Thistlenight

CHARACTER NAME

15 (since swap)	2'9"	50 lbs
AGE	HEIGHT	WEIGHT
Silver-Gray	Pale (Oak)	White
EYES	SKIN	HAIR

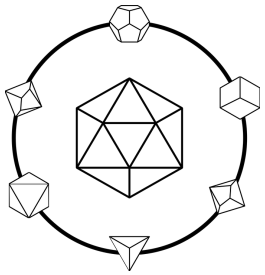

Thistlenight's pale, oaken body and silver-gray, moonlit eyes hint at their fey origins. Their wiry frame is wrapped in tattered, smoke-stained clothing, and white, uneven hair falls around their face. When the glamour fades, faint thorn-like markings appear on their arms and neck, a haunting reminder of their awakening.

CHARACTER APPEARANCE

NAME

Maverick

SYMBOL

ALLIES & ORGANIZATIONS

When Thistlenight speaks, their voice carries a faint, almost imperceptible echo, like whispers lingering just beyond the edge of hearing. It is both haunting and mesmerizing, drawing listeners in while leaving an uneasy feeling in its wake. Those who stand close to them often shiver without explanation, as though a cold wind has brushed past, despite the stillness of the air.

Plants in Thistlenight's presence seem to sense their fey magic - some wilt and wither as though recoiling from their aura, while others bloom unnaturally, stretching toward them as if seeking their attention. Even the smallest weed might twist and shudder faintly when they pass.

When at rest, Thistlenight is unnaturally still, their body devoid of even the smallest fidget or breath-like movement. In these moments, they seem less a living being and more a shadow of something forgotten, tethered to the world by only the faintest thread of reality.

ADDITIONAL FEATURES & TRAITS

Swapped for a mortal child by the fairies, Thistlenight lived unnoticed among humans for years under the veil of fey glamour. As the magic faded, their foster parents realized the horrifying truth: their beloved child had been replaced by a wechselkind. Fear turned to violence as the parents tried to destroy the creature they saw as an abomination. But in that moment of betrayal, Thistlenight awakened, their latent magic surging forth. Thorned vines erupted, killing the parents in a moonless night of blood and terror.

Taking the name "Thistlenight" to mark their dark awakening, they fled the mortal world, leaving behind the ruined house and the twisted remnants of their foster family.

Now stranded in Sigil's Lower Wards after fleeing through a portal, Thistlenight struggles to survive in the smoke-filled alleys of the city. Their ability to mimic the child they replaced offers fleeting safety, but the glamour cannot hold forever. Using their fey-born magic of illusion and trickery, they navigate the brutal streets, avoiding bounty hunters and other dangers.

CHARACTER BACKGROUND

1. Amber Necklace: *A tarnished bronze chain holds a smooth amber stone with a tiny, frozen insect trapped within. Worn and weathered, it radiates a faint warmth, as if it holds a quiet, hidden power. Thistlenight treasures it as the last remnant of their old life.*

2. 8-Inch Glass Ant Figurine: *This delicate glass ant, eerily lifelike, catches light in faint rainbow hues. A small crack mars one of its legs, yet its weight feels oddly grounding in Thistlenight's hand.*

3. Silver Fork with Bent Tines: *A tarnished silver fork with its outer tines bent sideways, bearing a faint, nearly illegible engraving. Its imperfections make it oddly compelling, and Thistlenight keeps it as an inexplicable token of resilience.*

Features, Magic Items and Spells

Wechselkind Traits

Constructed of sturdy materials and enchanted with powerful faerie magic, wechselkind possess several traits that distinguish them from the other races of Etharis.

Artifical Form

You were made, not born, and your unnatural origin forever marks you as different. You are a Construct, but your enchanted form still benefits from healing spells. You can also heal yourself by spending Hit Dice during Short Rests and Long Rests, as normal.

You don't need to eat, drink, sleep, or breathe. You must still be inactive for 8 hours during a Long Rest to gain its benefits.

Self-Repair. If you take this trait twice, when the Mending cantrip is cast on you, you can spend a Hit Die to regain a number of Hit Points equal to the roll of the die plus your Constitution modifier (minimum 1 Hit Point). You can use this feature a number of times equal to your Proficiency Bonus, regaining all expended uses when you finish a Long Rest.

Magical Fortification

Wisdom Saving Throws

The more that magic threatens you, the more your resilience to it increases. Choose an ability score: Strength, Dexterity, Constitution, Intelligence, Wisdom, or Charisma. You have Advantage on saving throws using that ability score against spells and other magical effects.

Childish Agility

Creature Cover

By slipping behind enemies or allies alike, you are able to fade from view with ease. You can take the Hide action even when you have Half Cover from a creature, as long as that creature is of a size larger than you.

Intuitive Acrobat

Staying loose and limber means being able to get out of even the tightest spots when your life is on the line. You have proficiency in the Acrobatics skill.

Pass Through

Making use of constant movement lets you minimize the threat of larger foes. You can move through the space of any creature at least on size larger than you.

Faerie Glamour

When the faerie leaves a wechselkind in place of a mortal child, they cover it with a glamour to make it appear identical to the child that was stolen. Over time this glamour fades, but a wechselkind can still call upon it in times of need.

Magical Savvy (Minor Illusion)

Whether through intensive study or the innate touch of magic in your blood, you have the ability to invoke magical spells. You learn one cantrip of your choice from any spell list, which you cast using the associated ability score: Intelligence for Wizard spells, Wisdom for Cleric and Druid spells, and Charisma for Bard, Sorcerer, and Warlock spells. If the spell appears on multiple spell lists, choose one to determine the spellcasting attribute for that spell.

Magical Savant (Disguise Self)

Only to take on the appearance of the child you were intended to replace

If you take this trait multiple times, you select a different cantrip each time, or you can select a level 1 spell from the same list as a cantrip you have previously chosen. If you select a level 1 spell, you can cast it once without expending a spell slot, and you regain the ability to cast it in that way when you finish a Long Rest. If you have levels in the associated spellcasting class, you always have this spell prepared, and it doesn't count against the number of spells you can prepare each day.

Feylost Background

You are haunted by the fact the Feywild - a mirror world hidden behind a mere twist of perception-is only a hair's breadth away. Although your memories of the Feywild grow fainter with each passing day, your heart swells with a mixture of fear and joy at the prospect of one day venturing back to the Plane of Faerie-your home away from home.

Feature: Feywild Connection

Your mannerisms and knowledge of fey customs are recognized by natives of the Feywild, who see you as one of their own. Because of this, friendly Fey creatures are inclined to come to your aid if you are lost or need help in the Feywild.

Fey Mark

You were transformed in some small way by your stay in the Feywild and gained a fey mark, determined by rolling on the Fey Mark table.

Fey Mark

d8	Fey Mark
1	Your eyes swirl with iridescent colors.
2	You have a sweet scent, like that of nectar or honey.
3	You have long whiskers like those of a cat.
4	Your ears are covered with soft tufts of fur.
5	Your skin sparkles in moonlight.
6	Flowers wilt in your presence.
7	Your hair is made of vines or brambles and grows back to normal length within 1 hour of being cut.
8	You have a tail like that of a dog or another animal.

Feywild Visitor

Whenever you're sound asleep or in a deep trance during a long rest, a spirit of the Feywild might pay you a visit, if the DM wishes it. Determine the spirit's form by rolling on the Feywild Visitor table. No harm ever comes to you as a result of such visits, which can last for minutes or hours, and you remember each visit when you wake up. Conversations that occur with a visitor can contain any number of things, from messages and insights to nonsense and red herrings, at the DM's discretion. Such conversations are always conducted in a language you can understand, even if the Feywild visitor can't speak that language normally.

Feywild Visitor

d8	Visitor
1	Awakened Creature (a Beast or an ordinary plant that has had the awaken spell cast on it)
2	Centaur
3	Dryad
4	Faerie Dragon
5	Pixie
6	Satyr
7	Sprite
8	Unicorn

Feats

Iedcaru's Scanning

While in physical contact with the walking castle Iedcaru you get a +10 bonus to all checks that rely on senses (i.e. Perception (Hearing), Investigation (Sight)).

Sorcerer Traits

Innate Sorcery

An event in your past left an indelible mark on you, infusing you with simmering magic. As a Bonus Action, you can unleash that magic for 1 minute, during which you gain the following benefits:

- The spell save DC of your Sorcerer spells increases by 1.
- You have Advantage on the attack rolls of Sorcerer spells you cast.

You can use this feature twice, and you regain expended uses of it when you finish a Long Rest.

Font of Magic

You can tap into the wellspring within yourself. This wellspring is represented by Sorcery Points, which allow you to create a variety of magical effects.

You have 2 Sorcery Points, and you gain more as you reach higher levels, as shown in the Sorcery Points column of the Sorcery Features table. You can't have more Sorcery Points than the number shown in the table for your level. You regain all expended Sorcery Points when you finish a Long Rest.

You can use your Sorcery Points to fuel the options below, along with other features, such as Metamagic, that use those points.

Converting Spell Slots to Sorcery Points. You can expend a spell slot to gain a number of Sorcery Points equal to the slot's level (no action required)

Creating Spell Slots. As a Bonus Action, you can transform unexpended Sorcery Points into one spell slot. The Creating Spell Slot table shows the cost of creating a spell slot of a given level, and it lists the minimum Sorcerer level you must be to create a slot. You can create a spell slot no higher than level 5.

Any spell slot you create with this feature vanishes when you finish a Long Rest.

Creating Spell Slots

Spell Slot Lvl	Sorcery Point Cost	Min. Sorcerer Lvl
1	2	2
2	3	3
3	5	5
4	6	7
5	7	9

Metamagic

Because your magic flows from within, you can alter your spells to suit your needs; you gain two Metamagic options of your choice from "Metamagic Options" later in this class's description. You use the chosen options to temporarily modify spells you cast. To use an option, you must spend the number of Sorcery Points that it costs.

You can use only one Metamagic option on a spell when you cast it unless otherwise noted in one of those options.

Whenever you gain a Sorcerer level, you can replace one of your Metamagic options with one you don't know. You gain two more options at Sorcerer level 10 and two more at Sorcerer level 17.

Seeking Spell

Cost: 1 Sorcery Point

If you make an attack roll for a spell and miss, you can spend 1 Sorcery Point to reroll the d20, and you must use the new roll.

You can use Seeking Spell even if you've already used a different Metamagic option during the casting of the spell.

Subtle Spell

Cost: 1 Sorcery Point

When you cast a spell, you can spend 1 Sorcery Point to cast it without any Verbal, Somatic, or Material components, except Material components that are consumed by the spell or that have a cost specified in the spell.

Clockwork Sorcery

The cosmic force of order has suffused you with magic. That power arises from Mechanus or a realm like it - a plane of existence shaped entirely by clockwork efficiency. You or someone from your lineage might have become entangled in the machinations of modrons, the orderly beings who inhabit Mechanus. Perhaps your ancestor even took part in the Great Modron March. Whatever its origin within you, the power of order can seem strange to others, but for you, it's part of a vast and glorios system.

Clockwork Spells

When you reach a Sorcerer level specified in the Clockwork Spells tablem you thereafter always have the listed spells prepared.

Clockwork Spells

	Sorcerer Level	Spells
•	3rd	Aid, Alarm, Lesser Restoration, Protection from Evil and Good
•	5th	Dispel Magic, Protection from Energy
	7th	Freedom of Movement, Summon Construct
	9th	Greater Restoration, Wall of Force

In addition, consult the Manifestation of Order table and choose or randomly determine a way your connection to order manifests while you are casting any of your Sorcerer spells.

Manifestations of Order

	1d6	Manifestation
	1	Spectral cogwheels hover behind you.
•	2	The hands of a clock spin in your eyes.
	3	Your skin glows with a brassy sheen.
	4	Floating equations and geometric objects overlay your body.
	5	Your Spellcasting Focus temporarily takes the form of a Tiny clockwork mechanism.
	6	The ticking of gears or ringing of a clock can be heard by you and those affected by your magic

Restore Balance

4 Uses per Long Rest

Your connection to the plane of absolute order allows you to equalize chaotic moments. When a creature you can see within 60 feet of yourself is about to roll a d20 with Advantage or Disadvantage, you can take a Reaction to prevent the roll from being affected by Advantage and Disadvantage.

You can use this feature a number of times equal to your Charisma modifier (minimum of once), and you regain all expended uses when you finish a Long Rest.

Bastion of Law

You can tap into the grand equation of existence to imbue a creature with a shimmering shield of order. As a Magic action, you can expend 1 to 5 Sorcery Points to create a magical ward around yourself or another creature you can see within 30 feet of yourself. The ward is represented by a number of d8s equal to the number of Sorcery Points spent to create it. When the warded creature takes damage, it can expend a number of those dice, roll them, and reduce the damage taken by the total rolled on those dice.

The ward lasts until you finish a Long Rest or until you use this feature again.

Sorcerous Restoration

Maximum of 4 Sorcery Points

When you finish a Short Rest, you can regain expended Sorcery Points, but no more than a number equal to half your Sorcerer level (rounded down). Once you use this feature, you can't do so again until you finish a Long Rest.

Sorcery Incarnate

If you have no uses of Innate Sorcery left, you can use it if you spend 2 Sorcery Points when you take the Bonus Action to activate.

In addition, while your Innate Sorcery feature is active, you can use up to two of your Metamagic option on each spell you cast.

Spells

Cantrips

Chill Touch

Necromancy Cantrip

Casting Time: Action
Range: Touch
Components: V, S
Duration: Instantaneous

Channeling the chill of the grave, make a melee spell attack against a target within reach. On a hit, the target takes 1d10 Necrotic damage and it can't regain Hit Points until the end of your next turn.

At Higher Levels. The damage increases by 1d10 when you reach **level 5 (2d10)**, 11 (3d10), and 17 (4d10)

Elementalism

Transmutation Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: Instantaneous

You exert control over the elements, creating one of the following effects within range.

Beckon Air. You create a breeze strong enough to ripple cloth, stir dust, rustle leaves, and close open doors and shutter, all in a 5-foot Cube. Doors and shutters being held open by someone or something aren't affected.

Beckon Earth. You create a thin shroud of dust or sand that covers surfaces in a 5-foot-square area, or you cause a single word to appear in your handwriting in a patch of dirt or sand.

Beckon Fire. You create a thin cloud of harmless embers and colored, scented smoke in a 5-foot Cube. You choose the color and scent, and the embers can light candles, torches, or lamps in that area. The smoke's scent lingers for 1 minute.

Beckon Water. You create a spray of cool mist that lightly dampens creatures and objects in a 5-foot Cube. Alternatively, you create 1 cup of clean water either in an open container or on a surface, and the water evaporates in 1 minute.

Sculpt Element. You cause dirt, sand, fire, smoke, mist, or water that can fit in a 1-foot Cube to assume a crude shape (such as that of a creature) for 1 hour.

Infestation

Conjuration Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S, M (a living flea)
Duration: Instantaneous

You cause a cloud of mites, fleas, and other parasites to appear momentarily on one creature you can see within range. The target must succeed on a Constitution saving throw, or it takes 1d6 poison damage and moves 5 feet in a random direction if it can move and its speed is at least 5 feet. Roll a d4 for the direction: 1, north; 2, south; 3, east; or 4, west. This movement doesn't provoke opportunity attacks, and if the direction rolled is blocked, the target doesn't move.

At Higher Levels. The spell's damage increases by 1d6 when you reach **5th level (2d6)**, 11th level (3d6), and 17th level (4d6).

Mage Hand

Conjuration Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration or until you dismiss it as an action. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

You can use your action to control the hand. You can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial. You can move the hand up to 30 feet each time you use it.

The hand can't attack, activate magical items, or carry more than 10 pounds.

Mind Sliver

Enchantment Cantrip

Casting Time: Action
Range: 60 Feet
Components: V
Duration: 1 Round

You drive a disorienting spike of psychic energy into the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

At Higher Levels. This spell's damage increases by 1d6 when you reach certain levels: **5th level (2d6)**, 11th level (3d6), and 17th level (4d6).

Minor Illusion

Illusion Cantrip

Casting Time: Action
Range: 30 Feet

Components: S, M
Duration: 1 Minute

You create a sound or an image of an object within range that lasts for the duration. See the descriptions below for the effects of each. The illusion ends if you cast this spell again.

If a creature takes a Study action to examine the sound or image, the creature can determine that it is an illusion with a successful Intelligence (Investigation) check against your spell save DC. If a creature discerns the illusion for what it is, the illusion becomes faint to the creature.

Sound. If you create a sound, its volume can range from a whisper to a scream. It can be your voice, someone else's voice, a lion's roar, a beating of drums, or any other sound you choose. The sound continues unabated throughout the duration, or you can make discrete sounds at different times before the spell ends.

Image. If you create an image of an object - such as a chair, muddy footprints, or a small chestit must be no larger than a 5-foot Cube. The image can't create sound, light, smell, or any other sensory effect. Physical interaction with the image reveals it to be an illusion, since things can pass through it.

Level 1

Alarm

1st-Level Abjuration (Ritual)

Casting Time: 1 Minute
Range: 30 Feet
Components: V, S, M (a bell and silver wire)
Duration: 8 Hours

You set an alarm against intrusion. Choose a door, a window, or an area within range that is no larger than a 20-foot Cube. Until the spell ends, an alarm alerts you whenever a creature touches or enters the warded area. When you cast the spell, you can designate creatures that won't set off the alarm. You also choose whether the alarm is audible or mental:

Audible Alarm. The alarm produces the sound of the handbell for 10 seconds within 60 feet if the warded area.

Mental Alarm. You are alerted by a mental ping if you are within 1 mile of the warded area. This ping awakens you if you're asleep.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Charm Person

1st-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Hour

You attempt to charm a humanoid you can see within range. It must make a Wisdom saving throw, and does so with advantage if you or your companions are fighting it. If it fails the saving throw, it is charmed by you until the spell ends or until you or your companions do anything harmful to it. The charmed creature regards you as a friendly acquaintance. When the spell ends, the creature knows it was charmed by you.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, you can target one additional creature for each slot level above 1st. The creatures must be within 30 feet of each other when you target them.

Chromatic Orb

1st-Level Evocation

Casting Time: Action
Range: 90 Feet
Components: V, S, M (a diamond worth at least 50 gp)
Duration: Instantaneous

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Disguise Self

1st-Level Illusion

Casting Time: Action
Range: Self
Components: V, S
Duration: 1 Hour

You make yourself including your clothing, armor, weapons, and other belongings on your person look different until the spell ends or until you use your action to dismiss it. You can seem 1 foot shorter or taller and can appear thin, fat,

or in between. You can't change your body type, so you must adopt a form that has the same basic arrangement of limbs. Otherwise, the extent of the illusion is up to you.

The changes wrought by this spell fail to hold up to physical inspection. For example, if you use this spell to add a hat to your outfit, objects pass through the hat, and anyone who touches it would feel nothing.

To discern that you are disguised, a creature must take the Study action to inspect your appearance and succeed on an Intelligence (Investigation) check against your spell save DC.

False Life

1st-Level Necromancy

Casting Time: Action
Range: Self
Components: V, S, M (a small amount of alcohol or distilled spirits)

1st-Level Conjuration

Casting Time: Action
Range: 60 Feet
Components: S, M (a drop of water or piece of ice)
Duration: Instantaneous

You create a shard of ice and fling it at one creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 Piercing damage. Hit or miss, the shard then explodes. The target and each creature within 5 feet of the point where the ice exploded must succeed on a Dexterity saving throw or take 2d6 Cold damage.

Using a Higher-Level Spell Slot. The Cold damage increases by 1d6 for each spell slot level above 1.

Protection from Evil & Good

1st-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a flask of Holy Water worth 25+ GP, which the spell consumes)
Duration: Concentration, Up to 10 Minutes

Until the spell ends, one willing creature you touch is protected against creatures that are Aberrations, Celestials, Elementals, Fey, Fiends, or Undead. The protection grants several benefits. Creatures of those types have Disadvantage on attack rolls against the target. The target also can't be possessed by or gain the Charmed or Frightened conditions from them. If the target is already possessed, Charmed, or Frightened by such a creature, the target has Advantage on any new saving throw against the relevant effect.

Level 2

Aid

2nd-Level Abjuration

Casting Time: Action
Range: 30 Feet
Components: V, S, M (a strip of white cloth)
Duration: 8 Hours

Choose up to three creatures within range. Each target's Hit Point maximum and current Hit Points increase by 5 for the duration.

Using a Higher-Level Spell Slot. Each target's Hit Points increase by 5 for each spell slot level above 2.

Cloud of Daggers

2nd-Level Conjuration

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a sliver of glass)
Duration: Concentration, Up to 1 Minute

You fill the air with spinning daggers in a cube 5 feet on each side, centered on a point you choose within range. A creature takes 4d4 slashing damage when it enters the spell's area for the first time on a turn or starts its turn there.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 2d4 for each slot level above 2nd.

Dragon's Breath

2nd-Level Transmutation

Casting Time: Bonus Action
Range: Touch
Components: V, S, M (a hot pepper)
Duration: Concentration, Up to 1 Minute

You touch one willing creature and imbue it with the power to spew magical energy from its mouth, provided it has one. Choose acid, cold, fire, lightning, or poison. Until the spell ends, the creature can use an action to exhale energy of the chosen type in a 15-foot cone. Each creature in that area must make a Dexterity saving throw, taking 3d6 damage of the chosen type on a failed save, or half as much damage on a successful one.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d6 for each slot level above 2nd.

Lesser Restoration

2nd-Level Abjuration

Casting Time: Bonus Action
Range: Touch
Components: V, S
Duration: Instantaneous

You touch a creature and end one condition on it: Blinded, Deafened, Paralyzed, or Poisoned.

Phantasmal Force

2nd-Level Illusion

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a bit of fleece)
Duration: Concentration, Up to 1 Minute

You craft an illusion that takes root in the mind of a creature that you can see within range. The target must make an Intelligence saving throw. On a failed save, you create a phantasmal object, creature, or other visible phenomenon of your choice that is no larger than a 10-foot cube and that is perceivable only to the target for the duration. This spell has no effect on undead or constructs.

The phantasm includes sound, temperature, and other stimuli, also evident only to the creature.

The target can use its action to examine the phantasm with an Intelligence (Investigation) check against your spell save DC. If the check succeeds, the target realizes that the phantasm is an illusion, and the spell ends.

While a target is affected by the spell, the target treats the phantasm as if it were real. The target rationalizes any illogical outcomes from interacting with the phantasm. For example, a target attempting to walk across a phantasmal bridge that spans a chasm falls once it steps onto the bridge. If the target survives the fall, it still believes that the bridge exists and comes up with some other explanation for its fall; it was pushed, it slipped, or a strong wind might have knocked it off.

An affected target is so convinced of the phantasm's reality that it can even take damage from the illusion. A phantasm created to appear as a creature can attack the target. Similarly, a phantasm created to appear as fire, a pool of acid, or lava can burn the target. Each round on your turn, the phantasm can deal 1d6 psychic damage to the target if it is in the phantasm's area or within 5 feet of the phantasm, provided that the illusion is of a creature or hazard that could logically deal damage, such as by attacking. The target perceives the damage as a type appropriate to the illusion.

Level 3

Antagonize

3rd-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S, M (a playing card depicting a rogue)
Duration: Instantaneous

You whisper magical words that antagonize one creature of your choice within range. The target must make a Wisdom saving throw. On a failed save, the target takes 4d4 psychic damage and must immediately use its reaction to make a melee attack against another creature of your choice that you can see. If the target can't make this attack (for example, because there is no one within its reach or because its reaction is unavailable), the target instead has disadvantage on the next attack roll it makes before the start of your next turn. On a successful save, the target takes half as much damage only.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 4th level or higher, the damage increases by 1d4 for each slot level above 3rd.

Dispel Magic

3rd-Level Abjuration

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

Choose one creature, object, or magical effect within range. Any ongoing spell of level 3 or lower on the target ends. For each ongoing spell of level 4 or higher on the target, make an ability check using your spellcasting ability (Dc 10 plus that spell's level). On a successful check, the spell ends.

Using a Higher-Level Spell Slot. You automatically end a spell on the target if the spell's level is equal to or less than the level of the spell slot you use.

Melf's Minute Meteors

3rd-Level Evocation

Casting Time: Action
Range: Self
Components: V, S, M (niter, sulfur, and pine tar formed into a bead)
Duration: Concentration, Up to 10 Minutes

You create six tiny meteors in your space. They float in the air and orbit you for the spell's duration. When you cast the spell and as a bonus action on each of your turns thereafter you can expend one or two of the meteors, sending them streaking toward a point or points you choose within 120 feet of you. Once a meteor reaches its destination or impacts against a solid surface, the meteor explodes. Each creature within 5 feet of the point where the meteor explodes must make a Dexterity saving throw. A creature takes 2d6 fire damage on a failed save, or half as much damage on a successful one.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 4th level or higher, the number of meteors created increases by two for each slot level above 3rd.

Protection from Energy

3rd-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S
Duration: Concentration, Up to 1 Hour

For the duration, the willing creature you touch has Resistance to one damage type of your choice: Acid, Cold, Fire, Lightning, or Thunder.

Vampiric Touch

3rd-Level Necromancy

Casting Time: Action
Range: Self
Components: V, S
Duration: Concentration, Up to 1 Minute

The touch of your shadow-wreathed hand can siphon force from others to heal your wounds. Make a melee spell attack against a creature within your reach. On a hit, the target takes 3d6 Necrotic damage, and you regain hit points equal to half the amount of necrotic damage dealt.

Until the spell ends, you can make the attack again on each of your turns as a Magic action, targeting the same creature or a different one.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 3.

Level 4

Buried Alive

4th-Level Transmutation

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a pinch of grave dirt)
Duration: Instantaneous

You send your enemies to their graves even if they aren't dead yet. A creature that you can see within range that is standing on the ground must make a Strength saving throw. On a failed save, the ground opens and swallows the target, burying it up to 10 feet deep. While buried, the target has Total Cover, has the Restrained and Blinded conditions, and can't breathe. On a successful save, the target has the Prone condition, and its Speed is 0 until the end of its next turn. A buried creature can dig out of the grave by using its action to make a DC 15 Strength (Athletics) check. On a success, it digs 5 feet closer to the surface. If it succeeds by 5 or more, it reaches the surface. When the creature reaches the surface, it exits the ground with the Prone condition.

The target automatically succeeds on its saving throw if it's standing on any thickness of stone or metal, or at least 2 inches of wood.

Dominate Beast

4th-Level Enchantment

Casting Time: Action
Range: 60 Feet
Components: V, S
Duration: Concentration, Up to 1 Minute

You attempt to beguile a beast that you can see within range. It must succeed on a Wisdom saving throw or be charmed by you for the duration. If you or creatures that are friendly to you are fighting it, it has advantage on the saving throw.

While the beast is charmed, you have a telepathic link with it as long as the two of you are on the same plane of existence. You can use this telepathic link to issue commands to the creature while you are conscious (no action required), which it does its best to obey. You can specify a simple and general course of action, such as "Attack that creature", "Run over there", or "Fetch that object". If the creature completes the order and doesn't receive further direction from you, it defends and preserves itself to the best of its ability.

You can use your action to take total and precise control of the target. Until the end of your next turn, the creature takes only the actions you choose, and doesn't do anything that you don't allow it to do. During this time, you can also cause the creature to use a reaction, but this requires you to use your own reaction as well.

Each time the target takes damage, it makes a new Wisdom saving throw against the spell. If the saving throw succeeds, the spell ends.

Using a Higher-Level Spell Slot. When you cast this spell with a 5th-level spell slot, the duration is concentration, up to 10 minutes. When you use a 6th-level spell slot, the duration is concentration, up to 1 hour. When you use a

spell slot of 7th level or higher, the duration is concentration, up to 8 hours.

Freedom of Movement

4th-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a leather strap, bound around the arm or a similar appendage)
Duration: 1 Hour

You touch a willing creature. For the duration, the target's movement is unaffected by difficult terrain, and spells and other magical effects can neither reduce the target's speed nor cause the target to be paralyzed or restrained.

The target can also spend 5 feet of movement to automatically escape from nonmagical restraints, such as manacles or a creature that has it grappled. Finally, being underwater imposes no penalties on the target's movement or attacks.

Raulothim's Psychic Lance

4th-Level Enchantment

Casting Time: Action
Range: 120 Feet
Components: V
Duration: Instantaneous

You unleash a shimmering lance of psychic power from your forehead at a creature that you can see within range. Alternatively, you can utter a creature's name. If the named target is within range, it becomes the spell's target even if you can't see it. If the named target isn't within range, the lance dissipates without effect.

The target must make an Intelligence saving throw. On a failed save, the target takes 7d6 psychic damage and is incapacitated until the start of your next turn. On a successful save, the creature takes half as much damage and isn't incapacitated.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 5th level or higher, the damage increases by 1d6 for each slot level above 4th.

Summon Construct

4th-Level Conjuration

Casting Time: Action
Range: 90 Feet
Components: V, S, M (a lockbox worth 400+ GP)
Duration: Concentration, up to 1 Hour

You call forth the spirit of a construct. It manifests in an unoccupied space that you can see within range. This corporeal form uses the Construct Spirit stat block. When you cast the spell, choose a material: Clay, Metal, or Stone. The creature resembles a golem or a modron (your choice) made of the chosen material, which determines certain traits in its stat block. The creature disappears when it drops to 0 hit points or when the spell ends.

The creature is an ally to you and your companions. In combat, the creature shares your initiative count, but it takes its turn immediately after yours. It obeys your verbal commands (no action required by you). If you don't issue any, it takes the Dodge action and uses its move to avoid danger.

Using a Higher-Level Spell Slot. Use the spell slot's level for the spell's level in the stat block.

Level 5

Mortality

5th-Level Transmutation

Casting Time: Action
Range: 120 Feet
Components: V, S, M (the skull of a humanoid encrusted in gems worth 200+ GP)
Duration: Concentration, up to 1 Minute

As part of casting this spell, you must expend five Hit Point Dice or the spell automatically fails. Roll the Hit Point Dice expended, then choose an Aberration, Celestial, Elemental, Fey, or Fiend within range and condemn it to a taste of mortality. The creature must succeed on a Charisma saving throw or its Hit Point maximum and current Hit Points are reduced by the amount rolled on the Hit Point Dice expended to cast the spell.

For the duration of the spell, a creature that fails the saving throw loses all damage Immunities and Resistances, its creature type changes to Humanoid, and it takes an additional 1d4 Necrotic damage each time it takes damage.

If a creature affected by this spell is reduced to 0 Hit Points, these changes become permanent and the creature dies. This final effect of the spell can only be reversed if the creature is restored to life and targeted by a Remove Curse spell or similar magic.
