EYES	SKIN	HAIR

NAME

Auchtertool Deepworks Corps

SYMBOL

The Auchtertool Deepworks Corps is a specialized branch of the city's Artificer Guild tasked with exploring dangerous subterranean environments, recovering buried machinery, and investigating ruins or structures unsuitable for ordinary workers. Its expeditions are composed primarily of purpose-built constructs, each selected for a particular function such as excavation, surveying, arcane analysis, maintenance, or security. Deepworks teams are expected to operate independently in unstable and poorly understood environments, often far beyond the immediate reach of Auchtertool's artificers. Following the discovery of the passage beneath the central plaza, the Corps was entrusted with assembling a suitably equipped expedition to investigate what lay below.

ALLIES & ORGANIZATIONS

L.O.R.E-3 is built as a dedicated arcane research platform, its slender warforged frame incorporating numerous lenses, runic sensors, and calibration instruments for examining unfamiliar magical phenomena. Its hands are exceptionally precise, fitted with retractable styluses and fine engraving tools suited to calligraphy, cartography, and the transcription of delicate runes. L.O.R.E-3 rarely operates without the Codex Veritas, an awakened spellbook that serves as both companion and primary research archive, responding to the construct as new knowledge is recorded within its pages. Rotating optical lenses and supplementary articulated instruments allow L.O.R.E-3 to inspect objects from several angles at once, giving the unit the unmistakable appearance of a scholar built to catalogue anything that can be understood - and investigate anything that cannot.

ADDITIONAL FEATURES & TRAITS

L.O.R.E-3 was constructed approximately seven years ago as part of Auchtertool's effort to create a dedicated platform for the study of arcane phenomena. Rather than being designed for labour or warfare, the unit was built around an unusually sophisticated cognitive core intended to process magical theory, historical records, runic systems, and complex patterns far beyond the capabilities of most constructs. The result was one of the most intelligent machines ever produced by the Auchtertool Foundries.

Since its activation, L.O.R.E-3 has served the city's artificers as an arcane diagnostician, examining enchanted objects, translating obscure inscriptions, documenting magical anomalies, and assisting with research into technologies whose functions are not immediately understood. Its work is closely supported by the awakened spellbook Codex Veritas, which acts as both research archive and companion, preserving the discoveries accumulated throughout the unit's service.

CHARACTER BACKGROUND

Untranslated Rune Shard: *A fragment of inscribed black stone recovered during an earlier investigation. Despite years of study, L.O.R.E-3 has never deciphered it and refuses to classify the matter as closed.*

First Finished Map: *A carefully preserved hand-drawn map produced shortly after L.O.R.E-3 learned cartography. Its measurements are slightly imperfect, but the construct keeps it as evidence of knowledge acquired rather than installed.*

Vial of Archivist's Ink: *A small sealed bottle of deep blue ink mixed personally by the artificer who first taught L.O.R.E-3 calligraphy. It is rarely used and reserved only for discoveries considered truly significant.*

PERSONALITY TRAITS

I record unfamiliar symbols, phrases, and phenomena immediately; undocumented information is information at risk of being lost. I become intensely focused when presented with something I cannot identify, sometimes continuing an analysis long after others have lost interest.

Alignment *Lawful Neutral*

IDEALS

Understanding. *Nothing should remain mysterious merely because it is ancient, difficult, or unfamiliar. Every secret can be approached through careful study.*

BONDS

The Codex Veritas contains years of shared research and accumulated knowledge. L.O.R.E-3 regards its preservation as equally important as protecting its own continued operation.

FLAWS

L.O.R.E-3 struggles to leave unanswered questions alone and may spend far too long examining an anomaly when the wiser course would simply be to move on.

Features, Magic Items and Spells

Warforged Traits

Construct Resilience

You have Resistance to Poison damage. You also have Advantage on saving throws to avoid or end the Poisoned condition.

Integrated Protection

You gain a +1 bonus to your Armor Class. In addition, armor you have donned can't be removed against your will while you're alive.

Sentry's Rest

You don't need to sleep, and magic can't put you to sleep. You can finish a Long Rest in 6 hours if you spend those hours in an inactive, motionless state. During this time, you appear inert but remain conscious.

Specialized Design

Acrobatics Proficiency, Drum Proficiency
You gain one skill proficiency and one tool proficiency of your choice.

Tireless

You don't gain Exhaustion levels from dehydration, malnutrition, or suffocation.

Feats

Magic Initiate (Wizard)

You gain the following benefits.

Two Cantrips

Magnetobolt, Mending
You learn two cantrips of your choice from the Cleric, Druid, or Wizard spell list. Intelligence, Wisdom, or Charisma is your spellcasting ability for this feat's spells (choose when you select this feat).

Level 1 Spell

Binding Pledge
Choose a level 1 spell from the same list you selected for this feat's cantrips. You always have that spell prepared. You can cast it once without a spell slot, and you regain the ability to cast it in that way when you finish a Long Rest. You can also cast the spell using any spell slots you have.

Spell Change

Whenever you gain a new level, you can replace one of the spells you chose for this feat with a different spell of the same level from the chosen spell list.

Wizard Traits

Ritual Adept

You can cast any spell as a Ritual if that spell has the Ritual tag and the spell is in your spellbook. You needn't have the spell prepared, but you must read from the book to cast a spell in this way.

Arcane Recovery

You can regain some of your magical energy by studying your spellbook. When you finish a Short Rest, you can choose expended spell slots to recover. The spell slots can have a combined level equal to no more than half your Wizard level (round up), and none of the slots can be level 6 or higher. For example, if you're a level 4 Wizard, you can recover up to two levels' worth of spell slots, regaining either one level 2 spell slot or two level 1 spell slots.

Once you use this feature, you can't do so again until you finish a Long Rest.

Scholar

Arcana Expertise
While studying magic, you also specialized in another field of study. Choose one of the following skills in which you have proficiency: Arcana, History, Investigation, Medicine, Nature, or Religion. You have Expertise in the chosen skill.

Order of Scribes

Wizardly Quill

As a bonus action, you can magically create a Tiny quill in your free hand. The magic quill has the following properties:

- The quill doesn't require ink. When you write with it, it produces ink in a color of your choice on the writing surface.
- The time you must spend to copy a spell into your spellbook equals 2 minutes per spell level if you use the quill for the transcription.
- You can erase anything you write with the quill if you wave the feather over the text as a bonus action, provided the text is within 5 feet of you.

This quill disappears if you create another one or if you die.

Awakened Spellbook

Using specially prepared inks and ancient incantations passed down by your wizardly order,

you have awakened an arcane sentience within your spellbook.

While you are holding the book, it grants you the following benefits:

- You can use the book as a spellcasting focus for your wizard spells.
- When you cast a wizard spell with a spell slot, you can temporarily replace its damage type with a type that appears in another spell in your spellbook, which magically alters the spell's formula for this casting only. The latter spell must be of the same level as the spell slot you expend.
- When you cast a wizard spell as a ritual, you can use the spell's normal casting time, rather than adding 10 minutes to it. Once you use this benefit, you can't do so again until you finish a long rest.

If necessary, you can replace the book over the course of a short rest by using your Wizardly Quill to write arcane sigils in a blank book or a magic spellbook to which you're attuned. At the end of the rest, your spellbook's consciousness is summoned into the new book, which the consciousness transforms into your spellbook, along with all its spells. If the previous book still existed somewhere, all the spells vanish from its pages.

Memorize Spell

Whenever you finish a Short Rest, you can study your spellbook and replace one of the level 1+ Wizard spells you have prepared for your Spellcasting feature with another level 1+ spell from the book.

Spells

Cantrip

Light

Evocation Cantrip

Casting Time: Action
Range: Touch
Components: V, M (a firefly or phosphorescent moss)
Duration: 1 Hour

You touch one Large or smaller object that isn't being worn or carried by someone else. Until the spell ends, the object sheds Bright Light in a 20-foot radius and Dim Light for an additional 20 feet. The light can be colored as you like.

Covering the object with something opaque blocks the light. The spell ends if you cast it again.

Mage Hand

Conjuration Cantrip

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Minute

A spectral, floating hand appears at a point you choose within range. The hand lasts for the duration. The hand vanishes if it is ever more than 30 feet away from you or if you cast this spell again.

When you cast the spell, you can use the hand to manipulate an object, open an unlocked door or container, stow or retrieve an item from an open container, or pour the contents out of a vial.

As a Magic action on your later turns, you can control the hand thus again. As part of that action, you can move the hand up to 30 feet.

The hand can't attack, activate magic items, or carry more than 10 pounds.

Magnetobolt

Evocation Cantrip

Casting Time: Action
Range: 90 Feet
Components: V, S
Duration: Instantaneous

A near-invisible pulse of arcanomagnetic energy shoots towards a creature within range. Make a ranged spell attack against the target. On a hit, the target takes 1d6 force damage and must succeed on a Strength saving throw or be knocked prone. A creature made of ferrous metal or wearing ferrous armour has disadvantage on this saving throw.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels **5 (2d6)**, 11 (3d6), and 17 (4d6).

Mending

Transmutation Cantrip

Casting Time: 1 Minute
Range: Touch
Components: V, S, M (two lodestones)
Duration: Instantaneous

This spell repairs a single break or tear in an object you touch, such as a broken chain link, two halves of a broken key, a torn cloak, or a leaking wineskin. As long as the break or tear is no larger than 1 foot in any dimension, you mend it, leaving no trace of the former damage.

This spell can physically repair a magic item, but it can't restore magic to such an object.

Message

Transmutation Cantrip

Casting Time: Action
Range: 120 Feet

Components: S, M (a copper wire)
Duration: 1 Round

You point toward a creature within range and whisper a message. The target (and only the target) hears the message and can reply in a whisper that only you can hear.

You can cast this spell through solid objects if you are familiar with the target and know it is beyond the barrier. Magical silence; 1 foot of stone, metal, or wood; or a thin sheet of lead blocks the spell.

Mind Sliver

Enchantment Cantrip

Casting Time: Action
Range: 60 Feet
Components: V
Duration: Instantaneous

You try to temporarily sliver the mind of one creature you can see within range. The target must succeed on an Intelligence saving throw or take 1d6 Psychic damage and subtract 1d4 from the next saving throw it makes before the end of your next turn.

Cantrip Upgrade. The damage increases by 1d6 when you reach levels **5 (2d6)**, 11 (3d6), and 17 (4d6).

Level 1

Binding Pledge

1st-Level Divination

Casting Time: 1 Minute or Ritual
Range: Touch
Components: V, S, M (a book of religious or legal importance)
Duration: 10 Days

When you cast the spell, a willing creature within range makes a promise, swears an oath, or enters into a contract. For the duration of the spell, you immediately know if the creature breaks that promise, oath, or contract. If this happens, for the remainder of the duration of the spell, you know the distance and direction to the creature. If this spell is dispelled, you immediately know it but don't learn the distance and direction to the creature.

Using a Higher-Level Spell Slot. The duration becomes 30 days (level 3-4 slot) or 1 year (level 5-6 slot). If you use a level 7+ spell slot, the spell lasts until dispelled.

Chromatic Orb

1st-Level Evocation

Casting Time: Action
Range: 90 Feet
Components: V, S, M (a diamond worth 50+ GP)
Duration: Instantaneous

You hurl an orb of energy at a target within range. Choose Acid, Cold, Fire, Lightning, Poison, or Thunder for the type of orb you create, and then make a ranged spell attack against the target. On a hit, the target takes 3d8 damage of the chosen type.

If you roll the same number on two or more of the d8s, the orb leaps to a different target of your choice within 30 feet of the target. Make an attack roll against the new target, and make a new damage roll. The orb can't leap again unless you cast the spell with a level 2+ spell slot.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 1. The orb can leap a maximum number of times equal to the level of the slot expended, and a creature can be targeted only once by each casting of this spell.

Comprehend Languages

1st-Level Divination

Casting Time: Action or Ritual
Range: Self
Components: V, S, M (a pinch of soot and salt)
Duration: 1 Hour

For the duration, you understand the literal meaning of any language that you hear or see signed. You also understand any written language that you see, but you must be touching the surface on which the words are written. It takes about 1 minute to read one page of text. This spell doesn't decode symbols or secret messages.

Detect Magic

1st-Level Divination

Casting Time: Action or Ritual
Range: Self
Components: V, S
Duration: Concentration, up to 10 Minutes

For the duration, you sense the presence of magical effects within 30 feet of yourself. If you sense such effects, you can take the Magic action to see a faint aura around any visible creature or object in the area that bears the magic, and if an effect was created by a spell, you learn the spell's school of magic.

The spell is blocked by 1 foot of stone, dirt, or wood; 1 inch of metal; or a thin sheet of lead.

Distort Value

1st-Level Illusion

Casting Time: 1 Minute
Range: Touch
Components: V
Duration: 8 Hours

Do you need to squeeze a few more gold pieces out of a merchant as you try to sell that weird octopus statue you liberated from the chaos temple? Do you need to downplay the worth of some magical assets when the tax collector stops by? Distort value has you covered.

You cast this spell on an object no more than 1 foot on a side, doubling the object's perceived value by adding illusory flourishes or polish to it, or reducing its perceived value by half with the help of illusory scratches, dents, and other unsightly features. Anyone examining the object can ascertain its true value with a successful Intelligence (Investigation) check against your spell save DC.

Using a Higher-Level Spell Slot. When you cast this spell using a spell slot of 2nd level or higher, the maximum size of the object increases by 1 foot for each slot level above 1st.

Identify

1st-Level Divination

Casting Time: 1 Minute or Ritual
Range: Touch
Components: V, S, M (a pearl worth 100+ GP)
Duration: Instantaneous

You touch an object throughout the spell's casting. If the object is a magic item or some other magical object, you learn its properties and how to use them, whether it requires Attunement, and how many charges it has, if any. You learn whether any ongoing spells are affecting the item and what they are. If the item was created by a spell, you learn that spell's name.

If you instead touch a creature throughout the casting, you learn which ongoing spells, if any, are currently affecting it.

Illusory Script

1st-Level Illusion

Casting Time: 1 Minute or Ritual
Range: Touch
Components: S, M (ink worth 10+ GP, which the spell consumes)
Duration: 10 Days

You write on parchment, paper, or another suitable material and imbue it with an illusion that lasts for the duration. To you and any creatures you designate when you cast the spell, the writing appears normal, seems to be written in your hand, and conveys whatever meaning you intended when you wrote the text. To all others, the writing appears as if it were written in an unknown or magical script that is unintelligible. Alternatively, the illusion can alter the meaning, handwriting, and language of the text, though the language must be one you know.

If the spell is dispelled, the original script and the illusion both disappear.

A creature that has Truesight can read the hidden message.

Intaglio

1st-Level Transmutation

Casting Time: Action or Ritual
Range: Touch
Components: V, S, M (a quill or a vial of ink)
Duration: Concentration, up to 1 Hour

You create a duplicate of a text or image. During the spell's duration, you can take a Magic action to trace your hand over any non-magical text or image on a surface within range. You copy the text or image onto a new medium that you provide, such as another book or parchement. This spell copies a single page with each Magic action. When copying a spellbook, you can do so using the same method as you would replace a spellbook, except the time and GP requirements are both halved.

Mage Armor

1st-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a piece of cured leather)
Duration: 8 Hours

You touch a willing creature who isn't wearing armor. Until the spell ends, the target's base AC becomes 13 plus its Dexterity modifier. The spell ends early if the target dons armor.

Shield

1st-Level Abjuration

Casting Time: Reaction, which you take when you are hit by an attack roll or targeted by the Magic Missile spell
Range: Self
Components: V, S
Duration: 1 Round

An imperceptible barrier of magical force protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from Magic Missile.

Tenser's Floating Disk

1st-Level Conjuration

Casting Time: Action or Ritual
Range: 30 Feet
Components: V, S, M (a drop of mercury)
Duration: 1 Hour

This spell creates a circular, horizontal plane of force, 3 feet in diameter and 1 inch thick, that floats 3 feet above the ground in an unoccupied space of your choice that you can see within range. The disk remains for the duration and can hold up to 500 pounds. If more weight is placed on it, the spell ends, and everything on the disk falls to the ground.

The disk is immobile while you are within 20 feet of it. If you move more than 20 feet away from it, the disk follows you so that it remains within 20 feet of you. It can move across uneven terrain, up or down stairs, slopes and the like, but it can't cross an elevation change of 10 feet or more. For example, the disk can't move across a 10-foot-deep pit, nor could it leave such a pit if it was created at the bottom.

If you move more than 100 feet from the disk (typically because it can't move around an obstacle to follow you), the spell ends.

Level 2

Borrowed Knowledge

2nd-Level Divination

Casting Time: Action
Range: Self
Components: V, S, M (a book worth at least 25 gp)
Duration: 1 Hour

You draw on knowledge from spirits of the past. Choose one skill in which you lack proficiency. For the spell's duration, you have proficiency in the chosen skill. The spell ends early if you cast it again.

Mind Spike

2nd-Level Divination

Casting Time: Action
Range: 120 Feet
Components: S
Duration: Concentration, up to 1 Hour

You drive a spike of psionic energy into the mind of one creature you can see within range. The target makes a Wisdom saving throw, taking 3d8 Psychic damage on a failed save or half as much damage on a successful one. On a failed save, you also always know the target's location until the spell ends, but only while the two of you are on the same plane of existence. While you have this knowledge, the target can't become hidden from you, and if it has the Invisible condition, it gains no benefit from that condition against you.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 2.

Skywrite

2nd-Level Transmutation

Casting Time: Action or Ritual
Range: Sight
Components: V, S
Duration: Concentration, up to 1 Hour

You cause up to ten words to form in a part of the sky you can see. The words appear to be made of cloud and remain in place for the spell's duration. The words dissipate when the spell ends. A strong wind can disperse the clouds and end the spell early.

Unraveling Whisper

2nd-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Round

Choose a creature you can see within range and whisper a frightful phrase that only the target can hear. The target must make a Wisdom saving throw. On a failed save, the target takes 2d6 Psychic damage and has the Frightened condition until the start of your next turn. On a successful save, the target takes half as much damage only.

While Frightened in this way, the creature has Vulnerability to your choice of Bludgeoning, Piercing, or Slashing damage.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 2.

Level 3

Conjure Constructs

3rd-Level Conjuration

Casting Time: Action
Range: 60 Feet
Components: V, S, M (a brass cog)
Duration: Concentration, up to 10 Minutes

You conjure a group of intangible, orderly spirits that appear as a Medium group of modrons or other Constructs in an unoccupied space you can see within range. The spirits last for the duration. When you cast this spell and as a Magic action on subsequent turns, you can command the spirits to target one creature or object you can see within 5 feet of the spirits and create one of the following effects:

Clockwork Force. The target makes a Dexterity saving throw, taking 3d6 Force damage on a failed save or half as much damage on a successful one.

Orderly Ward. The target gains Temporary Hit Points equal to 1d6 plus your spellcasting ability modifier.

When you move on your turn, you can also move the spirits up to 30 feet to an unoccupied space you can see.

Using a Higher-Level Spell Slot. The damage and Temporary Hit Points both increase by 1d6 for each spell slot level above 3.

Scarlet Dawn

3rd-Level Evocation

Casting Time: Action
Range: 120 Feet
Components: V, S
Duration: Instantaneous

Crimson light shines down in a 20-foot-radius, 60-foot-high Cylinder centered on a point within range. Each creature in that area that isn't a Construct or Undead must make a Constitution saving throw, taking 4d10 Necrotic damage on a failed save or half as much damage on a successful one. Constructs and Undead in the area regain 4d10 Hit Points.

If any of this spell's area overlaps with an area of Darkness created by a spell of level 3 or lower, that other spell is dispelled.

Using a Higher-Level Spell Slot. The damage increases by 1d10 and the level of spell that can be dispelled increases by 1 for each spell slot level above 3.

Magic Items

Codex Veritas

Wondrous Item (Spellbook), Rare (requires Attunement by a Wizard)

The Codex Veritas is an awakened spellbook bound in reinforced brass and dark leather, its pages threaded with faintly luminous arcane script. Rather than remaining fixed upon the page, its writing constantly rearranges itself as the book compares new information against everything previously recorded within it. When accompanying its wielder, the Codex frequently hovers nearby, opening itself to relevant passages or filling its margins with observations of its own.

The Codex functions as your spellbook and Spellcasting Focus and possesses all properties granted by the Awakened Spellbook feature. While using the Codex Veritas as your Spellcasting Focus, you gain a +1 bonus to your spell attack rolls and Spell Save DC.

Living Index. Whenever you make an Intelligence (Arcana, History, Investigation, or Religion) check to examine a magical object, spell, rune, inscription, or other arcane phenomenon, the Codex automatically searches its accumulated records for relevant information. You have Advantage on the check.

Veritas Analysis. When you cast Identify using the Codex, its analysis penetrates magical obfuscation normally concealed from the spell. In addition to the information normally revealed, you learn whether the target carries a curse, possesses concealed magical properties, or requires an unusual condition for its powers to function. If sufficient evidence exists, the Codex may also provide information concerning the object's approximate origin or purpose.

Cross-Reference. When you encounter writing, symbols, or magical notation that you cannot immediately understand, you can spend 10 minutes allowing the Codex to compare them against its accumulated records. The DM tells you whether the markings resemble any language, magical tradition, culture, or system previously known to the Codex. This property does not automatically translate unknown writing or solve ciphers, but may provide clues to their origin or structure.
