Ronan

CHARACTER NAME

34	7'1 ft	1'020 lbs
AGE	HEIGHT	WEIGHT
Amber	Chestnut	Auburn
EYES	SKIN	HAIR

Ronan is noticeably smaller and leaner than most centaurs, with a wiry, athletic build that favors agility over strength. His chestnut equine coat fades into darker legs, while his human features are framed by shoulder-length auburn hair and a neatly trimmed beard. His keen amber eyes constantly scan his surroundings.

CHARACTER APPEARANCE

NAME

Caelthir Tribe

SYMBOL

The Caelthir Tribe, who call themselves the Children of the Hidden Moon, is a secluded community united by a common purpose: protecting those stranded from the Feywild and uncovering the secrets of the mysterious portals that bind the two realms. Within their hidden village of Ty Coeden, Fey Eladrin, Korreds, Satyrs, Centaurs, and other Fey creatures work together, combining their knowledge in hopes of one day reopening a stable path home. The tribe values harmony with nature, self-reliance, and the preservation of Fey traditions, while remaining wary of the wider mortal world. Every new arrival is welcomed as kin, for each carries experiences that may help solve the mystery of the portals. Though many Caelthir long to return to the Feywild, others have begun to see Caledonia as their new home, creating a quiet divide between preserving the past and embracing the future.

ALLIES & ORGANIZATIONS

Ronan has an uncanny sense of direction and can often retrace a path after seeing it only once. He instinctively notices broken twigs, disturbed moss, or unusual birdsong that others overlook. During quiet moments, he whittles small animal figurines from fallen branches, leaving them tucked beneath old trees for children or wandering travellers to discover. He enjoys listening to the sounds of the forest at dawn, believing each morning has its own distinct chorus. Ronan rarely raises his voice, even in tense situations, and prefers long silences over needless conversation. He carefully maintains his bow and arrows every evening, treating them with the same respect others reserve for family heirlooms. Though modest about his accomplishments, he quietly remembers every kindness shown to him and often repays it when least expected.

ADDITIONAL FEATURES & TRAITS

Ronan was born noticeably smaller than the other foals of his herd, a difference that followed him into adulthood. While his peers excelled in contests of strength and thunderous charges through the forest, he struggled to keep pace. Rather than surrender to frustration, he devoted himself to the skills that required patience instead of power. He learned every game trail winding through the Woods of Lomond, mastered the longbow, and became an unmatched tracker whose greatest victories came before an arrow was ever loosed.

As he matured, Ronan took on the role of a border warden for the centaur clans, quietly watching the hidden paths that led into their territory. His keen eyes and calm judgement often prevented conflict before it began, whether by guiding lost travellers away, detecting dangerous beasts, or warning his people of approaching threats.

Although some outsiders mistake his reserved nature for timidity, those who know Ronan understand that courage is not measured by physical strength. He has earned the respect of his tribe through unwavering dedication, proving that perseverance, wisdom, and a steady hand can protect the forest just as surely as the mightiest warrior.

CHARACTER BACKGROUND

Carved Charm

A small wooden fox, carefully carved by Ronan during long patrols. Though worn smooth by time, he carries it as a reminder that cleverness often triumphs over strength.

Weathered Antler Whistle

Fashioned from the shed antler of a woodland stag, its soft call can be heard only a short distance away. Ronan uses it to signal trusted allies without disturbing the forest.

River Stone Compass

A flat, pale stone marked with naturally intersecting veins that resemble a compass rose. Ronan found it beside a secluded stream and keeps it as a token that every journey has a path home.

PERSONALITY TRAITS

Patient and observant, Ronan listens far more than he speaks. He trusts careful preparation over bold action and finds comfort in the quiet rhythms of the wilderness.

Alignment *Neutral Good*

IDEALS

True strength is measured by wisdom, perseverance, and the willingness to protect others.

BONDS

The Woods of Lomond and his centaur kin are his home. He will defend them from any threat, no matter the cost.

FLAWS

Ronan often doubts his own abilities and hesitates to rely on others, believing every burden should be his alone.

Features, Magic Items and Spells

Centaur Traits

Charge

If you move at least 30 feet straight toward a target and then hit it with a melee weapon attack on the same turn, you can immediately follow that attack with a bonus action, making one attack against the target with your hooves.

Equine Build

You count as one size larger when determining your carrying capacity and the weight you can push or drag.

In addition, any climb that requires hands and feet is especially difficult for you because of your equine legs. When you make such a climb, each foot of movement costs you 4 extra feet instead of the normal 1 extra foot.

Hooves

You have hooves that you can use to make unarmed strikes. When you hit with them, the strike deals 1d6 + your Strength modifier bludgeoning damage, instead of the bludgeoning damage normal for an unarmed strike.

Natural Affinity

Medicine Proficiency
Your fey connection to nature gives you an intuitive connection to the natural world and the animals within it. You therefore have proficiency in one of the following skills of your choice: Animal Handling, Medicine, Nature, or Survival.

Feats

Blood Hound

Your senses are heightened beyond those of most folk. Whether these senses were strengthened through training or the loss of other senses, or they simply matured as you did, you are a master of finding those whom you seek. You gain the following benefits.

Motion Sensor. Whenever a creature that is Small or larger moves within 10 feet of you while you do not have the Unconscious condition, you immediately become aware of its presence.

No Hiding. You have Advantage on Wisdom (Perception) checks that rely on sound or smell.

Fighting Style: Archery

You gain a +2 bonus to attack rolls you make with Ranged weapons.

Ranger Traits

Favored Enemy

You always have the Hunter's Mark spell prepared. You can cast it twice without expending a spell slot, and you regain all expended uses of this ability when you finish a Long Rest.

The number of times you can cast the spell without a spell slot increases when you reach certain Ranger levels, as shown in the Favored Enemy column of the Ranger Features table.

Weapon Mastery

Longbow, Shortsword
Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Longbows and Shortswords.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Longswords.

Slow (Longbow)

If you hit a creature with this weapon and deal damage to it, you can reduce its Speed by 10 feet until the start of your next turn. If the creature is hit more than once by weapons that have this property, the Speed reduction doesn't exceed 10 feet.

Vex (Shortsword)

If you hit a creature with this weapon and deal damage to the creature, you have Advantage on your next attack roll against that creature before the end of your next turn.

Deft Explorer

Perception Expertise; Sylvan, Dwarvish
Thanks to your travels, you gain the following benefits.

Expertise. Choose one of your skill proficiencies with which you lack Expertise. You gain Expertise in that skill.

Languages. You know two languages of your choice from the language tables in chapter 2.

Fighting Style

Archery
You gain a Fighting Style feat of your choice. Instead of choosing one of those feats, you can choose the option below.

Monster Slayer Magic

Starting at 3rd level, you learn an additional spell when you reach certain levels in this class, as shown in the Monster Slayer Spells table. The spell counts as a ranger spell for you, but it doesn't count against the number of ranger spells you know.

Monster Slayer Spells

	Ranger Level	Spells
•	3rd	Protection from Evil and Good
•	5th	Zone of Truth
	9th	Magic Circle
	13th	Banishment
	17th	Hold Monster

Hunter's Sense

At 3rd level, you gain the ability to peer at a creature and magically discern how best to hurt it. As an Action, choose one creature you can see within 60 feet of you. You immediately learn whether the creature has any damage immunities, resistances, or vulnerabilities and what they are. If the creature is hidden from divination magic, you sense that it has no damage immunities, resistances, or vulnerabilities.

You can use this feature a number of times equal to your Wisdom modifier (minimum of once). You regain all expended uses of it when you finish a long rest.

Slayer's Prey

Starting at 3rd level, you can focus your ire on one foe, increasing the harm you inflict on it. As a bonus action, you designate one creature you can see within 60 feet of you as the target of this feature. The first time each turn that you hit that target with a weapon attack, it takes an extra 1d6 damage from the weapon.

This benefit lasts until you finish a short or long rest. It ends early if you designate a different creature.

Extra Attack

You can attack twice instead of once whenever you take the Attack action on your turn.

Roving

Your Speed increases by 10 feet while you aren't wearing Heavy armor. You also have a Swim Speed equal to your Speed.

Supernatural Defense

At 7th level, you gain extra resilience against your prey's assaults on your mind and body. Whenever the target of your Slayer's Prey forces you to make a saving throw and whenever you make an ability check to escape that target's grapple, add 1d6 to your roll.

Spells

Level 1

Assisted Aim

1st-Level Enchantment

Casting Time: Action
Range: 30 Feet
Components: V, S
Duration: 1 Minute

You invigorate up to three creatures within range with improved accuracy. Each target gains a +1 bonus to attack rolls it makes with Ranged weapons. Additionally, the normal and long range of Ranged weapons wielded by a target are doubled for the spell's duration.

Using a Higher-Level Spell Slot. You can target one additional creature for each spell slot level above 1.

Blood Rush

1st-Level Transmutation (Sangromancy)

Casting Time: Bonus Action
Range: Self
Components: S
Duration: Instantaneous

As part of casting this spell, you must expend one Hit Point Die or the spell automatically fails. Roll the Hit Point Die twice, and regain a number of Hit Points equal to the added roll plus your spellcasting ability modifier.

Using a Higher-Level Spell Slot. You can expend one additional Hit Point Die for each spell slot level above 1.

Hunter's Mark

1st-Level Divination

Casting Time: Bonus Action
Range: 90 Feet
Components: V
Duration: Concentration, up to 1 Hour

You magically mark one creature you can see within range as your quarry. Until the spell ends, you deal an extra 1d6 Force damage to the target whenever you hit it with an attack roll. You also have Advantage on any Wisdom (Perception or Survival) check you make to find it.

If the target drops to 0 Hit Points before this spell ends, you can take a Bonus Action to move the mark to a new creature you can see within range.

Using a Higher-Level Spell Slot. Your Concentration can last longer with a spell slot of level 3-4 (up to 8 hours) or 5+ (up to 24 hours).

Protection from Evil and Good

1st-Level Abjuration

Casting Time: Action
Range: Touch
Components: V, S, M (a flask of Holy Water worth 25+ GP, which the spell consumes)
Duration: Concentration, up to 10 Minutes

Until the spell ends, one willing creature you touch is protected against creatures that are Aberrations, Celestials, Elementals, Fey, Fiends, or Undead. The protection grants several benefits. Creatures of those types have Disadvantage on attack rolls against the target. The target also can't be possessed by or gain the Charmed or Frightened conditions from them. If the target is already possessed, Charmed, or Frightened by such a creature, the target has Advantage on any new saving throw against the relevant effect.

Tremor

1st-Level Evocation

Casting Time: Action
Range: Self
Components: V, S, M (small bell)
Duration: Concentration, up to 1 Minute

The ground around you in a 15-foot Emanation begins to shake violently. You are unaffected by the tremors. The ground is considered Difficult Terrain and whenever the Emanation enters a creature's space, a creature enters the Emanation, or the creature ends its turn there, the creature makes a Dexterity saving throw. On a failed save, the creature takes 1d6 Bludgeoning damage and has the Prone condition. A creature makes this save only once per turn.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 1.

Level 2

Barkskin

2nd-Level Transmutation

Casting Time: Bonus Action
Range: Touch
Components: V, S, M (a handful of oak bark)
Duration: 1 Hour

You touch a willing creature. Until the spell ends, the target's skin assumes a bark-like appearance, and the target has an Armor Class of 17 if its AC is lower than that.

Cordon of Arrows

2nd-Level Transmutation

Casting Time: Action
Range: Touch
Components: V, S, M (four or more arrows or bolts)
Duration: 8 Hours

You touch up to four nonmagical Arrows or Bolts and plant them in the ground in your space. Until the spell ends, the ammunition can't be physically uprooted, and whenever a creature other than you enters a space within 30 feet of the ammunition for the first time on a turn or ends its turn there, one piece of ammunition flies up to strike it. The creature must succeed on a Dexterity saving throw or take 2d4 Piercing damage. The piece of ammunition is then destroyed. The spell ends when none of the ammunition remains planted in the ground.

When you cast this spell, you can designate any creatures you choose, and the spell ignores them.

Using a Higher-Level Spell Slot. The amount of ammunition that can be affected increases by two for each spell slot level above 2.

Sanguine Secrets

2nd-Level Divination

Casting Time: Bonus Action
Range: 30 Feet
Components: V, S, M (a drop of blood, which the spell consumes)
Duration: 1 Round

You draw knowledge through the power of blood about a creature you can see within range. You learn the target's species and creature type, its current Hit Points, and any conditions affecting it. You also learn if it has any of the following, and, if so, what they are: Vulnerability, Resistance, or Immunity to damage or conditions. Additionally, the next ability check or attack roll you make against the target before the end of your next turn has Advantage.

Zone of Truth

2nd-Level Enchantment

Casting Time: Action
Range: 60 Feet
Components: V, S
Duration: 10 Minutes

You create a magical zone that guards against deception in a 15-foot-radius Sphere centered on a point within range. Until the spell ends, a creature that enters the spell's area for the first time on a turn or starts its turn there makes a Charisma saving throw. On a failed save, a creature can't speak a deliberate lie while in the

radius. You know whether a creature succeeds or fails on this save.

An affected creature is aware of the spell and can avoid answering questions to which it would normally respond with a lie. Such a creature can be evasive yet must be truthful.

Magic Items

Archet Hunting Longbow

Weapon (Longbow), Unknown (Requires Attunement)
When making a weapon attack roll with an Archet hunting bow, you can use your Wisdom modifier instead of your Dexterity modifier for the attack and damage rolls. You must use the same modifier for both rolls. In addition, when you score a critical hit with an Archet hunting bow, you can roll one additional weapon damage die and add it to the extra damage.

Magical Ammunition

Bloodseeker Arrow

Ammunition (Arrow), Very Rare
Ranged attack rolls made with this ammunition have advantage against any creature that doesn't have all its hit points.

Fell Arrow

Ammunition (Arrow), Unknown
When you score a critical hit with this weapon, you can roll two additional weapon damage dice and add them to the extra damage.

Winged Arrow

Ammunition (Arrow), Uncommon
Ranged weapon attack rolls made with this ammunition ignore half and three-quarters cover. In addition, attacking at long range doesn't impose disadvantage on ranged weapon attack rolls made with this ammunition.
