Vaelis

CHARACTER NAME

41	6'3 ft	170 lbs
AGE	HEIGHT	WEIGHT
Pale White	Blue-Gray	None
EYES	SKIN	HAIR

Vaelis' tall, lean body is covered in smooth blue-grey skin stretched over wiry musculature, giving him an unsettling, almost sculpted appearance. His bald head, elongated features, and large, pale eyes lack familiar warmth, while subtle ridges trace his limbs and torso. Long, slender fingers end in sharp nails, and every movement is unnaturally fluid, as though his body was never meant to keep a single shape.

CHARACTER APPEARANCE

The Caelthir Tribe, who call themselves the Children of the Hidden Moon, is a secluded community united by a common purpose: protecting those stranded from the Feywild and uncovering the secrets of the mysterious portals that bind the two realms. Within their hidden village of Ty Coeden, Fey Eladrin, Korreds, Satyrs, Centaurs, and other Fey creatures work together, combining their knowledge in hopes of one day reopening a stable path home. The tribe values harmony with nature, self-reliance, and the preservation of Fey traditions, while remaining wary of the wider mortal world. Every new arrival is welcomed as kin, for each carries experiences that may help solve the mystery of the portals. Though many Caelthir long to return to the Feywild, others have begun to see Caledonia as their new home, creating a quiet divide between preserving the past and embracing the future.

NAME

Caelthir Tribe

SYMBOL

ALLIES & ORGANIZATIONS

Vaelis treats identity as a game of probability, believing every face is another wager against fate itself. He studies mannerisms with obsessive precision, able to reproduce voices, habits, and expressions after only brief observation. Rarely forming emotional attachments, he instead evaluates people by the opportunities and risks they represent. He keeps meticulous mental records of every disguise he has ever worn, refusing to revisit an identity once it has "lost its luck." Superstitious despite his rational mind, he quietly performs small rituals before dangerous undertakings—flipping a coin, drawing a marked card, or rolling carved dice—to test whether fortune favors his next move. Failures are never blamed on chance alone; to Vaelis, every setback is simply evidence that he chose the wrong face.

ADDITIONAL FEATURES & TRAITS

Vaelis learned early that people around him were strangely unlucky. Friends suffered accidents, partners lost fortunes, mentors met untimely ends, and every place he came to call home eventually fell victim to improbable disaster. Whether through curse, fate, or the chaotic magic he unknowingly carried as a Misfortune Bringer, misfortune always seemed to spread to those closest to him.

Fear soon followed. Villages whispered that he was cursed, companions abandoned him, and those who remained rarely survived long enough to disprove the rumors. As a changeling, Vaelis discovered he could escape his reputation by becoming someone else. Each new identity offered another chance at belonging—until luck inevitably turned against those around him once more.

Over decades he became an expert liar, thief, and infiltrator, not because he enjoyed deception, but because changing faces was the only way to outrun his own legend. He adopted gambling as both profession and philosophy, convinced that fate itself could be bargained with if he learned its patterns. His latest identity, "Steve," was never meant to last. Yet for the first time, he finds himself reluctant to abandon a life before misfortune claims it as well.

CHARACTER BACKGROUND

Weathered Coin
A tarnished silver coin from a kingdom Steve cannot identify. He keeps it tucked into a hidden pocket, convinced it must have belonged to someone important, though he cannot explain why.

Plain Brass Locket
An inexpensive locket containing no portrait or inscription. Its emptiness feels oddly comforting, and Steve has never considered replacing it with a picture.

Carved Bone Die
A six-sided die with slightly uneven faces, worn smooth from years of idle fidgeting. Steve absentmindedly rolls it whenever he finds himself uncertain or deep in thought.

PERSONALITY TRAITS

Vaelis is calculating, self-reliant, and quietly superstitious. He keeps others at arm's length, believing attachment invites disaster. Every decision is weighed like a wager, and he constantly searches for signs that fate can be outplayed.

Alignment *Neutral Neutral*

IDEALS

Fate is neither kind nor cruel - it is merely another opponent. With enough skill, patience, and daring, even destiny can be cheated.

BONDS

He secretly longs for a life where he can keep one name, one face, and genuine companions without fearing his curse will destroy them.

FLAWS

He abandons relationships at the first sign of misfortune, convinced he endangers everyone around him, and trusts luck more than people.

Features, Magic Items and Spells

Changeling Traits

Changeling Instinct

Deception, Performance Proficiency
Thanks to your connection to the fey realm, you gain proficiency in two of the following skills of your choice: Deception, Insight, Intimidation, Performance, or Persuasion.

Shapeshifter

As an action, you can shape-shift to change your appearance and your voice. You determine the specifics of the changes, including your coloration, hair length, and sex. You can also adjust your height and weight and can change your size between Medium and Small. You can make yourself appear as a member of another playable species, though none of your game statistics change. You can't duplicate the appearance of an individual you've never seen, and you must adopt a form that has the same basic arrangement of limbs that you have. This trait doesn't change your clothing and equipment.

While shape-shifted with this trait, you have Advantage on Charisma checks.

You stay in the new form until you take an action to revert to your true form.

Feat

Fate Gambler

Coming out ahead, whether in games of chance or in life-or-death contention, fills you with resolve and vigor. You gain the following benefits.

Bet Big. If you don't already have it, you gain Heroic Inspiration whenever you succeed on an ability check made against another creature, when you reduce a creature to 0 Hit Points, or when a creature fails a saving throw you forced it to make. If, in any of these cases, the creature has a CR of 0 or lacks a CR (such as another player character), you don't gain Heroic Inspiration.

Win Big. As a Bonus Action, you can expend your Heroic Inspiration to gain a number of Temporary Hit Points equal to your level.

Rogue Traits

Expertise

Deception, Stelth Expertise
You gain Expertise in two of your skill proficiencies of your choice. Sleight of Hand and Stealth are recommended if you have proficiency in them.

Sneak Attack

Sneak Attack: 3d6
You know how to strike subtly and exploit a foe's distraction. Once per turn, you can deal an extra 1d6 damage to one creature you hit with an attack roll if you have Advantage on the roll and the attack uses a Finesse or a Ranged weapon. The extra damage's type is the same as the weapon's type.

You don't need Advantage on the attack roll if at least one of your allies is within 5 feet of the target, the ally doesn't have the Incapacitated condition, and you don't have Disadvantage on the attack roll.

The extra damage increases as you gain Rogue levels, as shown in the Sneak Attack column of the Rogue Features table.

Thieves' Cant

You picked up various languages in the communities where you plied your roguish talents. You know Thieves' Cant and one other language of your choice, which you choose from the language tables in chapter 2.

Weapon Mastery

Your training with weapons allows you to use the mastery properties of two kinds of weapons of your choice with which you have proficiency, such as Daggers and Shortbows.

Whenever you finish a Long Rest, you can change the kinds of weapons you chose. For example, you could switch to using the mastery properties of Scimitars and Shortswords.

Nick (Dagger)

When you make the extra attack of the Light property, you can make it as part of the Attack action instead of as a Bonus Action. You can make this extra attack only once per turn.

Vex (Shortbow)

If you hit a creature with this weapon and deal damage to the creature, you have Advantage on your next attack roll against that creature before the end of your next turn.

Cunning Action

Your quick thinking and agility allow you to move and act quickly. On your turn, you can take one

of the following actions as a Bonus Action: Dash, Disengage, or Hide.

Misfortune Bringer

Evil Eye

You can place a minor curse with a glance. As a Bonus Action, choose a creature you can see within 60 feet of yourself to be cursed by your Evil Eye. While a creature is cursed by your Evil Eye, you can deal Sneak Attack damage to the creature if you don't have Disadvantage on the attack roll.

The creature remains cursed by your Evil Eye for 1 minute or until you curse a different creature with your Evil Eye, whichever comes first.

Misfortunist

You learn Misfortunes that you can inflict on those cursed by your Evil Eye.

Misfortunes. You learn two Misfortunes of your choice, which are detailed under "Misfortunes" below.

You learn an additional Misfortune of your choice when you reach Rogue levels 9, 13, and 17. When you finish a Long Rest, you can replace one Misfortune you know with a different one.

Jinx Points. You have 4 Jinx Points. You gain 2 additional Jinx Points at Rogue level 13. To use a Misfortune option, you must spend the number of Jinx Points that it costs.

You regain all expended Jinx Points when you finish a Short or Long Rest.

Saving Throws. If a Misfortune requires a saving throw, the DC equals 8 + your Charisma or Intelligence modifier (your choice) + your Proficiency Bonus.

Curse of the Debilitated

Cost: 1 Jinx Point

When a creature cursed by your Evil Eye takes damage, you can take a Reaction and spend 1 Jinx Point to roll 1d12. The creature takes Necrotic damage equal to the roll.

After you use this Misfortune, the creature is no longer cursed by your Evil Eye.

Curse of the Inept

Cost: 1 Jinx Point

After a creature you can see that is cursed by your Evil Eye makes a D20 Test, you can take a Reaction and spend 1 Jinx Point to make the target reroll, and it must use the new roll.

After you use this Misfortune, the creature is no longer cursed by your Evil Eye.

Steady Aim

As a Bonus Action, you give yourself Advantage on your next attack roll on the current turn. You can use this feature only if you haven't moved during this turn, and after you use it, your Speed is 0 until the end of the current turn.

Cunning Strike

You've developed cunning ways to use your Sneak Attack. When you deal Sneak Attack damage, you can add one of the following Cunning Strike effects. Each effect has a die cost, which is the number of Sneak Attack damage dice you must forgo to add the effect. You remove the die before rolling, and the effect occurs immediately after the attack's damage is dealt. For example, if you add the Poison effect, remove 1d6 from the Sneak Attack's damage before rolling.

If a Cunning Strike effect requires a saving throw, the DC equals 8 plus your Dexterity modifier and Proficiency Bonus.

Poison (Cost: 1d6). You add a toxin to your strike, forcing the target to make a Constitution saving throw. On a failed save, the target has the Poisoned condition for 1 minute. At the end of each of its turns, the Poisoned target repeats the save, ending the effect on itself on a success.

To use this effect, you must have a Poisoner's Kit on your person.

Trip (Cost: 1d6). If the target is Large or smaller, it must succeed on a Dexterity saving throw or have the Prone condition.

Withdraw (Cost: 1d6). Immediately after the attack, you move up to half your Speed without provoking Opportunity Attacks.

Uncanny Dodge

When an attacker that you can see hits you with an attack roll, you can take a Reaction to halve the attack's damage against you (round down).

Expertise

Insight, Perception Expertise

You gain Expertise in two of your Skill Proficiencies of your choice.

Magic Items

Cloak of Elvenkind

Wondrous Item, Uncommon (Requires Attunement)
While you wear this cloak, Wisdom (Perception) checks made to perceive you have Disadvantage, and you have Advantage on Dexterity (Stealth) checks.

Dagger of Blindsight

Weapon (Dagger), Rare (Requires Attunement)
This rare magic item requires attunement. A creature attuned to it gains blindsight out to a range of 30 feet. The dagger has a saw-toothed edge and a black pearl nested in its pommel.
