects it was carrying or holding can't be dropped, used, or otherwise interacted with. Finally, the target can't attack or cast spells.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 3.

Pestilence

3rd-Level Necromancy

Casting Time: Action
Range: 90 Feet
Components: V, S, M (a withered flower)
Duration: Concentration, up to 1 Minute

You infect up to three creatures you can see within range with a magical disease. At the start of each of the target's turns, it must make a Constitution saving throw. On a failed saving throw, the creature takes 3d6 necrotic damage and gains 1 level of exhaustion. If a target succeeds on three of these saves, the spell ends for that creature.

Scarlet Dawn

3rd-Level Evocation

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

Crimson light shines down in a 20-foot-radius, 60-foot-high Cylinder centered on a point within range. Each creature in that area that isn't a Construct or Undead must make a Constitution saving throw, taking 4d10 Necrotic damage on a failed save or half as much damage on a successful one. Constructs and Undead in the area regain 4d10 Hit Points.

If any of this spell's area overlaps with an area of Darkness created by a spell of level 3 or lower, that other spell is dispelled.

Using a Higher-Level Spell Slot. The damage increases by 1d10 and the level of spell that can be dispelled increases by 1 for each spell slot level above 3.

A lesser restoration spell cast on a target ends this spell early for that creature.

You magically mark one creature you can see within range as your quarry. Until the spell ends, you deal an extra 1d6 Force damage to the target whenever you hit it with an attack roll. You also have Advantage on any Wisdom (Perception or Survival) check you make to find it.

If the target drops to 0 Hit Points before this spell ends, you can take a Bonus Action to move the mark to a new creature you can see within range.

Using a Higher-Level Spell Slot. Your Concentration can last longer with a spell slot of level 3-4 (up to 8 hours) or 5+ (up to 24 hours).

Protection from Evil and Good

1st-Level Abjuration

Casting Time: Action

Duration: Concentration, up to 10 Minutes

Until the spell ends, one willing creature you touch is protected against creatures that are Aberrations, Celestials, Elementals, Fey, Fiends, or Undead. The protection grants several benefits. Creatures of those types have Disadvantage on attack rolls against the target. The target also can't be possessed by or gain the Charmed or Frightened conditions from them. If the target is already possessed, Charmed, or Frightened by such a creature, the target has Advantage on any new saving throw against the relevant effect.

Thorn Armor

1st-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a rose)
Duration: 10 Minutes

When you cast this spell, a flexible exoskeleton covered in thorns appears around a willing target within range. The target gains 3d6 Temporary Hit Points. This spell ends early if the target has no remaining Temporary Hit Points granted by this spell.

Using a Higher-Level Spell Slot. The target gains an additional 2d6 Temporary Hit Points for each spell slot level above 1.

Bard Spells

Cantrip

Illusory Instrument

Illusion Cantrip

Casting Time: Action
Range: Touch
Components: V, S
Duration: 10 Minutes

You create an illusionary copy of a mundane musical instrument. The copy of the instrument takes on the shape of your fondest memory of the instrument, such as the first flute you owned or the half harp gifted to you by a loved one. This illusion moves as its physical counterpart would, but it is weightless and is tangible only to you. This instrument can be used as a Spellcasting Focus. This illusory instrument dissipates if you move 10 feet away from it orchoose to end the spell (no action required by you).

As a Bonus Action, you can command your instrument to create one of the following effects:

- Mimic basic sounds heard on a daily basis, such as a bird chirping, footsteps, or a slamming door.
- Automatically play a basic beat at the tempo of your choice.
- Record anything played on it, and play it back on a loop.
- Record and playback any noise that it could pick up within 15 feet, such as conversation, a royal decree, or a snoring party member who swears that they don't snore.

Vicious Mockery

Enchantment Cantrip

Casting Time: Action
Range: 60 Feet
Components: V
Duration: Instantaneous

You unleash a string of insults laced with subtle enchantments at one creature you can see or hear within range. The target must succeed on a Wisdom saving throw or take 1d6 Psychic damage and have Disadvantage on the next attack roll it makes before the end of its next turn.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels 5 (2d6), 11 (3d6), and **17 (4d6)**.

Level 1

Charm Person

1st-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Hour

One Humanoid you can see within range makes a Wisdom saving throw. It does so with Advantage if you or your allies are fighting it. On a failed save, the target has the Charmed condition until the spell ends or until you or your allies damage it. The Charmed creature is Friendly to you. When the spell ends, the target knows it was Charmed by you.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 1.

Distort Value

1st-Level Illusion

Casting Time: 1 Minute
Range: Touch
Components: V
Duration: 8 Hours

Do you need to squeeze a few more gold pieces out of a merchant as you try to sell that weird octopus statue you liberated from the chaos temple? Do you need to downplay the worth of some magical assets when the tax collector stops by? Distort value has you covered.

You cast this spell on an object no more than 1 foot on a side, doubling the object's perceived value by adding illusory flourishes or polish to it, or reducing its perceived value by half with the help of illusory scratches, dents, and other unsightly features. Anyone examining the object can ascertain its true value with a successful Intelligence (Investigation) check against your spell save DC.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the maximum size of the object increases by 1 foot for each slot level above 1st.

Comprehend Languages

1st-Level Divination

Casting Time: Action or Ritual
Range: Self
Components: V, S, M (a pinch of soot and salt)
Duration: 1 Hour

For the duration, you understand the literal meaning of any language that you hear or see signed. You also understand any written language that you see, but you must be touching the surface on which the words are written. It takes about 1 minute to read one page of text. This spell doesn't decode symbols or secret messages.

Illusory Script

1st-Level Illusion

Casting Time: 1 Minute or Ritual
Range: Touch
Components: S, M (ink worth 10+ GP, which the spell consumes)
Duration: 10 Days

You write on parchment, paper, or another suitable material and imbue it with an illusion that lasts for the duration. To you and any creatures you designate when you cast the spell, the writing appears normal, seems to be written in your hand, and conveys whatever meaning you intended when you wrote the text. To all others, the writing appears as if it were written in an unknown or magical script that is unintelligible. Alternatively, the illusion can alter the meaning, handwriting, and language of the text, though the language must be one you know.

If the spell is dispelled, the original script and the illusion both disappear.

A creature that has Truesight can read the hidden message.

Unseen Servant

1st-Level Conjuration

Casting Time: Action or Ritual
Range: 60 Feet
Components: V, S, M (a bit of string and of wood)
Duration: 1 Hour

This spell creates an Invisible, mindless, shapeless, Medium force that performs simple tasks at your command until the spell ends. The servant springs into existence in an unoccupied space on the ground within range. It has AC 10, 1 Hit Point, and a Strength of 2, and it can't attack. If it drops to 0 Hit Points, the spell ends.

Once on each of your turns as a Bonus Action, you can mentally command the servant to move up to 15 feet and interact with an object. The servant can perform simple tasks that a human could do, such as fetching things, cleaning, mending, folding clothes, lighting fires, serving food, and pouring drinks. Once you give the command, the servant performs the task to the best of its ability until it completes the task, then waits for your next command.

If you command the servant to perform a task that would move it more than 60 feet away from you, the spell ends.

Sorcerer Spells

Cantrip

Elementalism

Transmutation Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: Instantaneous

You exert control over the elements, creating one of the following effects within range.

Beckon Air. You create a breeze strong enough to ripple cloth, stir dust, rustle leaves, and close open doors and shutters, all in a 5-foot Cube. Doors and shutters being held open by someone or something aren't affected.

Beckon Earth. You create a thin shroud of dust or sand that covers surfaces in a 5-foot-square area, or you cause a single word to appear in your handwriting in a patch of dirt or sand.

Beckon Fire. You create a thin cloud of harmless embers and colored, scented smoke in a 5-foot Cube. You choose the color and scent, and the embers can light candles, torches, or lamps in that area. The smoke's scent lingers for 1 minute.

Beckon Water. You create a spray of cool mist that lightly dampens creatures and objects in a 5-foot Cube. Alternatively, you create 1 cup of clean water either in an open container or on a surface, and the water evaporates in 1 minute.

Sculpt Element. You cause dirt, sand, fire, smoke, mist, or water that can fit in a 1-foot Cube to assume a crude shape (such as that of a creature) for 1 hour.

Mage Hand

Conjuration Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial.

As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet.

The hand can't attack, activate magic items, or carry more than 10 pounds.

Shocking Grasp

Evocation Cantrip

Cantrip Upgrade. The damage increases by 1d8 when you reach levels 5 (2d8), 11 (3d8), and **17 (4d8)**.

1st-Level Evocation

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Witch Bolt

Magic Items

All-Purpose Tool +3

Wondrous Item, Spellcasting Focus, Very Rare (Requires Attunement by an Artificer)

This simple screwdriver can transform into a variety of tools; as an action, you can touch the item and transform it into any type of artisan's tool of your choice (see the "Equipment" chapter in the Player's Handbook for a list of artisan's tools). Whatever form the tool takes, you are proficient with it.

While holding this tool, you gain a +3 bonus to the spell attack rolls and the saving throw DCs of your artificer spells.

As an action, you can focus on the tool to channel your creative forces. Choose a cantrip that you don't know from any class list. For 8 hours, you can cast that cantrip, and it counts as an artificer cantrip for you. Once this property is used, it can't be used again until the next dawn.

Chronolometer

Wondrous Item, Very Rare (Requires Attunement)

While attuned to this device, you have a +1 bonus to Intelligence saving throws. The first time you attune to the chronolometer, you choose one language you don't know. You subsequently know that language while attuned to the device.

Time Bandit. At the start of your turn, roll a d6 (no action required). On a 1-3, you slow down time, gaining an additional action on your turn and doubling your speed until the end of the turn. On a 4-6, you go forward in time to warn yourself of what is to come. The next time you fail a saving throw, attack roll, or ability check, you can reroll the check and take either result. Once you use this feature of the chronolometer, it cannot be used again until the next dawn.

Fate Swap. As a reaction when a creature you can see within 30 feet of you takes damage, that creature gains an additional action if it is the creature's turn, or can take an action immediately even though it isn't the creature's turn. Once you use this feature of the chronolometer, it cannot be used again until the next dawn.

Part of a Whole. While this component is not installed in the Orrery of the Wanderer, its magic might function sporadically or with unpredictable side effects, as determined by the DM.

Ventilating Lungs

Wondrous Item, rare (requires attunement)

These metallic nodules were created in response to the poisonous gases used on the battlefields of the Last War. When you attune to these lungs, they replace the lungs in your chest, which disappear. The lungs allow you to breathe normally, even in an antimagic field, and their breathing function can't be suppressed by magic.

Outside an antimagic field or any other effect that suppresses magic, these lungs allow you to breathe normally in any environment (including a vacuum), and you have advantage on saving throws against harmful gases such as those created by a Cloudkill spell, a Stinking Cloud spell, inhaled poisons, and gaseous breath weapons .

As an action, you can use these lungs to exhale a gust of wind, as if you had cast the Gust of Wind spell (spell save DC 15) with no components. This property of the lungs can't be used again until the next dawn.

If your attunement to the lungs ends, your original lungs reappear.

Gust of Wind

2nd-Level Evocation

Casting Time: Action
Range: Self (60-footline)
Components: V, S
Duration: Concentration, up to 1 Minute

A line of strong wind 60 feet long and 10 feet wide blasts from you in a direction you choose for the spell's duration. Each creature that starts its turn in the line must succeed on a DC 15 Strength saving throw or be pushed 15 feet away from you in a direction following the line.

Any creature in the line must spend 2 feet of movement for every 1 foot it moves when moving closer to you.

The gust disperses gas or vapor, and it extinguishes candles, torches, and similar unprotected flames in the area. It causes protected flames, such as those of lanterns, to dance wildly and has a 50 percent chance to extinguish them.

As a bonus action on each of your turns before the spell ends, you can change the direction in which the line blasts from you.
