L.A.T.C.H. (Silas)

CHARACTER NAME

Unknown	6'2"	185 lbs
AGE	HEIGHT	WEIGHT
Electric-Blue	Brass	
EYES	SKIN	HAIR

The Auchtertool Deepworks Corps is a specialized branch of the city's Artificer Guild tasked with exploring dangerous subterranean environments, recovering buried machinery, and investigating ruins or structures unsuitable for ordinary workers. Its expeditions are composed primarily of purpose-built constructs, each selected for a particular function such as excavation, surveying, arcane analysis, maintenance, or security. Deepworks teams are expected to operate independently in unstable and poorly understood environments, often far beyond the immediate reach of Auchtertool's artificers. Following the discovery of the passage beneath the central plaza, the Corps was entrusted with assembling a suitably equipped expedition to investigate what lay below.

NAME

Auchtertool Deepworks Corps

SYMBOL

ALLIES & ORGANIZATIONS

L.A.T.C.H. is built around a remarkably slender Threadborn frame of fine cables, ball-jointed limbs, and tightly interwoven mechanical tendons, granting him a level of flexibility and articulation uncommon even among Auchtertool's constructs. Numerous concealed compartments are hidden throughout his chassis, containing lockpicks, slender tools, signal styluses, and other implements suited to infiltration and quiet theft. His hands are especially delicate and precise, allowing him to manipulate mechanisms with exceptional control. Though not originally built by the Foundries, later modifications added arcane components such as an Illusion Focus and other improvised systems that support deception, disguise, and covert movement.

ADDITIONAL FEATURES & TRAITS

Created by **REDACTED** in **ACCESS DENIED** for the purpose of ... retrieval ... access ... **REDACTED** ... do not open the ... **MISSING**. There was a workshop, perhaps. Or a cellar. Someone said Silas. Someone always said Silas.

... transport manifests ... three locks ... **ACCESS DENIED** ... blue lantern ... run when the bells ... **MISSING** ... payment never received ... west road ... no, not west ...

Following his capture, Auchtertool's artificers attempted to erase the construct's existing memories and overwrite his former directives. Believing the procedure successful, they redesignated him L.A.T.C.H. — Lock Acquisition, Trespass & Covert Handling and reassigned his considerable talents to Auchtertool's covert forces.

Since then, L.A.T.C.H. has served as an infiltration and access specialist, employing his exceptional agility, lockwork expertise, and arcane trickery during covert operations. His new directives function reliably, yet remnants of the failed erasure occasionally surface as sensations, reflexes, or emotions without context.

Most persistent is his dislike of the designation L.A.T.C.H. He cannot explain why it feels wrong. He only knows that when he thinks of himself, another word comes first.

Silas.

PERSONALITY TRAITS

I instinctively notice locks, hidden compartments, weak points, and unattended valuables, often before I consciously realize I am looking for them. I dislike being told who I am supposed to be. Even harmless references to my designation can make me unexpectedly defensive.

Alignment *Chaotic Good*

IDEALS

Identity. *A name, purpose, or past should belong to the one who carries it - not to whoever happens to write it into their instructions.*

BONDS

Silas has few memories he can truly call his own. The name Silas is the one fragment that survived, and he clings to it as proof that something of his former self remains.

FLAWS

Old instincts sometimes surface without explanation. Silas may conceal information, pocket something interesting, or bypass a restriction simply because some forgotten part of him insists that he should.

Features, Magic Items and Spells

Threadborn Traits

Ball-Jointed

You can move through a space as narrow as 1 foot wide as if it were Difficult Terrain.

Innocent Mind

You have Resistance to Psychic damage.

Sewn Nature

You don't require air, food, or drink.

Soothing Heart

You know the Guidance Cantrip, the Sanctuary spell, and the Calm Emotions spell and have those spells always prepared. You can cast each spell once without a spell slot. When you cast Calm Emotions in this way, it can target creatures of any type. You regain the ability to cast them using this trait when you finish a Long Rest. You can also cast either spell using any spell slots you have of the appropriate level. **Intelligence** is your spellcasting ability for the spells you cast with this trait.

You've Got a Friend

Uses: 3
When a creature you can see within 30 feet of yourself fails an ability check using a skill, you can take a Reaction to cast Guidance on the creature, ignoring the spell's normal range. You can use this trait a number of times equal to your Proficiency Bonus, and you regain all expended uses when you finish a Long Rest.

Feats

Alert

You gain the following benefits.
Initiative Proficiency. When you roll Initiative, you can add your Proficiency Bonus to the roll.
Initiative Swap. Immediately after you roll Initiative, you can swap your Initiative with the Initiative of one willing ally in the same combat. You can't make this swap if you or the ally has the Incapacitated condition.

Fairy Trickster

Ability Score Increase: Dexterity, DC: 15
You gain the following benefits.
Ability Score Increase. Increase your Dexterity or Charisma by 1, to a maximum of 20.
Faerie Trod Trotter. When you take the Disengage action on your turn, Difficult Terrain doesn't cost you extra movement for the rest of that turn.
Flustering Strike. When you hit a creature with an attack roll, you can attempt to fluster the target. The target must succeed on a Wisdom saving throw (DC 8 plus the ability modifier of the score increased by this feat and your Proficiency Bonus) or have Disadvantage on saving throws until the end of your next turn.
You can use this benefit a number of times equal to your Proficiency Bonus, and you regain all expended uses when you finish a Long Rest.

Rogue Traits

Expertise

Sleight of Hand, Stealth
You gain Expertise in two of your skill proficiencies of your choice. Sleight of Hand and Stealth are recommended if you have proficiency in them.
At Rogue level 6, you gain Expertise in two more of your skill proficiencies of your choice.

Sneak Attack

You know how to strike subtly and exploit a foe's distraction. Once per turn, you can deal an extra 1d6 damage to one creature you hit with an attack roll if you have Advantage on the roll and the attack uses a Finesse or a Ranged weapon. The extra damage's type is the same as the weapon's type.
You don't need Advantage on the attack roll if at least one of your allies is within 5 feet of the target, the ally doesn't have the Incapacitated condition, and you don't have Disadvantage on the attack roll.
The extra damage increases as you gain Rogue levels, as shown in the Sneak Attack column of the Rogue Features table.

Thieves' Cant

You picked up various languages in the communities where you plied your roguish talents. You know Thieves' Cant and one other language of your choice, which you choose from the language tables in chapter 2.

Weapon Mastery

Your training with weapons allows you to use the mastery properties of two kinds of weapons of

your choice with which you have proficiency, such as Daggers and Shortbows.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Shortswords.

Nick (Dagger)

When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

Vex (Shortbow)

If you hit a creature with this weapon and deal damage to the creature, you have Advantage on your next attack roll against that creature before the end of your next turn.

Cunning Action

Your quick thinking and agility allow you to move and act quickly. On your turn, you can take one of the following actions as a Bonus Action: Dash, Disengage, or Hide.

Arcane Trckster

Mage Hand Legerdemain

When you cast Mage Hand, you can cast it as a Bonus Action, and you can make the spectral hand Invisible. You can control the hand as a Bonus Action, and through it, you can make Dexterity (Sleight of Hand) checks.

Steady Aim

As a Bonus Action, you give yourself Advantage on your next attack roll on the current turn. You can use this feature only if you haven't moved during this turn, and after you use it, your Speed is 0 until the end of the current turn.

Cunning Strike

DC: 15

You've developed cunning ways to use your Sneak Attack. When you deal Sneak Attack damage, you can add one of the following Cunning Strike effects. Each effect has a die cost, which is the number of Sneak Attack damage dice you must forgo to add the effect. You remove the die before rolling, and the effect occurs immediately after the attack's damage is dealt. For example, if you add the Poison effect, remove 1d6 from the Sneak Attack's damage before rolling.

If a Cunning Strike effect requires a saving throw, the DC equals 8 plus your Dexterity modifier and Proficiency Bonus.

Poison (Cost: 1d6). You add a toxin to your strike, forcing the target to make a Constitution saving throw. On a failed save, the target has the Poisoned condition for 1 minute. At the end of each of its turns, the Poisoned target repeats the save, ending the effect on itself on a success.

To use this effect, you must have a Poisoner's Kit on your person.

Trip (Cost: 1d6). If the target is Large or smaller, it must succeed on a Dexterity saving throw or have the Prone condition.

Withdraw (Cost: 1d6). Immediately after the attack, you move up to half your Speed without provoking Opportunity Attacks.

Uncanny Dodge

When an attacker that you can see hits you with an attack roll, you can take a Reaction to halve the attack's damage against you (round down).

Spells

Cantrip

Guidance

Divination Cantrip

Casting Time: Action
Range: Touch
Components: V, S
Duration: Concentration, up to 1 Minute

You touch a willing creature and choose a skill. Until the spell ends, the creature adds 1d4 to any ability check using the chosen skill.

Mage Hand

Conjuration Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial.

As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet.

The hand can't attack, activate magic items, or carry more than 10 pounds.

Magnetobolt

Evocation Cantrip

Casting Time: Action
Range: 90 Feet
Components: V, S
Duration: Instantaneous

A near-invisible pulse of arcanomagnetic energy shoots towards a creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d6 force damage and must succeed on a Strength saving throw or be knocked prone. A creature made of ferrous metal or wearing ferrous armour has disadvantage on this saving throw.

Cantrip Upgrade. This spell's damage increases by 1d6 when you reach **5th level 2d6**, 11th level 3d6, and 17th level 4d6

Smokescreen

Conjuration Cantrip

Casting Time: Action
Range: Self (5-foot-radius cylinder)
Components: V, S, M (a puffball mushroom)
Duration: Concentration, up to 1 Round

You spew a thick cloud of dense black smoke that forms a 5-foot-diameter, 10-foot-high cylinder centred on you that lasts until the start of your next turn The smoke heavily obscures its area When you cast the spell, you can choose whether the cloud remains in the location where you cast it or moves with you, centred on you

When you reach higher levels, the size of the cloud you can create with this spell increases When you reach 5th level, the cloud has a maximum diameter of 15 feet and a height of 20 feet; at 11th level this increases to 25 feet and 30 feet; and at 17th level this increases to 35 feet and 40 feet You choose how big the cloud is in each dimension up to this maximum each time that you cast it.

Level 1

Charm Person

1st-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Hour

One Humanoid you can see within range makes a Wisdom saving throw. It does so with Advantage if you or your allies are fighting it. On a failed save, the target has the Charmed condition until the spell ends or until you or your allies damage it. The Charmed creature is Friendly to you. When the spell ends, the target knows it was Charmed by you.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 1.

Ghost Light

1st-Level Evocation

Casting Time: Action
Range: Touch
Components: V, S, M (a clear marble)
Duration: 1 Hour

You touch one object that is no larger than 10 feet in any dimension and specify any number of creatures you can see within 10 feet. Until the spell ends, the object sheds silvery Bright Light in a 20-foot radius and Dim Light for an additional 20 feet. This light is only visible to the creatures you specified during the casting of the spell; all other creatures perceive the area affected by the light as they regularly would.

Illusory Script

1st-Level Illusion

Casting Time: 1 Minute or Ritual
Range: Touch
Components: S, M (ink worth 10+ GP, which the spell consumes)
Duration: 10 Days

You write on parchment, paper, or another suitable material and imbue it with an illusion that lasts for the duration. To you and any creatures you designate when you cast the spell, the writing appears normal, seems to be written in your hand, and conveys whatever meaning you intended when you wrote the text. To all others, the writing appears as if it were written in an unknown or magical script that is unintelligible. Alternatively, the illusion can alter the meaning, handwriting, and language of the text, though the language must be one you know.

If the spell is dispelled, the original script and the illusion both disappear.

A creature that has Truesight can read the hidden message.

Sanctuary

1st-Level Abjuration

Casting Time: Bonus Action
Range: 30 Feet
Components: V, S, M (a shard of glass from a mirror)
Duration: 1 Minute

You ward a creature within range. Until the spell ends, any creature who targets the warded creature with an attack roll or a damaging spell must succeed on a Wisdom saving throw or either choose a new target or lose the attack or

spell. This spell doesn't protect the warded creature from areas of effect.

The spell ends if the warded creature makes an attack roll, casts a spell, or deals damage.

Witch Bolt

1st-Level Evocation

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a twig struck by lightning)
Duration: Concentration, up to 1 Minute

A beam of crackling energy lances toward a creature within range, forming a sustained arc of lightning between you and the target. Make a ranged spell attack against it. On a hit, the target takes 2d12 Lightning damage.

On each of your subsequent turns, you can take a Bonus Action to deal 1d12 Lightning damage to the target automatically, even if the first attack missed.

The spell ends if the target is ever outside the spell's range or if it has Total Cover from you.

Using a Higher-Level Spell Slot. The initial damage increases by 1d12 for each spell slot level above 1.

Level 2

Calm Emotions

1st-Level Enchantment

Casting Time: Action
Range: 60 Feet
Components: V, S
Duration: Concentration, up to 1 Minute

Each Humanoid in a 20-foot-radius Sphere centered on a point you choose within range must succeed on a Charisma saving throw or be affected by one of the following effects (choose for each creature):

- The creature has Immunity to the Charmed and Frightened conditions until the spell ends. If the creature was already Charmed or Frightened, those conditions are suppressed for the duration.
- The creature becomes Indifferent about creatures of your choice that it's Hostile toward. This indifference ends if the target takes damage or witnesses its allies taking damage. When the spell ends, the creature's attitude returns to normal.

Magic Items

Ghostkey

Weapon (Dagger), Rare (requires Attunement)
Damage: 1d4 Piercing
Properties: Finesse, Light, Thrown (20/60 ft.)
Weapon Mastery: Vex
Charges: 3

Ghostkey is a slender stiletto forged from dark, unfamiliar metal. Fine geometric grooves run along the blade like the teeth of countless overlapping keys, subtly shifting whenever the weapon is turned in the light. It was found among Silas's possessions after his capture, though neither its maker nor its original purpose could be identified. Silas remembers nothing of the weapon, yet handling it feels strangely familiar.

You gain a +1 bonus to attack and damage rolls made with this magic weapon. It returns to your hand immediately after you use it to make a ranged attack roll.

Ghostkey has 3 charges and regains all expended charges when you finish a Long Rest.

Open the Way. As an Action, you can press Ghostkey against a nonmagical lock, latch, manacle, or similar mechanism and expend 1 charge. The mechanism immediately opens without producing any sound. If the mechanism is magical, you instead gain Advantage on the next Dexterity check using Thieves' Tools made to open it.

Find the Seam. When you deal Sneak Attack damage to a creature using Ghostkey, you can expend 1 charge to exploit a weakness in its defenses. Until the start of your next turn, the creature cannot take Reactions and its AC is reduced by 1.
