W.I.L.D/S.T.R.I-KE

CHARACTER NAME

35	6'5"	305lbs
AGE	HEIGHT	WEIGHT
Blue Visor	Wooden Metal	
EYES	SKIN	HAIR

W.I.L.D/S.T.R.I-KE resembles a mechanical wood elf, with a lithe, angular frame combining sleek metallic plating and intricately carved wooden components. His head is aerodynamic and elven in shape, with a glowing blue visor in place of eyes. Etched with runic patterns, his body blends technology and nature seamlessly, giving him the appearance of an otherworldly archer.

CHARACTER APPEARANCE

NAME

Lantan Ranger Corps

SYMBOL

The "Lantan Ranger Corps" is an elite division of Lantan's defence forces, specializing in reconnaissance, intelligence gathering, and precision strikes. Originally comprised of highly trained humans and gnomes, the Corps initially relied on rigorous military academies to prepare recruits for survival, stealth, and combat. However, as their organic forces proved limited in large-scale operations, the Corps gradually transitioned to using advanced constructs, a hallmark of Lantanna innovation.

Blending traditional woodcraft with cutting-edge technology, the Corps operates autonomously in hostile or uncharted territories. Their tools, often enhanced with magical and mechanical upgrades, enable them to excel in diverse environments. Renowned for their silent efficiency and precision, the Lantan Ranger Corps embodies their motto: "Silent Step, Unseen Strike."

ALLIES & ORGANIZATIONS

W.I.L.D/S.T.R.I-KE's behaviour is a testament to their design as a precision-driven construct. Instinctively drawn to the highest vantage point available, they seem incapable of remaining at ground level for long, their ever-analytical nature compelling them to seek optimal visibility. As they move, their metallic surfaces reflect and refract light faintly, blending subtly with their surroundings. This passive camouflage is enhanced by small patches of moss and lichen that cling to their wooden components, giving them an almost organic appearance.

When preparing for action, W.I.L.D/S.T.R.I-KE often calculates probabilities aloud in a flat, monotone voice, methodically outlining odds and scenarios with unsettling precision. Whether unnerving or amusing to their companions, this habit underscores their relentless focus on efficiency. Equally peculiar, they have an inexplicable tendency to announce the exact time with pinpoint accuracy, regardless of its relevance to the situation - a habit that borders on both useful and bizarre.

ADDITIONAL FEATURES & TRAITS

W.I.L.D/S.T.R.I-KE is part of a construct series called Wilderness Infiltrator Unit for Lethal Deployment in Stealth & Tactical Ranged Incursion - Kinetic Model, crafted by Lantan's renowned "G.E. Petto" factory. Originally known for creating helper constructs, "G.E. Petto" shifted to combat designs as threats to Lantan increased. Modelled after the legendary wood elf ranger Laucian Ilphelkiir, one of the Seven Musketeers who aided the Storm Giants during the Ordning, the W.I.L.D/S.T.R.I-KE series was designed to combine precision, stealth, and a deep connection to the natural world.

Deployed in the "Lantan Ranger Corps", W.I.L.D./S.T.R.I-KE specialized in solo missions, excelling in reconnaissance and precision strikes against high-value targets. Their efficient, emotionless methods earned respect and unease alike among their peers. On one mission, they uncovered a lead on a dangerous enemy of the state, tracing the suspect's activities to Sigil, the City of Doors.

Now in Sigil, W.I.L.D./S.T.R.I-KE pursues their target in a city of infinite possibilities, navigating its chaos with their calculated precision. Yet, amidst the hunt, questions arise - are they merely a tool of the state, or is there more to their existence than the mission?

CHARACTER BACKGROUND

1. **Laucian's Warden Token:** A petrified wood token etched with vine-like patterns and framed in polished metal engraved with Lantanna runes. A faint pine scent clings to it, a connection to nature and their wood elf inspiration. This token was personally gifted to W.I.L.D/S.T.R.I-KE by the legendary Laucian Ilphelkiir himself, marking an exceptional honour bestowed upon the construct for their dedication to the ideals of balance and protection.
2. **Worn Ranger Corps Insignia:** A small, tarnished badge bearing the sigil of the Lantan Ranger Corps. Scratches and wear tell the story of countless missions, a symbol of duty and honor.
3. **Splinter of the Elderwood:** A thin, polished splinter from a legendary tree said to have once been a sanctuary for wood elf heroes. It's small enough to be carried within a hidden compartment.

Features, Magic Items and Spells

Warforged Traits

Construct Resilience

You have Resistance to Poison damage. You also have Advantage on saving throws to avoid or end the Poisoned condition.

Integrated Protection

You gain a +1 bonus to your Armor Class. In addition, armor you have donned can't be removed against your will while you're alive.

Sentry's Rest

You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 6 hours if you spend those hours in an inactive, motionless state. During this time, you appear inert but remain conscious.

Specialized Design

Woodcarver's Tools, Perception Proficiency
You gain one skill proficiency and one tool proficiency of your choice.

Tireless

You don't gain Exhaustion levels from dehydration, malnutrition, or suffocation.

Feats

Iedcaru's Scanning

While in physical contact with the walking castle Iedcaru you get a +10 bonus to all checks that rely on senses (i.e. Perception (Hearing), Investigation (Sight)).

Ranger Traits

Favored Enemy

3 Uses per Long Rest
You always have the *Hunter's Mark* spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

Weapon Mastery

Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Longswords

Longbow (Slow)

If you hit a creature with this weapon and deal damage to it, you can reduce its Speed by 10 feet until the start of your next turn. If the creature is hit more than once by weapons that have this property, the Speed reduction doesn't exceed 10 feet.

Scimitar (Nick)

When you make an extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

Deft Explorer

Perception Expertise, Dwarvish, Undercommon
Thanks to your travels, you gain the following benefits.

Expertise. Choose one of your skill proficiencies with which you lack Expertise. You gain Expertise in that skill.

Languages. You know two languages of your choice from the language tables in chapter 2.

Fighting Style

You gain a Fighting Style feat of your choice.

Archery

You gain a +2 bonus to attack rolls you make with Ranged weapons.

Gloom Stalker

Draw on Shadow Magic to Fight Your Foes

Dread Ambusher

You have mastered the art of creating fearsome ambushes, granting you the following benefits.

Ambusher's Leap. At the start of your first turn of each combat, your Speed increases by 10 feet until the end of that turn.

Dreadful Strike. When you attack a creature and hit it with a weapon, you can deal an extra 2d6 Psychic damage. You can use this benefit only once per turn, you can use it a number of times equal to your Wisdom modifier (minimum of once), and you regain all expended uses when you finish a Long Rest. (3 Uses)

Initiative Bonus. When you roll Initiative, you can add your Wisdom modifier to the roll.

Gloom Stalker Spells

When you reach a Ranger level specified in the Gloom Stalker Spells table, you thereafter always have the listed spells prepared.

Gloom Stalker Spells

	Ranger Level	Spells
•	3rd	Disguise Self
•	5th	Rope Trick
	9th	Fear
	13th	Greater Invisibility
	17th	Seeming

Umbral Sight

You gain Darkvision with a range of 60 feet. If you already have Darkvision when you gain this feature, its range increases by 60 feet.

You are also adept at evading creatures that rely on Darkvision. While entirely in Darkness, you have the Invisible condition to any creature that relies on Darkvision to see you in that darkness.

Iron Mind

Proficiency in Wisdom Saving Throws

You have honed your ability to resist mind-altering powers. You gain proficiency in Wisdom saving throws. If you already have this proficiency, you instead gain proficiency in Intelligence or Charisma saving throws (your choice).

Extra Attack

You can attack twice instead of once whenever you take the Attack action on your turn.

Roving

Your Speed increases by 10 feet while you aren't wearing Heavy armor. You also have a Climb Speed and a Swim Speed equal to your Speed.

Expertise

Stealth and Survival Expertise

Choose two of your skill proficiencies with which you lack Expertise. You gain Expertise in those skills.

Spells

Level 1

Absorb Elements

1st-Level Abjuration

Casting Time: Reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
Range: Self
Components: S
Duration: 1 Round

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Disguise Self

1st-Level Illusion

Casting Time: Action
Range: Self
Components: V, S
Duration: 1 Hour

You make yourself including your clothing, armor, weapons, and other belongings on your person look different until the spell ends or until you use your action to dismiss it. You can seem 1 foot shorter or taller and can appear thin, fat, or in between. You can't change your body type, so you must adopt a form that has the same basic arrangement of limbs. Otherwise, the extent of the illusion is up to you.

The changes wrought by this spell fail to hold up to physical inspection. For example, if you use this spell to add a hat to your outfit, objects pass through the hat, and anyone who touches it would feel nothing.

To discern that you are disguised, a creature must take the Study action to inspect your appearance and succeed on an Intelligence (Investigation) check against your spell save DC.

Fog Cloud

1st-Level Conjuration

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Concentration, Up to 1 Hour

You create a 20-foot-radius sphere of fog centered on a point within range. The sphere spreads around corners, and its area is heavily obscured. It lasts for the duration or until a wind of moderate or greater speed (such as one created by *Gust of Wind*) disperses it.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the radius of the fog increases by 20 feet for each slot level above 1st.

Hunter's Mark

1st-Level Divination

Casting Time: Bonus Action
Range: 90 Feet
Components: V
Duration: Concentration, Up to 1 Hour

You magically mark one creature you can see within range as your quarry. Until the spell ends, you deal an extra 1d6 Force damage to the target whenever you hit it with an attack roll. You also have Advantage on any Wisdom (Perception or Survival) check you make to find it.

If the target drops to 0 Hit Points before this spell ends, you can take a Bonus Action to move the mark to a new creature you can see within range.

Using a Higher-Level Spell Slot. Your Concentration can last longer with a spell slot of level 3-4 (up to 8 hours) or 5+ (up to 24 hours).

Longstrider

1st-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (a pinch of dirt)
Duration: 1 Hour

You touch a creature. The target's Speed increases by 10 feet until the spell ends.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 1.

Snare

1st-Level Abjuration

Casting Time: 1 Min
Range: Touch
Components: V, S, M (30 feet of cord or rope, which is consumed by the spell)
Duration: Until dispelled or triggered

While you cast this spell, you use the cord or rope to create a circle with a 5-foot radius on a flat surface within your reach. When you finish casting, the cord or rope disappears to become a magical trap.

The trap is nearly invisible and requires a successful Intelligence (Investigation) check against your spell save DC to be found.

The trap triggers when a Small creature or larger moves into the area protected by the spell. The triggering creature must succeed on a Dexterity saving throw or fall prone and be hoisted into the air until it hangs upside down 3 feet above the protected surface, where it is restrained.

The restrained creature can make a Dexterity saving throw with disadvantage at the end of each of its turns and ends the restrained effect on a success. Alternatively, another creature that can reach the restrained creature can use an action to make an Intelligence (Arcana) check against your spell save DC. On a success, the restrained effect also ends.

Zephyr Strike

1st-Level Transmutation

Casting Time: Bonus Action
Range: Self
Components: V
Duration: Concentration, Up to 1 Minute

You move like the wind. For the duration, your movement doesn't provoke opportunity attacks.

Once before the spell ends, you can give yourself advantage on one weapon attack roll on your turn. That attack deals an extra 1d8 force damage on a hit. Whether you hit or miss, your walking speed increases by 30 feet until the end of that turn.

Level 2

Cordon of Arrows

2nd-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (an ornamental braid)
Duration: 8 Hours

You touch up to four nonmagical Arrows or Bolts and plant them in the ground in your space. Until the spell ends, the ammunition can't be physically uprooted, and whenever a creature other than you enters a space within 30 feet of the ammunition for the first time on a turn or ends its turn there, one piece of ammunition flies up to strike it. The creature must succeed on a Dexterity saving throw or take 2d4 Piercing damage. The piece of ammunition is then destroyed. The spell ends when none of the ammunition remains planted in the ground.

When you cast this spell, you can designate any creatures you choose, and the spell ignores them.

Using a Higher-Level Spell Slot. The amount of ammunition that can be affected increases by two for each spell slot level above 2.

Find Traps

2nd-Level Divination

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

You sense the presence of any trap within range that is within line of sight.

A trap, for the purpose of this spell, includes anything that would inflict a sudden or

unexpected effect you consider harmful or undesirable, which was specifically intended as such by its creator. Thus, the spell would sense an area affected by the alarm spell, a glyph of warding, or a mechanical pit trap, but it would not reveal a natural weakness in the floor, an unstable ceiling, or a hidden sinkhole.

This spell merely reveals that a trap is present. You don't learn the location of each trap, but you do learn the general nature of the danger posed by a trap you sense.

Rope Trick

2nd-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (a segment of rope)
Duration: 1 Hour

You touch a rope. One end of it hovers upward until the rope hangs perpendicular to the ground or the rope reaches the ceiling. At the rope's upper end, an Invisible 3-foot-by-5-foot portal opens to an extra-dimensional space that lasts until the spell ends. That space can be reached by climbing the rope, which can be pulled into or dropped out of it.

The space can hold up to eight Medium or smaller creatures. Attacks, spells, and other effects can't pass into or out of the space, but creatures inside it can see through the portal. Anything inside the space drops out when the spell ends.

Level 3

Lightning Arrow

2nd-Level Transmutation

Casting Time: Bonus Action, which you take immediately after hitting or missing a target with a ranged attack using a weapon
Range: Self
Components: V, S
Duration: Instantaneous

As your attack hits or misses the target, the weapon or ammunition you're using transforms into a lightning bolt. Instead of taking any damage or other effects from the attack, the target takes 4d8 Lightning damage on a hit or half as much damage on a miss. Each creature within 10 feet of the target then makes a Dexterity saving throw, taking 2d8 Lightning damage on a failed save or half as much damage on a successful one.

The weapon or ammunition then returns to its normal form.

Using a Higher-Level Spell Slot. The damage for both effects of the spell increases by 1d8 for each spell slot level above 3.

Scarlet Dawn

2nd-Level Evocation

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

Crimson light shines down in a 20-foot-radius, 60-foot-high Cylinder centered on a point within range. Each creature in that area that isn't a Construct or Undead must make a Constitution saving throw, taking 4d10 Necrotic damage on a failed save or half as much damage on a successful one. Constructs and Undead in the area regain 4d10 Hit Points.

If any of this spell's area overlaps with an area of Darkness created by a spell of level 3 or lower, that other spell is dispelled.

Using a Higher-Level Spell Slot. The damage increases by 1d10 and the level of spell that can be dispelled increases by 1 for each spell slot level above 3.

Miscellaneous

Attack and Damage Rolls

Melee Weapons

Attack Roll.

Magic Items

Glimmering Moonbow

Weapon (Bow), Rare (Requires Attunement)

Appearance

The Glimmering Moonbow is a masterpiece of arcane craftsmanship, forged from silver-black metal that gleams with an otherworldly sheen. Its slender frame is delicately engraved with the phases of the moon, each glowing faintly with an ethereal silver light, as though imbued with lunar magic. Designed to be both elegant and functional, this bow emanates an aura of mystery and power.

Light dances across its reflective surface, accentuating its celestial motifs, while its supple curves and precise construction suggest unparalleled accuracy. The Glimmering Moonbow is a weapon of legend, capable of harnessing the moon's phases to empower its wielder's arrows, making it a coveted treasure for those who seek balance between finesse and raw arcane potency.

History

The origins of the Glimmering Moonbow trace back to the Age of Arcanum, where it was crafted by a reclusive elven artisan known as Silvarion Lunathil. Renowned for blending intricate magic with masterful metallurgy, Silvarion created the bow as a tribute to Selûne, the goddess of the moon. It was said to channel lunar energy, enhancing its wielder's precision and imbuing their arrows with magical effects tied to the phases of the moon.

The bow was lost during the Calamity, when Silvarion's workshop fell to ruin in the chaos of warring deities and mortal struggles. For centuries, it became the subject of myths, rumored to rest in a hidden vault guarded by ancient wards and lunar constructs. Adventurers searched tirelessly, but the bow eluded discovery, becoming a tale of legend passed down through generations.

It wasn't until an expedition led by the Lantan Ranger Corps - a highly skilled group of scouts - uncovered its resting place that the bow resurfaced. Buried within the remains of a crumbling, gear-filled temple deep in the Moonshae Isles, the Moonbow was carefully extracted and restored. The Corps, recognizing its historical significance and magical potency, preserved the artifact, ensuring its story and craftsmanship would endure for future generations.

The Glimmering Moonbow remains a testament to the ingenuity of past ages, now wielded sparingly by the Corps' most accomplished archers during moments of great peril.

Magic

You gain a +1 bonus to attack and damage rolls made with this magic weapon.

When you hit with a ranged attack roll using this magic bow, the target takes an extra 1d6 radiant damage. If you load no ammunition in the weapon, it produces its own, automatically creating one piece of magic ammunition when you make a ranged attack with it. The ammunition created by the bow vanishes the instant after it hits or misses a target.

While wielding this magic bow, you can use a bonus action to enter a semi-incorporeal state until the start of your next turn. While semi-incorporeal, you have resistance to bludgeoning, piercing, and slashing damage. Once this bonus action is used, it can't be used again until the next dawn.

Boots of Elvenkind

Wondrous Item, Uncommon

While you wear these boots, your steps make no sound, regardless of the surface you are moving across. You also have Advantage on Dexterity (Stealth) checks that rely on moving silently.

Gloves of Thievery

Wondrous Item, Uncommon

These gloves are invisible when worn. While wearing them you gain a +5 bonus to Dexterity (Sleight of Hand) checks and Dexterity checks made to pick locks.

Periapt of Wound Closure

Wondrous Item, Uncommon (requires attunement)

While you wear this pendant, you stabilize whenever you are dying at the start of your turn. In addition, whenever you roll a Hit Die to regain hit points, double the number of hit points it restores.

Ring of Mind Shielding

Ring, Uncommon (requires attunement)

While wearing this ring, you are immune to magic that allows other creatures to read your thoughts, determine whether you are lying, know your alignment, or know your creature type. Creatures can telepathically communicate with you only if you allow it.

You can use an action to cause the ring to become invisible until you use another action to make it visible, until you remove the ring, or until you die.

If you die while wearing the ring, your soul enters it, unless it already houses a soul. You can remain in the ring or depart for the afterlife. As long as your soul is in the ring, you can telepathically communicate with any creature wearing it. A wearer can't prevent this telepathic communication.

Serpent Scale Armor

Armor (Scale Mail), Uncommon

This suit of magic armor is made from shimmering scales. While wearing it, you can apply your full Dexterity modifier (instead of a maximum of +2) when determining your Armor Class. In addition, this armor does not impose disadvantage on your Dexterity (Stealth) checks.
